11. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

"In exercise of the power conferred by Section 72 of the Government of India Act, 1915, the Governor-General is pleased to make and promulgate an ordinance called Indian Legislative Council Elections Inquiries Ordinance, 1916, which enacts that when desirable that an enquiry be held connected with the election to the Indian Legislative Council, the Governor-General in Council may, by order in writing, appoint any specified person to be Commissioner for holding such enquiry, the said Commissioner having same powers as a Court under the Code of Civil Procedure, 1888, in regard to enforcing the attendance of witnesses and examining them, compelling the production of documents, and issuing commissions for examination of witnesses."

MADRAS LEGISLATIVE COUNCIL.

The Legislative Councils in India were constituted under the Indian Councils Act, 1861, and enlarged by the Indian Councils Act, 1892, and the Indian Councils Act, 1909. The statute of 1861 prescribed that the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations should be composed of the Ordinary Members of the Governor's Council and a number of Additional Members, including the Advocate-General, to be nominated by the Governor, provided that the number so nominated should be not less than four nor more than eight in addition to the Advocate-General, and that not less than half of the additional members should be non-official persons. By the statute of 1892 the minimum and the maximum numbers of additional members were raised to eight and twenty respectively, in addition to the Advocate-General, and the Governor was empowered to nominate all of them subject to regulations framed by the Governor-General in Council with the approval of the Secretary of State in Council. Under these regulations the maximum number of official additional members, including the Advocate-General, was fixed at nine; seven non-official members were nominated respectively on the recommendation of (1) the Commissioners of the Corporation of Madras, (2) the northern and (3) southern groups of district municipalities, (4) the northern and (5) southern groups of district boards, (6) the Madras Chamber of Commerce and (7) the Senate of the University of Madras; the other non-official members were nominated in such a manner as to secure a fair representation of the different classes of the community: one seat being ordinarily for a *samindar* paying not less than Rs. 20,000 as *peshkash* annually to Government. The statute of 1909 further enhanced the maximum number of additional members to fifty and directed that they should be partly nominated by the Governor and partly elected. The number of members to be nominated or elected, and the conditions and methods of nomination and election, the term of office and other minor questions were relegated to subsidiary regulations framed by the Governor-General. The regulations applicable to the Madras Presidency, as amended in 1912, provide for 42 additional members, excluding the Advocate-General, of whom 21 are to be elected and 21 nominated. The twenty-one elected members are chosen by the following constituencies:—

(i) The Corporation of Madras ..	...	...	1 member.
(ii) The University of Madras ..	...	...	1 "
(iii) Municipal councils and district and taluk boards ..	...	...	9 members.
(iv) Zamindars ..	...	...	2 "
(v) Landholders other than zamindars ..	...	...	3 "
(vi) The Muhammadan community ..	...	...	2 "
(vii) The Madras Chamber of Commerce ..	...	...	1 member.
(viii) The Madras Traders' Association ..	...	...	1 "
(ix) The Planting community ..	...	...	1 "

Of the 21 nominated members, not more than 16 may be officials and one must be a non-official member selected from the Indian commercial community. In addition to these 42 additional members and the Advocate-General, two experts, either official or non-official, may also be nominated when necessary, subject to the condition that the total number of official members shall in no circumstances constitute a majority of the Council. The following general conditions regulate the eligibility of candidates for election:—

No person shall be eligible for election as a member of the Council, if such person—

- (a) is an official, or
- (b) is not a British subject, or
- (c) is a female, or
- (d) has been adjudged by a competent court to be of unsound mind, or
- (e) is under twenty-five years of age, or
- (f) is an uncertificated bankrupt or an undischarged insolvent, or
- (g) has been dismissed from the Government service, or
- (h) has been sentenced by a criminal court to imprisonment for an offence punishable with imprisonment for a term exceeding six months, or to transportation, or has been ordered to find security for good behaviour under the Code of Criminal Procedure, such sentence or order not having subsequently been reversed or remitted, or the offender pardoned, or

(i) has been debarred from practising as a legal practitioner by order of any competent authority, or

(j) has been declared by the Governor in Council to be of such reputation and antecedents that his election would, in the opinion of the Governor in Council, be contrary to the public interest;

Provided that in the last four cases the disqualification may be removed by an order of the Governor in Council in this behalf. Every candidate must also possess the qualifications as to residence, property and other matters prescribed in the special rules applying to the electorate by which he seeks election. Disputes as to the validity of an election are settled by the Governor in Council whose decision in regard to the intention, construction or application of the regulations is final. Every additional member is

required to take an oath or the affirmation of allegiance to the Crown before assuming his seat in the Council. The term of office is ordinarily three years from the date of nomination or election, but a member appointed to fill a casual vacancy holds office only for the unexpired portion of the original member's three-year period. Acceptance of an appointment under the Crown automatically renders the seat of a non-official member vacant; the Governor is required to declare a seat vacant if the holder fails to take the oath or affirmation of allegiance within a reasonable period, or subsequent to his appointment becomes subject to the more important of the disabilities enumerated above as disqualifying candidates for election. The Governor has also power to remove any member who is absent from India or unable to attend to the duties of his office for a period of two consecutive months. At meetings of the Council the Governor, or in his absence the Vice-President appointed by him, presides and in that capacity has a casting-vote. Ten members in addition to the presiding officer form a quorum for the transaction of business.

The Council is empowered to make laws and regulations for the peace and good government of the whole Presidency and for that purpose may repeal or amend any law or regulation made prior to 1861 by any authority in India in so far as it is applicable to this Presidency; with the previous sanction of the Governor-General, it may also repeal or amend as to this Presidency any law or regulation made at any time by any other authority in India, but no alteration of any Act of Parliament may be effected. No measure affecting the public revenues or imposing any charge on them may be introduced without the previous sanction of the Governor; and the previous sanction of the Governor-General is prescribed with respect to all laws and regulations—

- (1) affecting the public debt of India, or the customs duties, or any other tax or duty now in force and imposed by the authority of the Government of India for the general purposes of the Government;
- (2) regulating any of the current coin, or the issue of any bills, notes, or other paper of currency;
- (3) regulating the conveyance of letters by the post office or messages by the electric telegraph within the Presidency;
- (4) altering in any way the Indian Penal Code (India Act XLV of 1860);
- (5) affecting the religion or religious rites and usages of any class of His Majesty's subjects in India;
- (6) affecting the discipline or maintenance of any part of His Majesty's military or naval forces;
- (7) regulating patents or copyright; or
- (8) affecting the relations of Government with foreign princes or states.

No law or regulation passed by the Legislative Council is valid until both the Governor and the Governor-General have assented to it and such assent has been formally published. Any such law or regulation may be disallowed by the Crown, but if it is disallowed, it becomes null and void only from or after the day on which the Governor makes known by proclamation or by signification to the Council that he has received notification of the disallowance.

The ordinary rules for the conduct of business in the Legislative Council as originally framed by the Governor, subject to the sanction of the Governor-General in Council, may be amended by the Council itself subject to the assent of the Governor, but the Governor-General in Council has power to disallow any such rules. The special rules relating to the discussion of the annual financial statement, to discussion of matters of general public interest and to the asking of questions are made by the Governor in Council subject to the sanction of the Governor-General in Council and may not be altered or amended by the Council.* The times and places of meetings are fixed

by the Governor and the Secretary notifies the same in the *Fort St. George Gazette* and to each member by letter. Any member may at a meeting of the Council apply for leave to introduce a bill. As soon as such leave is granted he is required to send a copy of the bill with connected papers and a statement of the objects and reasons for the proposed measure to the Secretary to the Council who causes them to be printed and furnished to all the members. The bill and the statement of objects and reasons are published in the official gazette in English and in such vernacular languages as the Governor directs. Fifteen clear days must intervene between publication and introduction. When a bill is introduced, the principle of the bill and its general provisions may be discussed and, if necessary, it may be referred to a Select Committee for report. Reports of Select Committees must, unless the Committee otherwise directs, be published in the official gazette in the languages in which the original bill was published and copies are distributed to the members before a measure is brought up for final consideration.

While the Indian Councils Act, 1861, restricted the business of the Legislative Councils to the discussion of bills and the passing of Acts, the Indian Councils Act, 1892, extended their functions and authorized them also to discuss the annual financial statement of the Province and to ask questions subject to certain reservations. The Indian Councils Act, 1909, further authorizes the consideration of resolutions on matters of general public interest and the rules framed under the same statute for the discussion of the annual financial statement also confer on the Council enhanced power to examine the details of the Provincial budget. This examination is carried out by a Finance Committee consisting of 12 members, of whom not more than six are nominated and at least six are elected by the non-official members. The Committee consider the draft financial statement and may make recommendations to Government. The statement is then revised, if necessary, and discussed at a meeting of the Legislative Council at which resolutions may be brought forward by the members, provided that no discussion shall be permitted in regard to any of the following subjects, namely :—

(a) any subject removed from the cognizance of the Legislative Council of the Governor by section 43 of the Indian Councils Act 1861 :

(b) any matter affecting the relations of His Majesty's Government, or of the Governor-General in Council, or of the Governor in Council with any Foreign State or any Native State in India, or relating to the internal affairs of any such Native State ;

(c) except with the sanction of the Governor, any matter which is the subject of discussion between the Governor-General in Council or the Secretary of State and the Local Government ; or

(d) any matter under adjudication by a Court of Law having jurisdiction in any part of His Majesty's dominions.

No resolution shall be moved which does not comply with the following conditions, namely :—

(a) it shall be in the form of a specific recommendation addressed to the Governor in Council ;

(b) it shall be clearly and precisely expressed and shall raise a definite issue ;

(c) it shall not contain arguments, inferences, ironical expressions or defamatory statements, nor shall it refer to the conduct or character of any person except in his official or public capacity ;

(d) it shall not challenge the accuracy of the figures of the revised financial statement ;

(e) it shall be directly relevant to some entry in revised financial statement ;

(f) it shall not criticize any decision of the Government of India in respect of Provincial finance ; and

(g) if it would in itself have the effect of causing the total expenditure of the Presidency to exceed the amount sanctioned by the Government of India, it must propose some counterbalancing reduction in the estimate so as to avoid such excess.

Resolutions may also be disallowed on the ground that they cannot be moved consistently with public interests or that they should be moved in the Legislative Council of the Governor-General. The revised financial statement as amended with reference to any resolutions passed in regard thereto and approved by the Government of India forms the budget and this is further discussed at a later date. It is not subject to the vote of the Council and members cannot move any resolution in regard to it, but they may offer any observations they may wish to make, the discussion being limited to those branches of revenue and expenditure subject to the control of the Local Government. Any criticism of Imperial finance is forbidden. Resolutions as to matters of general public interest are, in respect to their form and subject-matter, liable to the same restrictions as resolutions relating to the revised financial statement and like the latter have merely the effect of recommendations to the Governor in Council. When a resolution has been discussed at a meeting of the Council or has been disallowed or withdrawn, no resolution raising substantially the same question shall be moved within one year. In respect of interpellations it is

laid down that no question shall be permitted in regard to any matter affecting the relations of His Majesty's Government or the Governor-General in Council, or of the Governor in Council with any Foreign State or any Native State in India, or relating to the internal affairs of any such Native State, or any matter under adjudication by a Court of Law having jurisdiction in any part of His Majesty's dominions. The President may disallow a question if it can not be answered consistently with public interests or is one that should be put in the Council of another Local Government or of the Governor-General. Questions must also be so framed as to be merely a request for information, and they must not be of excessive length or contain arguments, interferences, ironical expressions, or defamatory statements or refer to the conduct or character of persons except in their official or public capacity or ask for an expression of an opinion or the solution of a hypothetical proposition. In matters which are, or have been, the subject of controversy between the Governor-General in Council or the Secretary of State and the Local Government no question may be asked except as to matters of fact, and the answer must be confined to a statement of facts. No discussion is permitted in respect of a question or of an answer given to a question; but a member is allowed the privilege of putting supplementary questions which are subject to the same restrictions as the original questions.

Petitions to the council must (1) relate to some matter actually under the consideration of the council; (2) be addressed to the "Governor in Council"; (3) be dated and signed by the petitioner or petitioners; (4) be in respectful and temperate language, and (5) conclude with a distinct prayer. The Secretary will bring the petition or an abstract of the same, and the Council shall then deal with the petition in such manner as it may deem proper.

Persons desirous of admission into the Council Chamber during the sittings of the Council shall make application to the Secretary through a member two days before the meeting. If a bill affecting private interests comes under the consideration of the Council or of the Select Committee, and if any person whose interests are so affected apply to the Council or the Select Committee for permission to be heard either personally or by Counsel on the subject of the bill, the Council or the Select Committee may, upon the motion of any member, direct that the petitioner or Counsel be heard at the meeting at which the motion is made or at some future specified time.

And a corrupt practice shall be deemed to be committed by a candidate if it is committed with his knowledge and consent or by a person who is acting under the general or special authority of such candidate with reference to the election.

If the validity of any election is brought in question by any person qualified either to be elected or to vote at such election on the ground of an improper rejection or reception of a nomination or of a vote, or of any corrupt practice in connection with such election or for any other cause such person may at any time within fifteen days from the date of publication of the result of such election in the gazette apply to the Local Government to set aside such election. The Governor in Council shall, after such enquiry (if any) as he may consider necessary, declare whether the candidate whose election is questioned or any or what other person was duly elected or whether the election was void. If the election is declared void, a new election shall take place.

35. When the registering authority or any officer duly authorised by him in this behalf has reasonable ground for suspecting that the axle-weight for the time being of any axle of any heavy motor-vehicle or trailer drawn thereby exceeds the registered or marked axle-weight of that axle he may cause the axle-weight for the time being of any such axle to be ascertained.

The person driving or in charge of such motor-vehicle shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

(2) The petition shall ordinarily be presented within the period specified in the notification prefixed to the list filed under section 16, or in the notice served under section 17, as the case may be. But the Collector may receive a petition after the expiration of that period if he is satisfied that the objector had sufficient cause for not presenting it within that period.

(3) The petition shall, as nearly as circumstances admit, be in the form contained in the third schedule to this Act, and the statements contained in the petition shall be verified by the petitioner or some other competent person in the manner required by law for the verification of plaints.

26. The Collector shall fix a day and place for the hearing of the petition, and on the day and at the place so fixed, or on the day and at the place, if any, to which he has adjourned the hearing, shall hear the petition and pass such order thereon as he thinks fit.

28. The Collector or Commissioner may, for the purpose of enabling him to determine how the petitioner or the company which he represents should be assessed, summon and enforce the attendance of witnesses and compel them to give evidence, and compel the production of documents, by the same means and, as far as possible, in the same manner, as is provided in the case of a Civil Court by the Code of Civil Procedure: Provided that the Collector or Commissioner shall not call for any evidence except at the instance of the petitioner or in order to ascertain the correctness of facts alleged by him.

CHAPTER V.

Provided that, where a person has presented a petition under section 25, such sum shall not be recoverable from him unless, within thirty days from the passing of the order on the petition, he fails to pay the amount, if any, required by that order.

(2) The Local Government may direct by what authority any powers or duties incident under any such enactment as aforesaid to the enforcement of any process for the recovery of a municipal tax or local rate shall be exercised or performed when that process is employed under sub-section (1) for the recovery of the tax chargeable under this Act.

(3) An order passed by the Collector under sub-section (1) shall have the force of a decree of a Civil Court in a suit in which the Government is the plaintiff and the defaulter is the defendant; and the order may be enforced in manner provided by the Code of Civil Procedure for the enforcement of decrees for money; and the procedure under the said Code in respect of the following matters, namely,—

(4) The Local Government may direct, with respect to any specified area, that the tax chargeable under this Act shall be recovered therein with, and as an addition to, any municipal tax or local rate by the same person and in the same manner as the municipal tax or local rate is recovered.

REGULATIONS OF PRESIDENCY MAGISTRATES' COURTS, MADRAS.

Approved G.O. No. 848, Judicial, dated 8th June 1901, and 890, Judicial, dated

28th February 1907.

RULES OF PRACTICE IN THE PRESIDENCY MAGISTRATES' COURTS AT MADRAS.

1. *Hours of Business*.—The Office Hours are 11 A.M. to 5 P.M. The Summons Office will open at 10 A.M. The Magistrates will ordinarily sit from 11 A.M. to 5 P.M. The Chief Presidency Magistrate shall make such arrangements as may be necessary for the despatch of emergent business or the clearing off of any arrears, which may have accumulated owing to holidays.

2. *Magistrates*.—Before commencing the Judicial work of the day, the Magistrate sitting in the Second Court will hear all complaints and applications for processes.

As soon after 11, as work in Chambers may permit, the Magistrate presiding over the First Court will take his seat on the Bench and attend to applications for adjournments and such other applications as parties may desire to make.

3. *Order of hearing charges*.—Cases will be taken, so far as practicable, in the following order:—

1st.—Night charges and prisoners in custody.

2nd.—Summons and Warrant cases, subject to any cases being specially appointed for a particular hour.

(i) Ordinarily night charges and summons cases will be tried by the Second Court, charge sheets and warrant cases being disposed of in the First Court

(ii) In the event of one Court getting through all the cases on its list at an early hour, reference should be made to the other Court for the transfer of some of the cases there awaiting trial.

4. *Transfer and Distribution of Cases*.—It shall be the duty of the other Presidency Magistrates to inform the Chief Presidency Magistrate of any unusual stress of business in their Courts and thereupon or of his own motion, the Chief Presidency Magistrate shall provide for such distribution or transfer of cases as will tend to prevent the disposal of any one case being unduly delayed by stress of business in a particular Court.

If, in any case there exist special circumstances, which in the opinion of any party concerned or interested in such case, require a departure from the ordinary procedure prescribed by these rules, such party may bring such special circumstances to the notice of the Chief Presidency Magistrate, who shall thereupon make such lawful order in the matter as he shall think fit.

5. *Complaints, Applications for Process, &c.*—Ordinary applications for process, copies, certificates, &c., are to be made to the Magistrates on their first taking their seats on the Bench in the morning. Applications which are shown to involve urgency may be made at any time during the sitting of the Court.

(i) All applications must be presented in person or by pleader. The Magistrates will not undertake to reply to written communications. Whenever a pleader [as defined in Section 4 (r) of the Code of Criminal Procedure] representing a party to any criminal proceeding does not file in court a vakalat from his client, such pleader shall be required to file a memorandum of appearance containing a declaration that he had been duly instructed to appear by or on behalf of the party whom he claims to represent. (ii) Professional gentlemen applying on behalf of their clients for the issue of any process are requested to have their cases entered in the register of applications and also to furnish the Summons Clerk with a draft of the charge they wish to be entered in the process. (iii) Complaints and applications should, as a general rule, be made in writing with proper stamp affixed. In each complaint, the names of the complainant and of the accused parties and also of the witnesses and the section of the law alleged to have been infringed should be legibly written with such particulars of the facts as may be necessary to support the complaint. (iv) Subpoenas for witnesses must be applied for three clear days before the day of hearing, unless the Magistrate sees reason to order otherwise. (v) Applications for subpoenas will not ordinarily be received after 1 P.M. Any emergent application made subsequent to that hour should be brought to the notice of the Magistrate for orders.

6 *Copying fees.*—Copies of records will be granted to persons authorized to receive them upon payment of the copying and examining charges, which will be levied in the form of two-anna copy stamp papers, at the rate of one paper for every 175 words or fraction thereof, except in cases where, under the law, such copies should be furnished free of cost. The payment of these charges does not affect the payment of fees under the Court-fees Act, or the exemptions from such payment, when the copies are exhibited in Court. No suitor or pleader will be allowed to make copies of records either personally or by agent.

(i) Translations made by the Court Interpreters will be charged for at As. 8 per 90 words or fraction thereof. (ii) Applications for copies of records must bear a Court-fee stamp, value one anna. Forms can be obtained on application to the Chief Clerk.

7. *Reports, returns, and record of cases.*—The Magistrates shall submit such forms, records, reports and returns as may be called for by the Chief Presidency Magistrate.

8. *Benches of Magistrates.*—(i) The Chief Presidency Magistrate may, of his own motion or on the application of any Presidency Magistrate, refer any case or classes of cases, triable by a Presidency Magistrate, for trial by a Bench of two or more Magistrates and may, by his order, appoint the time and place at which such Bench shall sit.

(ii) The Chief Presidency Magistrate shall, if present, officiate as chairman. In his absence, the Senior Magistrate present shall officiate as chairman. (iii) The chairman shall conduct the proceedings of the Court and exercise all the functions in that behalf usually exercised by a Presidency Magistrate when sitting alone; but it shall be competent to any member of the Bench to put any question to a witness either direct or through the chairman, as the latter may deem advisable, and to suggest any matter for the chairman's consideration. (iv) Each member of the Bench shall have a voice in the finding and sentence. In a Bench of three or other uneven number, the opinion of the majority shall prevail. When the numbers are even, the chairman shall have a casting vote. (v) In regard to the recording of evidence and the judgment, the proceedings shall be conducted in a manner similar to proceedings before a single Magistrate and subject to the provisions of Act V of 1898.

PRESIDENCY MAGISTRATES' COURTS.

Rules framed under Section 21, Code of Criminal Procedure.

1. The Honorary Presidency Magistrates shall sit as Benches to try such cases or classes of cases and to undertake such business as may be made over to them by the general or special order of the Chief Presidency Magistrate.

2. Each Bench will ordinarily consist of three Magistrates selected by the Chief Presidency Magistrate from the list of those appointed by Government. A Bench will sit in the Magistrates' Court at Egmore and another in the Court at Georgetown from 7-80 to 9-30 A.M. or till the work of the day is over, if earlier, on all days, except Sundays and close holidays.

3. Not less than ten days before the end of each month, the Chief Presidency Magistrate will arrange the order in which and the days on which the Honorary Presidency Magistrates shall sit during the following month and communicate the same to the Honorary Presidency Magistrates concerned. If any Honorary Presidency Magistrate is unable to attend on a day for which he has been named, he shall give timely notice to the Chief Presidency Magistrate, mentioning, where possible, a substitute who is willing to take his place. The Chief Presidency Magistrate may depute such substitute in his place or make such other arrangement as he thinks fit. If occasion arises, the Chief Presidency Magistrate may alter any arrangements he has made under this rule.

4. The Chief Presidency Magistrate or any salaried Presidency Magistrate may, with the permission of the Chief Presidency Magistrate, sit as a member of a Bench of Honorary Presidency Magistrates.

5. In order to form a quorum, at least two Magistrates shall be present from the beginning to the end of a trial or inquiry as members of the Bench; provided that if a salaried Magistrate be present throughout the inquiry or trial, a case may be proceeded with to a decision notwithstanding that a quorum was not present throughout the proceedings. If a Bench is unable to sit for any particular day, the cases set down for hearing before it on that day may be put up before a Stipendiary Magistrate or adjourned to the Bench's next working day, as the Chief Presidency Magistrate may direct.

6. Any case before a Bench remaining unheard at the close of a sitting, may be either adjourned to the next working day or sent back to be disposed of as the Chief Presidency Magistrate directs.

7. The Chief Presidency Magistrate shall, if present, officiate as Chairman of the Bench. In his absence, the Stipendiary Presidency Magistrate (if any) present, shall officiate as Chairman of the Bench. In the absence of any Stipendiary Presidency Magistrate, the Bench shall, as often as may be necessary, elect a Chairman from among the Magistrates present. If the votes should be equal, the Chief Presidency Magistrate shall decide which Honorary Magistrate shall preside.

8. The Chairman shall conduct the proceedings of the Court and exercise all the functions in that behalf, usually exercised by a Stipendiary Magistrate when sitting alone. He shall decide upon the admissibility of evidence and maintain order in the Court, but it shall be open to any member of the Bench to put any question to the witnesses, either direct or through the Chairman, as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

9. The Chairman shall generally record the evidence and judgment in cases in which a record of evidence and judgment are necessary; but such duty may, with his consent, be performed by any one of his colleagues.

10. Each member of the Bench who has been present throughout the proceedings shall have a voice in the finding and sentence. In a Bench of three or other uneven number, the opinion of the majority shall prevail; when the numbers are even, the Chairman shall have a casting vote.

11. Notwithstanding any arrangement made as provided in rule 8, any quorum that may have heard part of a case which stands adjourned at the rising of the Court shall proceed with such case till the conclusion of the trial or inquiry, as the case may be, at sittings held either from day to day or, if the case stands adjourned for more than one day, then on the days to which it stands adjourned. In such case, the Chief Presidency Magistrate may, for as long as shall be necessary, set aside or vary any arrangement made under rule 8.

12. Every Honorary Presidency Magistrate will sign the daily calendar of the day's proceedings at which he is present.

13. The Chief Presidency Magistrate may, at any time, transfer for disposal any case whether part-heard or not from the file of any Bench to his own file or to the file of any salaried Magistrate or Bench of Honorary Magistrates.

14. The Chief Presidency Magistrate may, at any time, delegate any of his powers under these rules to any salaried Magistrate subordinate to him.

15. These rules shall also apply to any additional benches of Honorary Presidency Magistrates which the Governor in Council may be pleased to appoint.

Chief Secretary.

The Registration Act extends to the whole of British India, except such districts or tracts of country as the Local Government may, from time to time, with the previous sanction of the Governor-General in Council, exclude from its operation.

In Bengal, the Garo, Khasia, Jynteah, and Nagah Hills, the Chittagong Hill Tracts and the Tributary Mehals of Orissa and Chota-Nagpore have been excluded from the operation of the Act.—(*Beverley's Registration Manual*, p. 1.)

The whole of the Scheduled Districts of the Madras Presidency enumerated in Part I. of the First Schedule annexed to Act XIV of 1874, except the revenue taluks of Bhadrachalam and Nagur, is exempted from the operation of the Act.—(*vide Notification published in Fort St. George Gazette, dated 28th November 1905, Part I, page 991.*)

The Act has been applied to the Province of Mysore and to the Hyderabad Assigned Districts and Cantonment of Secunderabad by the Governor-General in Council.—(*Notifications, 27th June 1877, Foreign Department, Simla, 20th July 1871, No. 146.*)

What documents must be registered.

1. The registration of the following documents is compulsory :—

i.—Instruments of gift.

ii.—Other non-testamentary instruments which purport or operate to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent of the value of 100 rupees and upwards, to or in immovable property.

iii.—Non-testamentary instruments which acknowledge the receipt or payment of any consideration on account of the creation, declaration, assignment, limitation, or extinction of any such right, title or interest.

Nothing in clauses ii. and iii. of this paragraph applies to any Composition Deed, nor to any instrument relating to shares in a Joint Stock Company, notwithstanding that the assets of such Company consist in whole or in part of immovable property, nor to any debenture issued by any such Company and not creating, declaring, assigning, limiting or extinguishing any right, title or interest to, or in immovable property except in so far as it entitles the holder to the security afforded by a registered instrument whereby the Company has mortgaged, conveyed or otherwise transferred the whole, or part of its immovable property or any interest therein to Trustees upon trust for the benefit of the holders of such debentures, nor to any endorsement upon or transfer of any debenture issued by any such Company, nor to any document not itself creating, declaring, assigning, limiting or extinguishing any right, title or interest of the value of 100 rupees and upwards to or in immovable property, but merely creating a right to obtain another document, which will, when executed, create, declare, assign, limit or extinguish any such right, title or interest, nor to decrees and orders of Courts and awards, grants of immovable property by Government, instruments of partition made by Revenue Officers, orders granting loans, and instruments of collateral security granted under the Land Improvement Act, 1871, or the Land Improvement Loans Act, 1883, or orders granting loans under the Agriculturists' Loans Act, 1884, and instruments for securing the repayment of loan made under that Act, or any endorsement on a mortgage deed acknowledging the payment of the whole or any part of the mortgage money, and any other receipt for payment of money due under a mortgage when the receipt does not purport to extinguish the mortgage, or a certificate of sale granted to the purchaser of any property sold by public auction by a Civil or Revenue officer.

iv.—All Leases* of immovable property except—(1) agricultural leases for a term, not exceeding one year, and (2) agricultural leases executed in any district of the Madras Presidency, the terms granted by which do not exceed 5 years, and the annual rents reserved by which do not exceed 50 rupees. The "Puttals" granted by Zemindars to their ryots, as well as the "Muchilkas" (or counterparts) executed by the ryots under Section 8 of Act VIII of 1865, are defined to be leases for the purposes of the Registration Act, and all those not coming within the terms of the preceding exceptions, if executed after the 1st July 1871, must be registered.

v.—Authorities to adopt a son, executed after the 1st January 1872, and not conferred by a Will.

vi.—Deeds of sale and mortgage of immovable property of value less than Rs. 100 are also compulsorily registrable under the Transfer of Property Act, 1882.

2. No man, having a nephew or niece or any nearer relative, has power to bequeath any property to religious or charitable uses, except by a Will executed not less than twelve months before his death, and deposited within six months from its execution in a Registry office. This is not applicable to Hindus, Mahomedans or Buddhists.—(*Indian Succession Act, No. X of 1865, Sections 106 and 381.*)

What other documents may be registered.

8. The registration of the following documents is optional :—

i.—Instruments (other than instruments of Gifts and Wills) which purport or operate to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, of a value of less than 100 rupees to or in immovable property.

* Lease includes a counterpart, a Kabulyat, an undertaking to cultivate or occupy and an agreement to lease.

ii.—Instruments acknowledging the receipt or payment of any consideration on account of the creation, declaration, assignment, limitation or extinction of any such right, title or interest.

iii.—Agricultural Leases of immovable property coming under the exceptions in clause iv of paragraph 1.

iv.—Instruments, other than Wills, which purport or operate to create, declare, assign, limit or extinguish any right, title or interest to or in movable property.

v.—Wills.

vi.—All other documents, not required by paragraph 1 to be registered.

4. But although the registration of these documents is not compulsory, the advantages of registering them are—

i.—That all documents, not testamentary, duly registered and relating to any property, whether movable or immovable, take effect against any oral agreement or declaration relating to such property, unless where the agreement or declaration has been accompanied or followed by delivery of possession.

ii.—That every document of the kinds mentioned in clauses i, ii, iii, iv and vi, of paragraph 1, and clause i and ii of paragraph 3, if duly registered, takes effect as regards the property comprised therein against every unregistered instrument relating to the same property, and not being a decree or order, whether such unregistered document be of the same nature as the registered document or not.

iii.—The period of limitation for a suit on a promise or contract in writing registered, and for the execution of any decree or order of any Civil Court of which a certified copy has been registered under the Registration Act, is six years instead of three (*Nos. 116 and 183, 1st Schedule, Limitation Act, IX of 1908*)

Deposit of Wills.

5. Any testator may either personally or by duly authorized agent, deposit with any Registrar his Will in a sealed cover superscribed with the name of the testator and that of his agent (if any) and with a statement of the nature of the document.

Description required in document relating to immovable property.

6. "No non-testamentary document relating to immovable property shall be accepted for registration unless it contains a description of such property sufficient to identify the same

i.—"Houses in towns shall be described as situate on the north or other side of the street or road (mentioning it) to which they front, and by their existing and former occupancies, and by their numbers, if the houses in such street or road are numbered. Other houses and lands shall be described by their name, if any, and as being in the territorial division in which they are situate, and by their superficial contents, the roads and other properties on which they abut, and their existing occupancies and also, whenever it is practicable, by reference to a Government map or survey.

ii.—"No non-testamentary document, containing a map or plan of any property comprised therein, shall be accepted for registration unless it be accompanied by a true copy of the map or plan, or in case such property is situate in several districts, by such number of true copies of the map or plan as are equal to the number of such districts."

(a) Where it is in the opinion of the Local Government practicable to describe houses, not being houses in towns, and lands by reference to Government map or survey, the Local Government may, by rule, require that such houses and lands as aforesaid shall, for purposes of paragraph 6, be so described.

The following rules have been sanctioned by the Madras Government under clause (a) and are in force in all surveyed tracts in the Madras Presidency:—

(1) Every non-testamentary document presented for registration and relating to land shall, if the land comprises one or more entire survey fields or sub-divisions, specify the number of each field or sub-division as given in the Government village map.

(2) If the land has no separate number assigned to it in the Government village map, the document shall specify the number assigned in such village map to survey the field or sub-division in which the land is situated, together with such description of the land as is sufficient for its identification.

(b) Save as otherwise provided by any rule made under (a); failure to comply with the provisions contained in clause (i) of this paragraph, will not disentitle a document to be registered if the description of the property is sufficient to identify such property.

7. "The term 'territorial division,' as used in the Indian Registration Act, 1908, shall, as far as practicable, include—

(1) The Registration District.

(2) The Registration Sub-District.

- (8) The Taluk, Jaghire, Zemindary or Proprietary Estate.
- (4) Any well-known division thereof, such as a Mootah, Hoondah, Khundum, Firka, Magany, Amshom, &c., and
- (5) The village, hamlet, or suburb in which the property referred to in a registrable document is situated."

But if the property is described in the document relating thereto by a specific reference to an instrument which has been already registered, or of which a true copy has been filed in the office in which the document is presented for registration and in which the above particulars and such a description of the property as is required by the rules in force, are already given, they need not be repeated.

Time prescribed for Registration.

6. "No document, other than a Will, shall be accepted for registration unless presented for that purpose to the proper officer within four months from the date of its execution; or in the case of a copy of a decree or order, within four months from the day on which the decree or order was made, or where it is appealable, within four months from the day on which it becomes final.

"Where there are several persons executing a document at different times, such document may be presented for registration and re-registration within four months from the date of each execution."

If owing to urgent necessity or unavoidable accident, the presentation is not made within the prescribed time, the Registrar, where the delay does not exceed four months, may direct acceptance on payment of a fine, not exceeding ten times the proper registration fee.

When a document purporting to have been executed by all or any of the parties out of British India is not presented till after the expiration of four months, the registering officer, if satisfied—

- (1) that the instrument was so executed, and
- (2) that it has been presented for registration within four months after its arrival in British India, may, on payment of the proper registration fee, accept such document for registration.

A Will may at any time be presented for registration, or deposited

9. No document, other than a Will, shall be registered unless the persons executing such document, or their representatives, assigns, or authorized agents appear before the registering officer within the time allowed for presentation under paragraph 8.

Provided that if owing to urgent necessity or unavoidable accident all such persons do not so appear, the Registrar, in cases where the delay in appearing does not exceed four months, may direct that on payment of a fine, not exceeding ten times the amount of the proper registration fee, in addition to the fine, if any, payable under paragraph 8, the document may be registered.

Such appearances may be simultaneous or at different times.

Provided, further, that it is not necessary for any officer of Government, or for the Administrator-General of Bengal, Madras, or Bombay, or for any Official Trustee, or Official Assignee, or for the Sheriff, Receiver or Registrar of a High Court to appear in person or by Agent at any Registration Office in any proceeding connected with the registration of any instrument executed by him in his official capacity.

Place of Registration.

10. The ordinary place for registering every document mentioned in paragraph 1, clauses i, ii, iii and iv, and paragraph 3, clauses 1, ii and iii, is the office of a Sub-Registrar within whose Sub-District the whole or some portion of the property to which such document relates is situate; but the Registrar of a District including a Presidency Town, (e.g., the Registrar of Madras), and the Registrar of the Lahore District may receive and register any document of this description without regard to the situation in any part of British India of the property to which the instrument relates, and any Registrar may, at his discretion, receive and register any instrument which might be registered by any Sub-Registrar subordinate to him.

11. Every other document may be presented for registration in the office of the Sub-Registrar, in whose Sub-District the document was executed, or in the office of any Sub-Registrar under the Local Government, at which all the persons executing and claiming under the document, decree or order, desire the same to be registered. A copy of a decree or order may be presented for registration in the office of the Sub-Registrar in whose sub-district the decree or order was made or where the decree or order does not affect immoveable property in the office of any other Sub-Registrar under the Local Government at which all the persons claiming under the decree or order desire the copy to be registered.

12. Wills must be deposited with the Registrars of Districts.

13. In ordinary cases, the registration or deposit of documents under the Indian Registration Act, 1908, must be made only at the office of the officer authorized to accept the same for registration or deposit; but such officer may, on special cause being shown, attend at the residence of any person desiring to present a document for registration or to deposit a Will, and accept for registration or deposit such document or Will.

Presentation of documents for Registration.

14. Except in the case mentioned in last preceding paragraph, every document shall be presented at the proper registration office by some person executing or claiming under the same, or in the case of a copy of a decree or order claiming under the decree or order, or by the representative or assign of such person, or by the agent of such person, representative or assign, duly authorized by power-of-attorney executed and authenticated in manner hereinafter mentioned.

15. For the purpose of paragraph 14, the powers of attorney hereinafter mentioned shall alone be recognized:

(a) if the principal at the time of executing the power-of-attorney resides in any part of British India in which this Act is in force, a power executed before and authenticated by the Registrar or Sub-Registrar within whose district or sub-district the principal resides;

(b) if the principal at the aforesaid time resides in any other part of British India, a power executed before and authenticated by any Magistrate;

(c) if the principal does not reside in British India, a power executed before and authenticated by a Notary Public, or any Court, Judge, Magistrate, British Consul or Vice-Consul, or representative of His Majesty or of the Government of India.

16. Every officer granting a loan under the Land Improvement Loans Act, 1888, shall send a copy of his order to the registering officer within the local limits of whose jurisdiction the whole, or any part of the land to be improved, or of the land to be granted as collateral security is situate, and such registering officer shall file the copy in his book No. 1.

17. Every Court granting a certificate of sale of immovable property under the Code of Civil Procedure, 1908, shall send a copy of such certificate to the registering officer within the local limits of whose jurisdiction the whole or any part of the immovable property comprised in such certificate is situate, and such officer shall file the copy in his book No. 1.

18. Every officer granting a loan under the Agriculturists' Loans Act, 1884, shall send a copy of any instrument whereby immovable property is mortgaged for the purpose of securing the repayment of the loan, and, if any such property is mortgaged for the same purpose in the order granting the loan, a copy also of that order, to the registering officer within the local limits of whose jurisdiction the whole or any part of the property so mortgaged is situate, and such registering officer shall file the copy or copies, as the case may be, in his book No. 1.

19. Every Revenue officer granting a certificate of sale to the purchaser of immovable property sold by public auction, shall send a copy of the certificate to the registering officer within the local limits of whose jurisdiction the whole or any part of the property comprised in the certificate is situate, and such officer shall file the copy in his book No. 1.

- (10) When the value exceeds Rupee- 5,000, but does not exceed Rupees 50,000 for the first Rs. 5,000 as under sub-clause (9) and for every Rs. 1,000 or part thereof in excess of Rs. 5,000 .. 1 0 0
- (11) When the value exceeds Rupees 50,000 for the first Rs. 50,000 as under sub clause (10) and for every Rs. 1,000 or part thereof in excess of Rs. 50,000 0 8 0
- (12) For the registration of powers of attorney 2 8 0

(b) The consideration expressed in a document shall generally be taken to be its value for determining the registration fee. Where no consideration is expressed, the value of the property dealt with as shown in the document shall be taken.

(c) The provisions of sections 5, 6, 20, 21, 23 and 25 of the Indian Stamp Act II of 1899 shall, *mutatis mutandis*, apply to calculations of value for the purpose of determining the registration fee.

(d) In the case of agreements to render service for hire, or to let movable property for hire, the value of the document shall not be taken at a higher amount than the hire for one year.

(e) In the case of leases, the value shall be taken—

- (1) at the total rent for the whole term when the lease is for one year or less :
- (2) at the average annual rent when the lease is for periods exceeding one year ;
and
- (3) at one-fifth of the whole amount of rent payable in the first fifty years when the lease is perpetual. When a fine or premium is paid or is made payable, or money is advanced, that amount also should be added to the value. When a lessee undertakes to pay assessment, quit-rent, &c., in addition to the rent, the said payment should also be added to the rental value. If the rent is payable in kind and its money value is not specified in the lease, its value shall be taken to be the highest amount which the stamp borne by the document shall suffice to cover. If the document is exempt from stamp duty, the money value of the produce rent shall be calculated at the current market rates.

(f) In the case of deeds of partition, the value of the separated share or shares on which stamp duty is payable shall be taken as the value for consideration.

(g) In the case of all other documents in which neither the consideration for the transaction nor the value of the property affected is expressed, or in which it is only partially expressed, the value shall be the maximum amount which the stamp borne by the document shall suffice to cover, if the document is one which is liable to stamp duty at *ad valorem* rates. If the value cannot be determined from the stamp, as for instance, when the deed is not liable to stamp duty, or is liable to duty at a fixed amount irrespective of the value of the transaction, or when the transaction is not susceptible of money valuation, the fee leviable shall be Rs. 5, provided that in cases where the value of only a portion of the property or consideration is given and that value exceeds Rs. 2000 the fee shall be levied on the value so expressed.

Note.—In the case of documents evidencing petty transactions incapable of valuation, the Inspector-General may, if he considers that the levy of a fee of Rs. 5 would be productive of hardship, authorize registering officers to levy a lower fee, which, however, shall not be less than 4 annas.

(h) The registration fee leviable upon a document purporting to give a collateral or auxiliary or additional or substituted security or security by way of further assurance, where the principal or primary mortgage is proved to the satisfaction of the registering officer to have been duly registered, shall be the same as for the principal or primary mortgage, if the same does not exceed Rs. 2; otherwise it shall be Rs. 2.

(i) The registration fee leviable upon a document acknowledging receipt or payment of consideration on account of any previously registered document and upon any receipt acknowledging payment of debts or rents due under previously registered mortgages, leases, etc., shall be *ad valorem* as prescribed in article 1 (a) subject to a maximum of Rs. 2.

(j) When a duplicate or counterpart of a document is presented for registration on the same day as the original document, the registration fee for such duplicate or counterpart shall, if the original document be also registered, be—

- (1) for each duplicate a fixed fee of annas eight,

(2) for the counterpart, the rate prescribed for certified copies; provided that if the rate of annas eight or the copying fee is higher than the ordinary fee for registration, the latter shall be charged.

Rules made by the Government of Madras under section 6 of the Indian Ports Act, (XV of 1908), for licensing and regulating catamarans plying for hire, and flats, cargo, passenger and other boats plying, whether for hire or not and whether regularly or only occasionally, in, or partly within and partly without the Port of Madras, and for determining the quantity of cargo or the number of passengers to be carried by any such vessels.

No person, either as owner or servant, shall use any boat or catamaran to carry goods

Boats plying within the port to be licensed. or passengers to or from any ship or vessel at the port, as defined for the time being, or from place to place within the limits of the port, unless such person or persons shall hold a license granted by the registering officer so to use such boat or catamaran, and unless the boat or catamaran so used shall have been registered. This rule is not to be considered as interfering with boats forming part of the vessel's equipment or maintained solely for purposes of pleasure.

2. Should the owner of a boat be a minor, the license may be obtained by the guardian of the minor. Should the owner of a boat be a female, who owing to the custom of the country cannot appear in public, the license may be obtained on her behalf by her duly constituted agent. In such cases the guardian or the agent

Minor and female owners. shall be deemed to be the owner for the purposes of these rules.

3. Owners of licensed boats shall supply the tidal of each of their registered boats with the boat's license, which shall be kept in the boat when plying and shall be produced at any time when demanded by any duly authorized person. A printed copy of these rules, and of any written directions issued by the registering officer for carrying the same into effect, shall be supplied by the owner to the tidal, and shall be shown by such tidal to any consignor or passenger by such boat who shall demand to see them.

4. Every boat being a steam launch having engines of under 50 nominal horse-power shall, when plying, whether for hire or not, have on board in charge of the engines a person possessing a certificate of competency as an engine-driver granted under the Indian Steam

(b) Owners of power-propelled launches, other than steam launches, must submit their engines for inspection not less frequently than once a year. For such inspection the registering officer will obtain a competent inspector from the Port Conservator. The registering officer may, at his discretion, insist on more frequent inspection of such engines.

These badges will be supplied by the registering officer of the port free of charge in the first instance, and shall be returned to him in the event of the boat being sold or broken up, or of the license of the boat or of the tindal or of the boatman being cancelled. Boat owners may transfer these badges to tindals or boatmen employed temporarily to relieve the men registered for the boat, a written request of such transfer being sent with the names and thumb prints of the substitutes to the registering officer within 48 hours from the time of the transfer.

SUPPLEMENT TO THE BOAT RULES FOR THE PORT OF MADRAS.

1. It will be the duty of the Deputy Conservator of the Port of Madras to see that the Boat Rules—framed by Government under the authority of section 6, clause (k) of Act XV of 1908—of the Port are complied with. The Deputy Conservator is the *Registering Officer* referred to in the following rules. It rests with him, *vide* Boat Rule No. 14, to prescribe the proper complement of crew for each class of boat.

2. Upon the application of the owner or owners of a boat, and upon such boat being brought by him or them to such place as the registering officer shall appoint for that purpose, the registering officer shall survey and measure such boat, or cause it to be surveyed and measured, in the presence of the owner or owners thereof or of any other person duly appointed for that purpose by such owner or owners. On being satisfied that a boat is seaworthy and fit for the service of the port, and on the owner or owners delivering to him a document signed by such owner or owners specifying his or their name or names, occupation or respective occupations, and place or respective places of residence, and subscribing to a declaration, in the presence of the registering officer or of any person duly authorized by him, that he or they fully understand these rules, the registering officer will grant a license, in a form approved by Government, to such owner or owners to use the boat for the purpose of carrying goods and passengers, or goods or passengers, whether for hire or not, within the limits of the port.

3. Every boat license shall express the dimensions of the boat, its rig, its equipment, the number of crew considered necessary by the registering officer, the number of passengers and weight of cargo, or the weight, on an assumed basis, of both combined, it is to be permitted to carry, and whether it is for hire or not. Every such license shall also contain a number for such boat and the name or names, occupation or occupations, and place or places of residence of the owner or owners thereof, and the name and place of residence of the kind of such boat. All of these particulars shall be entered by the registering officer in a book or register, to be kept by him for that purpose.

4. Every boat being a steam launch, the owner or master of which does not hold a certificate of survey under Act VI or Act VII of 1834, before being licensed as hereinbefore provided, shall be surveyed by a person, to be selected for the purpose by the registering officer, holding a first-class certificate of competency as a marine engineer. The person so selected shall report to the registering officer as to the condition of the hull and machinery of such boat and the time for which her hull and machinery will probably be sufficient, and the registering officer shall not license any such boat until her hull and machinery shall have been declared by the engineer so selected to be sufficient for the service intended and in good condition, and the license granted under these rules in respect of such boat shall, unless forfeited as hereinafter provided, be in force for one

year from the date of survey of the hull and machinery, if such boat shall be reported to the registering officer as sufficient for so long, otherwise such license shall be granted only for the time for which the hull and machinery of such boat shall be reported sufficient. The fee of Rs. 25 referred to in Boat Rule No. 4 to be paid in advance by the owner of any such launch to the registering officer before any such survey shall be made, shall be paid by the registering officer to the person making the survey on receipt of his report.

5. The Deputy Port Conservator may remove or cause to be removed any boat, timber, raft, wreck or any other thing, floating or being in any part of the port or hauled up on the beach, which in his opinion obstructs or impedes the free navigation of the port or the lawful use of any pier, jetty, landing place, wharf, quay, basin, dock, mooring or other work, on any part of the shore or beach that shall have been declared to be within the limits of the port and is not private property. The owner of any such boat, timber, raft, wreck or other thing shall thereupon be called upon to pay the expenses of the removal thereof. Should such owner or any other person have caused any such obstruction or impediment as to create any public nuisance affecting or likely to affect such free navigation, or the lawful use of the harbour works or foreshore, he will be liable to fine as laid down in section 54 of Act XV of 1908. Should any owner, who shall have caused any such obstruction, impediment or public nuisance, neglect to pay the expenses incurred in the removal thereof, such expenses shall be recovered as provided for in section 11 of Act XV of 1908, the Indian Ports Act. Permission to repair boats on the beach, inside the artificial harbour, will only be given when it is apparent that the boat to be repaired is in so unseaworthy a condition as to be unable to reach the beach outside the harbour in safety.

6. Notices of a general nature by the Deputy Port Conservator to boat owners or tindals will be published in the *Fort St. George Gazette*, on the notice board at the Deputy Port Conservator's office, and in two prominent places within the Port Trust's premises; and such publication will be considered sufficient notice. Owners or tindals, disregarding such notices will be dealt with for disobedience as provided in section 54 of Act XV of 1908.

7. Prosecutions under the Boat Rules will be conducted by the Deputy Port Conservator or by any person deputed by him.

Note.—The attention of the Deputy Conservator is called to the provisions of Section 54 of Act XV of 1908, which are as follows:—

“If any person disobeys any rule or order which a local Government has made in pursuance of this Act and for the punishment of disobedience to which express provisions have not been made elsewhere in this Act, he shall be punished for every such offence with fine which may extend to Rs. 100.”

The law under which Customs duties are levied is the Indian Tariff Act, 1894 (VIII of 1894), as amended by Acts XVI of 1894, III of 1896, XIV of 1899, VIII of 1902, XII of 1903, XI of 1904, I of 1906, Act VIII of 1910 and Act, I of 1916. Under this Act the majority of the articles imported into India are taxed at $7\frac{1}{2}$ per cent.; but certain metals and manufactures of metals are taxed at $2\frac{1}{2}$ per cent., vinegar in casks and green copperas at $2\frac{1}{2}$ per cent. Special duties are imposed on arms and ammunition and military stores, liquors, opium, salt and salted fish, tobacco, silver (except Govt. of India coins) and petroleum. The export duty is levied on rice, but cotton goods produced in the country are liable to a duty of excise; Jute (raw and manufactured) and in the case of tea, an addition to the Export fees of $\frac{1}{2}$ pie per pound is levied under Act I of 1908, (The Indian Tea Cess Act).

Tariff values are fixed for many articles under section 22 of the Sea Customs Act and exemptions are granted under section 23. All the tariff values and the majority of the exemptions are embodied in the schedules to the Tariff Act, which are appended.

Information regarding prohibitions and restrictions on importation and exportation, drawback, entry and clearance of vessels, discharge of cargo, entry inwards of goods, warehousing, transshipment, coasting trade and other matters governed by the Sea Customs Act will be found in the Pamphlet of Notifications and Rules published under the authority of the Board of Revenue.

Rules relating to particular classes of goods, more especially petroleum, explosives, including carbide of calcium, and arms and ammunition will be found in the rules under the Acts relating to those subjects, copies of which may be obtained on application to the Superintendent, Government Press.

Parties having goods to clear through the Custom House may do so either personally or through authorized agents. Instructions regarding procedure in clearance may be obtained on application to the Collector of Customs, at whose office a list of authorized agents will be found posted. Parties are advised that it is their business to declare goods brought to the Custom House and that the Customs officers do not undertake to advise consignees of the existence of goods which are brought there. Goods left uncleared for four months are forfeited to Government and sold by auction.

Under section 85 (b) of the Sea Customs Act, goods, at the port of Madras, are landed into the custody of the Madras Port Trust, who are responsible for seeing that they are delivered to the rightful owners. Bills of lading or other proofs of ownership in goods should be produced to the Port Trust.

Goods imported must be declared at the real value as defined in the Act. Undervaluation of goods renders the owner liable to penalties as well as to have his goods taken over by Government at the price put upon them.

Under section 196 of the Sea Customs Act, the unshipping, carrying, shipping and landing of all goods, and the bringing of them to the proper place for examination or weighing, and the putting of them into or out of the scales, and the opening, unpacking, bulking, sorting, lotting, marking and numbering of goods, when such operations are necessary or permitted, and the removing of goods to and the placing of them in the proper place of deposit, shall be performed by and at the expense of the owner of such goods.

The rules governing shipment are similar to those governing the landing of goods.

Special arrangements are made for the passing of passengers' baggage in regard to which the following rules are the most important.

(1) The *bond fide* baggage of a passenger is exempt from duty when it accompanies him; does not form part of the cargo; and is not included in the manifest.

(2) *Bond fide* baggage shall include wearing apparel and personal effects, provided that the articles are not for sale and are imported for the personal use of the passenger or for the use of members of his family travelling with him; but it shall not include the following articles on which duty must be paid in all cases.

(a) Arms, ammunition and all other articles enumerated in schedule II of the Tariff Import Schedule.

(b) Alcoholic liquor exceeding two quarts, perfumed spirit exceeding one quart, and all other articles enumerated in Schedule III.

(c) Cigars and cigarettes exceeding 100 in number, whether in open or unopened boxes, and other tobacco exceeding 1 lb. in weight.

- (d) Pianos, pianolas, carriages, motor cars and motor cycles.
 (e) Articles for household use such as furniture, pictures, carpets, glass, crockery, cutlery, and silver and plated ware except such articles (other than furniture or carpets) as shall appear to the Customs authorities to be imported in a moderate quantity and to be required for the personal use of the passenger whilst travelling or immediately upon his arrival at his destination.
 (3) Notwithstanding anything to the contrary in rule (1), *bond fide* baggage landed at any Customs Port within one month before or after the arrival of a passenger in India, may, subject to the exceptions specified in rule (2), be passed free at the discretion of the Collector of Customs.

The aggregate value of the sea-borne trade of the Presidency was nearly Rs. 5,455 lakhs, showing an increase of Rs. 569 lakhs, or 12 per cent., as compared with that of the preceding year, and an increase of Rs. 215 lakhs, or 4 per cent, when compared with the average for five years ending 1913-14, and only Rs. 361 lakhs, or 6 per cent below the record figures of 1913-14. Government transactions amounted to Rs. 804 lakhs, or Rs. 222 lakhs more than those of 1915-16.

Foreign trade continued to feel the effects of the war and in view of the difficulties of obtaining tonnage and the very high rates of freight, coupled with the restrictions extended to most commodities and exchange difficulties it is remarkable that the total value of our sea-borne trade considerably exceeded that of the average for the five years immediately preceding the war. It must be borne in mind, however, that this increase was largely due to the high prices prevailing almost everywhere and that the quantity of trade borne by sea was in most cases materially less than in previous years.

The United Kingdom has increased her trade with Madras both in imports and exports, and this is also true in the case of the United States of America and Japan.

Foreign trade, including Government transactions, improved from Rs. 3,714 lakhs to Rs. 4,245 lakhs, or by 14 per cent. Coasting trade increased from Rs. 1,172 lakhs to Rs. 1,210 lakhs, or by 3 per cent. Excluding Government transactions, foreign trade improved by 9 per cent and coasting trade by 2 per cent.

Under foreign trade, imports of private merchandise expanded from Rs. 1,153.20 lakhs to Rs. 1,785.59 lakhs, or by 11 per cent, due to increased values under cotton manufactures, paper and pasteboard, cotton twist and yarn, motor vehicles, spices, metals, chemicals sugar, machinery and millwork, provisions, woollen manufactures and soap, while under railway materials, matches and cement there was a decrease.

Exports improved from Rs. 2,458.27 lakhs to Rs. 2,591.27 lakhs, or by 5 per cent, and if the figures for tanned cow hides shipped under Government control from September 1916 be added the total exports show an increase of 13 per cent. The increase in value chiefly occurs under leather, raw cotton, oils, drugs and medicines, raw skins, raw rubber, spices, sugar, fish, manures, postal articles, raw jute and living animals. These increases were partly counterbalanced by decreases under grain and pulse, seeds, indigo, coffee and cotton twist and yarn.

Imports of treasure declined from Rs. 2.87 lakhs to Rs. 2 lakhs, or by 80 per cent, while exports improved from Rs. 34.6 lakhs to Rs. 89.98 lakhs, or by 160 per cent, owing to larger shipments of Rupees to Ceylon and the Straits Settlements.

Under coasting trade, imports of private merchandise declined from Rs. 600.32 lakhs to Rs. 612.75 lakhs, or by 7 per cent, owing to smaller imports of grain and pulse, while exports improved from Rs. 488.92 lakhs to Rs. 558.43 lakhs, or by 14 per cent, in consequence of larger shipments of coffee, coconuts, groundnut oil, manures, sugar, seeds and spices.

Balance of trade.—The following table shows the balance of trade in merchandise and treasure under foreign trade during the past five years:—

The total gross revenue was Rs. 101.21 lakhs, an increase over the previous year of Rs. 27.80 lakhs, or 37 per cent. The amount of import duty realised improved from Rs. 59.94 lakhs to Rs. 87.03 lakhs, or by 45 per cent, partly as a result of enhanced rates of duty leviable under the revised tariff of March 1916 and partly as the result of the high prices of the articles. Larger payments of duty were received on manufactured articles (+ Rs. 11.69 lakhs or 89 per cent), sugar (+ Rs. 8.74 lakhs or 151 per cent), articles of food and drink (+ Rs. 3.02 lakhs or 80 per cent) and cotton manufactures (+ Rs. 2.40 lakhs or 80 per cent.) The increase of Rs. 0.21 lakh, or 1.5 per cent, under export duty was the net result of larger collections on tea by Rs. 2.86 lakhs and smaller collections on rice by Rs. 2.67 lakhs.

FOREIGN TRADE.

The following table shows the value of the import and export trade of the Presidency:—

Imports.—The increase under group I was due to larger imports of spices, sugar and provision, and that under group III to increased values under cotton manufactures, cotton twist and yarn, metals, machinery, paper and pasteboard, motor cars, chemicals and soap, partly set off by smaller imports of railway materials, cement and matches.

Exports.—Smaller shipments of grain and pulse and coffee, partly counterbalanced by large shipments of spices, fish and sugar brought about a decline under group I. The increase under group II was caused by increased shipments of raw cotton, raw rubber, oils, raw skins, manures, and mica. Only exports of seeds showed a decline. Under group III large increase was accounted for by heavy shipments of leather, drugs and medicines. These were partly counterbalanced by smaller shipments of indigo and cotton twist and yarn.

Imports of sugar improved by 25 per cent in volume and 11 per cent in value. Refined sugar declined by 18 per cent in quantity and 7 per cent in value. Under the arrangements made by the Royal Commission appointed to control sugar supplies, Java sent large quantities of raw sugar to the refineries in the United Kingdom. As a result Java, which is our chief source of supply, was unable to send such large quantities as usual in India and imports thence declined by 14 per cent in quantity and 2 per cent in value. The local prices of "Java white" rose from Rs. 35 per bag of 2 cwt. to Rs. 38½ in May 1916, and to Rs. 41 at the end of November, but thereafter gradually declined the closing price being Rs. 40½. The decrease of 69 per cent in supplies from Mauritius was likewise due to purchases by the Commission on behalf of the French Government.

Imports of unrefined sugar advanced by 84 per cent. This was to some extent the natural outcome of the shortage under refined sugar. Two large consignments were received for the first time from the Philippine Islands and landed at Cuddalore and Cocanada. There were no imports either from Java or Mauritius. Imports of molasses from Java increased fourfold and were used principally for distillery purposes.

The total imports of tobacco improved by 27 per cent in quantity and 46 per cent in value; although the quantity imported was much below the pre-war average yet the value showed a 87 per cent advance.

Imports of raw tobacco showed a decline of 21 per cent in quantity and 10 per cent in value, those from the United Kingdom and Holland having fallen from 42,708 and 41,425 lbs. to 36,594 and 31,705 lbs. respectively, while those from Ceylon increased from 56 to 642 lbs. A consignment of 1,908 lbs. was imported from the United States of America for the first time.

Imports of cigarettes improved by 103 per cent in quantity. The United Kingdom supplied 133,044 lbs. compared with 65,765 lbs. in 1915-16. Egypt sent 906 lbs., whereas none was sent in the previous year.

The quantity of mineral oils showed a fall of 7 per cent, but there was a slight rise, amounting to 1 per cent, in the value.

The figures for *Kerosene oil* show a decrease of 23 per cent in quantity and 8 per cent in value. The average price has risen by one anna per gallon in each of the last two years and now stands at 8 annas 4 pies.

Imports *Borneo oil* showed a further drop of 51 per cent, but imports of *American oil* rose by 22 per cent. This increase is due to consignments intended for Pondicherry and Karaikal being landed at Madras and sent by rail instead of being imported by sea direct. About four-fifths of the kerosene oil was carried in bulk and the remainder in cases. The decrease in the imports of foreign oil was partly met by larger imports of *Burma oil* which increased by about half a million gallons to 19 million gallons valued at Rs. 65.29 lakhs.

Liquid fuel showed an increase of over a million gallons, or 65 per cent.

Lubricating oils showed a rise of 11 per cent. There have been no imports of *foreign petrol* during the past four years. Coastwise imports of *petrol* advanced from 930,496 gallons to 1,337,200 gallons owing to the large number of motor vehicles which have been imported in the last two years.

Textile materials.—The imports of *raw silk*, from China, showed a recovery and its value amounted to Rs. 4.84 lakhs against Rs. 2.83 lakhs in 1915-16.

Wood and timber.—The cessation of imports of *jarrah wood* from Western Australia brought about a fall from Rs. 4.58 lakhs to Rs. 8.92 lakhs, or 14 per cent. under this head. Imports of *teak-wood* from Siam, which ceased during the previous two years, revived and amounted to Rs. 1.67 lakhs. Fewer *Palmyra rafters* were received from Ceylon.

Miscellaneous.—The imports of *artificial and mineral manures*, consisting of basic slag, sulphate of potash, nitrate of soda, muriate of potash, and superphosphates, declined from Rs. 1.31 lakhs to Rs. 1.27 lakhs, the average imports before the war being Rs. 3.36 lakhs.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value of the imports under this head increased from Rs. 884.39 lakhs to Rs. 981.99 lakhs.

Apparel.—The fall of Rs. 2.96 lakhs, or 7 per cent, in the total value under this heading was due to smaller imports of *gold and silver thread* from France which decreased from Rs. 32.30 lakhs to Rs. 29.94 lakhs and resumed normal. The imposition of a higher rate of duty in 1916 does not appear therefore to have had much effect on the total imports. The imports of *gold thread* by land from Pondicherry declined from Rs. 6.63 lakhs to Rs. 6.81 lakh. Smaller quantities of *drapery, hats* and *caps* were imported.

Imports of *boots and shoes* further declined from Rs. 1.73 lakhs to Rs. 1.5 lakhs.

Carriages including cycles and motor-cars.—Imports of *carriages and carts* improved from Rs. 0.72 lakh to Rs. 1.60 lakhs. *Motor vehicles and accessories* rose from Rs. 18.00 lakhs to Rs. 30.49 lakhs. The number of motor cars imported increased from 44 to 560. Imports of motor vehicles would have been considerably greater but for the embargo placed on them towards the close of December last. The demand for cheap cars still continues as will be seen from the following table.—

The number of *motor cycles* also went up from 279 to 360, of which 305 were of British manufacture. One hundred and seven *motor wagons* (57 from the United States of America and 20 from the United Kingdom) valued at Rs. 6.69 lakhs were imported against 6 valued at Rs. 0.43 lakh in the previous year.

Imports of *cycles and accessories* further declined from Rs. 4.38 lakhs to Rs. 3.41 lakhs: most of the consignments came from the United Kingdom.

Chemicals, drugs and medicines.—The value of chemicals imported (other than chemical manures) again showed a remarkable increase. In 1914-15, Rs. 11.88 lakhs' worth were imported, in 1915-16 Rs. 16.61 lakhs and this year Rs. 24.41 lakhs. The main factor in this increase was the large quantity of *soda compounds* (especially cyanide of sodium for the Mysore gold mines) which was imported. Eighty-two per cent of the chemicals came from the United Kingdom. Under *drugs and medicines* imports of *camphor* decreased by 81 per cent in quantity and 23 per cent in value; practically the whole coming from Japan.

Proprietary and patent medicines improved from Rs. 1.15 lakhs to Rs. 1.87 lakhs.

Cutlery, hardware, implements and instruments.—*Clocks and watches* improved from Rs. 1.48 lakhs to Rs. 2.57 lakhs and *cutlery* from Rs. 0.78 lakh to Rs. 1.1 lakhs.

There was an increase of 8 per cent in the value of *hardware* but imports were still far below the average imports before the war, showing that other countries have not yet taken the place formerly held by Germany and Austria in this trade. Seventy-three per cent of the imports came from the United Kingdom, 11 per cent from the United States and 4 per cent from Japan.

Electricals and apparatus showed an increase of Rs. 2.48 lakhs to Rs. 13.91 lakhs. This was mainly due to the increase in the number of electrical appliances received.

Dyes and Colours.—When compared with the previous year there was some recovery in *dyeing and tanning substances* imports of which amounted to Rs. 6.61 lakhs against Rs. 2.89 lakhs, but they were far below the pre-war averages. The present position of the imports of alizarine and aniline dyes is given in the following table :—

Imports of *alizarine* amounted to 50,772 lbs. valued at Rs. 8.04 lakhs and these came from the United Kingdom. In 1915-16 10,528 lbs. were imported from Germany and 20,720 lbs. from Belgium by prize vessels, and there were no imports from the United Kingdom. Prices of both alizarine and aniline were phenomenally high, the average price per lb. of the former rising from As. 8 in 1914-15 to about Rs. 4 in 1915-16 and to Rs. 6 in the current year.

Imports of *aniline dyes* amounted to 49,240 lbs. valued at Rs. 2.26 lakhs against 11,355 lbs. valued at Rs. 0.48 lakh. A small quantity of *synthetic indigo* amounting to 4 cwt. valued at Rs. 940 was imported from the United Kingdom.

Imports of *paints and painters' materials* improved from Rs. 6.55 lakhs to Rs. 7.07 lakhs.

Glassware and earthenware.—Although there was some recovery in the imports of *glassware* from Rs. 5.10 lakhs to Rs. 8.23 lakhs, yet they represented only 49 per cent of the annual average imports before the war. The United Kingdom supplied 53 per cent. and Japan 20 per cent against 48 and 38 per cent respectively, in the previous year. Before the war the shares of these two countries were only 11 and 1 per cent.; Austria-Hungary, Germany and Belgium's shares being 55, 15 and 18 per cent respectively. Imports of *bottles and glass* rose in value from Rs. 1.36 lakhs to Rs. 2.85 lakhs and those of *sheets and plates* from Rs. 1.15 lakhs to Rs. 3.02 lakhs. Imports of *glass bangles and beads*, including *false pearls*, have been considerably affected by the war: their average imports before the war were Rs. 7.48 lakhs and Rs. 2.8 lakhs respectively, but have now dwindled down to Rs. 0.33 and 0.92 lakh respectively.

Imports of *earthenware* amounted to Rs. 2.15 lakhs compared with Rs. 2.68 lakhs in 1915-16.

Imports of *machinery* improved by Rs. 7.13 lakhs, or 17 per cent. With the exception of *prime-movers* (other than electrical), boilers and sugar machinery, all the sub-heads showed increases. The increase under electrical machinery, was due to the larger demands for electric installations, and that under sewing and knitting machines to local stocks having reached a low level. The United Kingdom sent 84 per cent of the machinery and the United States of America 12 per cent.

The extension of Government control over iron and steel industries in the United Kingdom, the high prices at the supplying centres and the shortage of tonnage, all combined to bring about a decline of 20 per cent in quantity. The urgent demand for the available material however brought about a rise of 13 per cent in value; and the local price of iron has more than doubled since the commencement of the war. During the five years ending 1913-14 the average value of iron was Rs. 140 per ton and rose to Rs. 170 in 1914-15, to Rs. 220 in 1915-16 and to Rs. 310 in 1916-17. Previous to the war the United Kingdom supplied 45 per cent of the iron and steel imported into this Presidency. This share increased to 66 per cent in 1914-15, to 70 per cent in 1915-16 and to 80 per cent in 1916-17. Belgium prior to the war sent 40 per cent. Supplies from America have fallen from 22 per cent in 1915-16 to 13 per cent.

Imports of bar iron improved by 58 per cent in volume and 131 per cent in value. The prevailing high prices of imported bars gave an impetus to bars of Pondicherry manufacture and these rose from 4,100 tons valued at Rs. 5.23 lakhs to 5,115 tons valued at Rs. 8.33 lakhs.

On the other hand, steel bars showed a decline of 70 per cent and plates and sheets of 86 per cent. The increase under pipes and tubes was due to larger imports for the Madras water works, and that under hoops and strips to larger demands for baling cotton and coir yarn.

There was an unprecedented demand for copper both in Europe and America for the huge munition requirements and consequently exports to India diminished greatly. There was a fall of 63 per cent in quantity and 38 per cent in value. The price in England of standard copper rose from £100 per ton in February 1916 to £145 in middle of May, but receded to £88 in July and again rose to £155 early in February 1917. The United Kingdom supplied 82 per cent against 73 per cent in 1915-16, and Japan 18 per cent against 7 per cent. Imports of yellow metal sheets showed a decline of 61 per cent and those of braziers and sheets 86 per cent. The opening price per candy of 500 lb of yellow metal sheets was Rs. 375 and the closing price Rs. 505. Imports of tin expanded by 31 per cent as a result of larger receipts from the Straits Settlements. Large quantities of lead sheets for tea chests were received from the United Kingdom and imports of this metal increased by 11 per cent. Only 2 cwt. of aluminium, valued at Rs. 347, were imported.

The total value of imports of paper and pasteboard amounted to Rs. 38.53 lakhs against Rs. 22.06 lakhs, an increase of 74 per cent. This increase in value was the result of inflated prices of the articles, whereas the quantities imported declined.

The decrease in the quantity of printing paper was the net result of smaller imports from the United Kingdom, Norway and Sweden, and larger imports from the United States. The market value for the last year has been about As. 6 per lb. against the pre-war average of As. 2.4 per lb. The decrease in the imports from Norway and Sweden was due to abnormal imports of cheaper kinds of paper in 1915-16, and the increase in the case of imports from the United States was due to the merchants seeking a new source of supply in anticipation of shortage from the United Kingdom as a result of the restrictions placed there on imports of paper-making materials. Of the total imports of paper and pasteboard the United Kingdom's share was the same as in the previous year, viz., 71 per cent, and that of Norway and Sweden 16 per cent against 23 per cent, in 1915-16. The shares of the United States and Japan, whose trade in previous years in these articles was inconsiderable, amounted to 7 and 4 per cent respectively.

Imports of stationery improved from Rs. 7.02 lakhs to Rs. 10.6 lakhs, of which Rs. 8.26 lakhs' worth came from the United Kingdom and Rs. 1.47 lakhs' worth from Japan, as against Rs. 6.14 lakhs' and Rs. 0.41 lakhs' worth respectively in 1915-16.

Railway plant and rolling-stock.—The total imports again declined from Rs. 68.61 lakhs to Rs. 35.56 lakhs, or by 48 per cent. Carriages and wagons falling from Rs. 30.27 lakhs to Rs. 18.71 lakhs, locomotive engines and tenders from Rs. 23.35 lakhs to Rs. 4.04 lakhs and materials for construction from Rs. 14.69 lakhs to Rs. 12.82 lakhs. Of the total imports 75 per cent from the United Kingdom and 25 per cent from the United States against 95 and 5 per cent respectively in 1915-16.

(Cotton goods.—Yarns and textile fabrics)—The value of imports under this head improved from Rs. 386.10 lakhs to Rs. 434.42 lakhs.

The total value of imports of *cotton goods*, representing 33 per cent of the total foreign imports, increased by 17 per cent. The market at Madras showed considerable fluctuations during the year and it often happened that piece-goods, bought in a moment of considerable activity, actually arrived to a deadly dull market. The chief feature of the year was the speculative purchases of coloured yarns and goods owing to the general view that the scarcity of dye stuffs would cause a considerable rise in the price of dyed goods. Large stocks were carried forward from the previous year's purchases and these, added to the continual rise of prices in Manchester, tended to reduce the imports in grey and white piece-goods. Fairly brisk sales took place as usual from September to November and though prices were high a fair amount of buying from Manchester took place to replenish stocks. A sudden rise in prices at home, however, put further buying out of the question and business practically ceased from January to March 1917. During these last months local prices rose 25 to 50 per cent owing to shortages of certain qualities in the bazaar.

Imports of *cotton twist and yarn* declined by 20 per cent. in quantity, but rose by 11 per cent. in value, the average value per lb. having risen from Rs. 1-1-0 to Rs. 1-8-0. *Mule Yarn* declined by 86 per cent., the high rates prevailing in Manchester for mule yarn, coupled with the absence of dyes to colour these grey yarns, enabled Indian mills to compete successfully in producing yarns, especially counts 31 to 40, at a cheaper rate than home supplies. Under *coloured yarns*, the common counts (1 to 20 and 31 to 40) were in good demand and as there were no dyestuffs to colour the country-made yarns, weavers often resorted to using imported 40s doubled in place of the usual country-dyed 20s. Imports of other descriptions of yarn failed to maintain the improvement of the previous year and declined by 24 per cent.

The total imports of *cotton piece-goods* further decreased by 19 per cent. in quantity, but increased by 20 per cent. in value. The decrease in quantity was the net result of smaller imports of *grey and white piece-goods*, partly set off by larger imports of *coloured goods*, which expanded by 23 per cent. in quantity and 89 per cent. in value. *Saris and scarves* rose by Rs. 27-4 lakhs, *prints and chints* by Rs. 13-9 lakhs, *cambrics* including *madapolams* by Rs. 2-75 lakhs, and *shirtings* by Rs. 1-99 lakhs. Under *grey goods* there was a decline of 38 per cent. in quantity and 16 per cent. in value. *Longcloths and shirtings* declined by Rs. 15-06 lakhs owing to the substitution of country-made cloth manufactured in the mills at Bombay, Sholapur, Ahmedabad, etc. *Dhotis, saris and scarves* fell away by Rs. 9-36 lakhs; most of the poorer classes favour the use of grey dhotis with coloured borders and the coarser Indian woven cloth with plenty of substance in it suits their requirements admirably. *Jaconets, madapolams, muils and cambrics* improved by Rs. 7-48 lakhs, and suffered less than other grey goods, because it is not so easy to replace these fabrics, made of finer yarn, by locally-made substitutes. Under *white goods* *jaconets* including *madapolams*, increased by Rs. 16-20 lakhs, and *dhotis, saris and scarves*, which are not produced locally to any extent, increased by Rs. 1-85 lakhs, while *nainsooks* decreased by Rs. 5-38 lakhs and *longcloths and shirtings* by Rs. 3-94 lakhs, as these can be replaced easily by bleaching the grey cloths, and therefore when prices are high these goods always show a falling off. The net result shows an increase of Rs. 9-61 lakhs, or 16 per cent. in the value of white goods although the quantity declined by 19 per cent. The considerable increase under *coloured goods* is due to the continued demand arising from the desire to have bright coloured goods whatever the price may be. As it has been very difficult to obtain dyeing materials locally there have been increased importations from home.

The trade in cotton piece-goods was almost entirely confined to the United Kingdom, only 1 per cent coming from other sources.

There was an increase under *other cotton fabrics* as there were larger imports of hosiery from the United Kingdom and Japan and sewing thread from the United Kingdom.

Haberdaasery and millinery.—Imports improved from Rs. 6-73 lakhs to Rs. 7-87 lakhs. Rs. 5-05 lakhs' worth came from the United Kingdom, Rs. 0-96 lakhs' worth from Japan and Rs. 0-85 lakhs' worth from France.

Jute and Wool.—Imports of *jute manufactures*, which consisted almost entirely of rein ports of old rice gunny bags from Ceylon, rose from Rs. 13-99 lakhs to Rs. 15-4 lakhs. There were large consignments of woollen piece-goods from the United Kingdom, and therefore imports of *woollen manufactures* expanded from Rs. 2-85 lakhs to Rs. 8-35 lakhs.

Other minor items.—Imports of *arms, ammunition and military stores* improved from Rs. 0-83 lakhs to Rs. 10-85 lakhs.

Imports of *cement*, mainly from the United Kingdom, declined from Rs. 16-04 lakhs to Rs. 8-58 lakhs owing to the high cost and the difficulty of obtaining supplies. Imports of *safety matches* declined from Rs. 6-13 lakhs to Rs. 3-94 lakhs and other matches from Rs. 5-18 lakhs to Rs. 1-41 lakhs. Japan sent Rs. 3-01 lakhs' worth of matches, Sweden Rs. 1-21 lakhs, and Norway Rs. 0-63 lakh against Rs. 4-40, Rs. 4-77 and Rs. 1-60 lakhs respectively in 1915-16. Imports of *soap* improved from Rs. 12-81 to Rs. 17-38 lakhs. Household and laundry soaps increased by Rs. 2-71 lakhs and toilet soap by Rs. 1-89 lakhs, the imports being almost entirely from the United Kingdom.

IV.—MISCELLANEOUS AND UNCLASSIFIED.

The total value of imports under this head rose from Rs. 33-27 lakhs to Rs. 37-17 lakhs.

Imports of *living animals* showed a decrease of Rs. 0-4 lakh. One thousand seven hundred and thirty-four horses valued at Rs. 9-85 lakhs were imported against 2,180 valued at Rs. 10-38 lakhs in 1915-16. One thousand six hundred and ninety horses came from Victoria, 80 from the Straits Settlements, and 14 from Ceylon.

Articles imported by post amounted to Rs. 26.18 lakhs against Rs. 21.72 lakhs. The United Kingdom sent to the value of Rs. 12.32 lakhs, Japan Rs. 4.91 lakhs, Ceylon Rs. 4.88 lakhs, the Straits Settlements Rs. 1.62 lakhs, and France Rs. 1.88 lakhs against Rs. 5.65, 8.45, 7.65, 1.36 and 1.79 lakhs respectively, in the previous year.

The exports of *grain and pulse* decline by 18 per cent. in quantity and 19 per cent. in value. Exports of *paddy* (rice unhusked) improved by 76 per cent. in quantity and 83 per cent. in value, while those of *rice* (rice husked) declined by 23 per cent. in quantity and 21 per cent. in value. Shipments of rice and paddy to Ceylon, represented 90 per cent. of the total exports under this head, and declined by 19 per cent. both in quantity and value. This was partly due to want of tonnage and partly to larger supplies from Burma to that colony. The average value of rice rose from Rs. 8-3-9 to Rs. 8-7-5 per cwt. Shipments to the Straits Settlements declined by 22 per cent. and those to Mauritius by 9 per cent. The variations under *other grains* are small and call for no remarks.

There was a very slight decline in the quantity of *spices* exported, but the value rose by 26 per cent. During the first nine months of the year under review shipments of *pepper* fell away by 47 per cent. in quantity and 21 per cent. in value when compared with those in the corresponding period of 1915-16. During the last three months, however, shipments increased sixfold in quantity and ninefold in value. The final figures for the whole year showed a decline of 9 per cent. in quantity and a rise of 36 per cent. in value, the average value having risen from As. 4-8 to As. 7-0 per lb. The 1916 crop was a good one and the demand was very brisk, consequently, pepper fetched high prices. Shipments to

the United States and the United Kingdom decreased from Rs. 18.24 and Rs. 15.22 lakhs to Rs. 16.90 and Rs. 14.21 lakhs respectively, the pre-war average shipments to these countries being Rs. 5.31 and Rs. 3.7 lakhs. Shipments to France and Italy, however, showed a marked recovery from Rs. 1.51 and Rs. 2.13 lakhs to Rs. 13.21 and Rs. 4.95 lakhs respectively.

Exports of *ginger* receded by 33 per cent in quantity and 25 per cent in value.

There were larger shipments of *chillies* to Ceylon and the Straits Settlements.

Sugar—There was a great recovery in the exports of *sugar* (mostly unrefined sugar) from 60,897 cwt. valued at Rs. 5.17 lakhs to 220,684 cwt. valued at Rs. 17.08 lakhs, and exports almost reached the level of 1912-13. The area of sugarcane under cultivation increased by 20 per cent, and the total yield by 81 per cent. The outturn would have been still larger had not the crop suffered by the unusually heavy north-east monsoon rains in the Circars and by the devastations of the severe cyclone in South Arcot in November 1916. The price of *jaggery* in 1914-15 and 1915-16 in different districts varied from 25 to 60 per cent. above that which prevailed in 1913-14, but in 1916-17 this high level was not maintained and the average price fell during the year from Rs. 8.40 to Rs. 7.80 per cwt. Shipments to Ceylon improved from Rs. 8.53 lakhs to Rs. 14.77 lakhs. A large quantity of palm jaggery was exported to Ceylon on account of Ceylon sugar refineries. Shipments of unrefined sugar to the United Kingdom, which before the war amounted to Rs. 8.5 lakhs, practically ceased.

Tea—The total exports amounted to 24.91 million lb. valued at Rs. 175.85 lakhs against 25.84 million lb. valued at Rs. 173.76 lakhs, a decrease of 4 per cent in quantity and an increase of 1 per cent in value. The decrease is ascribed to want of tonnage. In March restrictions were placed on exports to the United Kingdom but the effect of these restrictions was only felt in 1917-18. The average price rose from Rs. 11.9 to Rs. 11.4 per lb. The acreage under tea was reported to be 78,402 in 1916 against 68,238 acres in 1915. Shipments to the United Kingdom and Ceylon declined from 82 and 16 per cent to 67 and 15 per cent respectively, while those to Canada rose from 1 per cent. to 17 per cent.

The season's crop was delayed by tardy blossoming showers and late rains in October and November, but when it was harvested it turned out better than that of the previous season. Prices which were high at the beginning of the season, subsequently declined, and as freights to consuming countries were also high, exports declined 17 per cent in quantity and 18 per cent in value. During March 1917 more than half the quantity exported during the whole year was shipped. As in the previous year 48 per cent went to the United Kingdom, whereas France increased her receipts from 24 to 26 per cent.

Tobacco—Exports of *tobacco* increased by nearly a million lb. and amounted to 3.95 million lb. The value likewise rose by almost a lakh and reached Rs. 9.51 lakhs. The trade in *leaf tobacco* amounted to 3.44 million lb. valued at Rs. 6.11 lakhs. As usual, the chief consumers were the Straits Settlements and the Federated Malay States. A quantity of 850,120 lb. valued at Rs. 1.14 lakhs, was sent to the United Kingdom. Shipments of *cigars*, 80 per cent of which went to the Straits Settlements and the Federated Malay States, further declined from 743,903 lb. to 463,846 lb. in quantity and from Rs. 4.26 lakhs to Rs. 3.11 lakhs in value. Higher grade cigars to the value of Rs. 0.22 lakh were exported to the United Kingdom against Rs. 3.66 lakhs worth in 1915-16.

II.—RAW MATERIALS AND PRODUCE AND ARTICLES MAINLY UNMANUFACTURED

Exports of *raw hides* from the Madras Presidency are comparatively unimportant, but there was an improvement of 11 per cent in quantity and 31 per cent in value. The whole quantity went to the United Kingdom.

Raw skins, consisting almost entirely of goat skins, expanded by 15 per cent in weight and 75 per cent in value, the average value having risen from Rs. 14-4 to Rs. 1-6-0 per lb. The marked increase in price is ascribed to the large demand for tanned skins at the London sales which reacted on raw skins locally. The share of the United Kingdom rose from 18 to 32 per cent, while that of the United States fell from 53 to 36 per cent.

Metallic ores.—Shipments for *manganese ore* to the United Kingdom, which as usual formed the chief item under this head, amounted to 9,450 tons valued at Rs. 1'05 lakhs against 2,000 tons valued at Rs. 0'18 lakh.

Oils.—There was again a considerable increase in the quantity of oil exported and the value rose by Rs. 24 14 lakhs to Rs. 77 82 lakhs.

Animal Oils, consisting almost entirely of fish oils, have fallen away very considerably. In 1914-15 220,830 gallons were shipped, in 1915-16 29,080 gallons, but in the year under review only 10,500 gallons, valued at Rs. 6'00, were shipped. Under *essential oils* and *lemongrass oil* from South Malabar improved from 39,975 gallons to 34,991 gallons valued at Rs. 4 81 lakhs. The value of shipments to France more than doubled, while those to the United States and the United Kingdom both declined. Other essential oils, consisting mostly of *sandal wood oil* amounted to 4, 91 gallons valued at Rs. 7 73 lakhs, practically the whole of which went to the United Kingdom.

Under *vegetable oils*, exports of *cocoanut oil*, representing more than half the quantity of all oils advanced amounted to the same quantity as in the previous year, namely 2 02 million gallons, but the value rose from Rs. 38 57 lakhs to Rs. 42 51 lakhs, a rise of 10 per cent, or from Rs. 1 14-0 to Rs. 2 20 per gallon. The value of shipments to the United Kingdom improved from Rs. 21 54 lakhs to Rs. 34 25 lakhs, the average exports before the war being valued at Rs. 6 15 lakhs. Shipments to the United States, which before the war were valued at Rs. 8 60 lakhs, almost doubled in 1915-16, but declined to Rs. 7 69 lakhs in the year under review, as the export to that country has been prohibited since July 1916.

Exports of *castor oil* increased from 384,305 gallons valued at Rs. 5 08 lakhs to 1,016,9 5 gallons valued at Rs. 14 3 lakhs. The United Kingdom absorbed to the value of Rs. 18 07 lakhs against Rs. 8 92 lakhs. Shipments of *groundnut oil* also increased from 262,641 gallons to 418,812 gallons valued at Rs. 4 18 and 6 94 lakhs respectively. The increase was particularly marked in the case of consignments to the United Kingdom.

Seeds form one of the principal exports from the Madras Presidency and before the war were exported in a larger quantity than any other produce. In 1916-17 the quantities declined by 44 per cent and the value by 25 per cent and represented only 8.34 per cent for the total foreign exports.

Groundnuts.—The trade in groundnuts represented 68 per cent of the total exports of seeds. Before the war the exports annually averaged 197,318 tons valued at Rs. 344.49 lakhs and France was the chief consumer. During 1914-15 there was a decline of 43 per cent in quantity and 45 per cent in value, but much of the unshipped balance went to Calcutta. In 1915-16, however, the trade with foreign countries revived and large consignments of nuts were sent to Marseilles. The shortage of tonnage to Mediterranean ports gave rise to considerable anxiety as to the disposal of the season's harvest, which was above the average, and prices dropped considerably. The position improved somewhat towards the close of the official year and an outlet was found by considerable exports to the Straits Settlements and coast-wise to Bengal and by rail to Bombay for shipment thence and consequently the prices hardened to some extent. The figures for the whole year disclose a fall of 56 per cent in quantity and 49 per cent in value. The high prices prevailing in 1915-16 induced cultivators to sow more crops and the area under groundnuts in 1916-17 increased by 60 per cent. This is particularly marked in the Deccan where groundnut cultivation is extending to black cotton soils. The estimated yield is 30 per cent above that of the previous year and is given as 825,000 tons. At the beginning of April 1916 the price was Rs. 35 per candy of 5 0 lb., at the end of that month it was Rs. 38-3-0, but in the middle of July it fell to Rs. 34 and again rose to Rs. 37 at the end of September from which date there was, on the whole, a gradual decline, the closing price being Rs. 26-8-0. Fully 90 per cent of the exports of groundnuts was consigned to Marseilles, and it is interesting to note the phenomenal rise in freight rates to that port since the outbreak of the war. In July 1914 the rate quoted was 23s. 9d. per ton and in November 84s. 10d. In November 1915 195s. was quoted, but by November 1916 as much as 275s. per ton was paid. Since then rates have been nominal, but as much as 450s. per ton has been paid. Exports to France (59,561 tons) declined by 59 per cent in quantity and 53 per cent in value. Shipments to Italy and the United Kingdom increased by 14 and 19 per cent. Exports coastwise remained about the same and amounted to 25,286 tons.

The following table compares the foreign export trade in groundnuts of the principal ports of this Presidency:—

The total quantity, both foreign and coasting, shipped at Madras was 56,819 tons compared with 97,535 tons in 1915-16, a decrease of 42 per cent.

Exports from Pondicherry amounted to 19,568 tons against 42,238 tons in 1915-16, a decrease of 54 per cent.

Copra or coconut kernels.—Inasmuch as Germany was formerly by far the largest importer of copra, with Belgium and Russia standing next, it was only to be expected that the complete cessation of exports to these countries would have a very serious effect on the trade in this product. This was early realized and manufacturers in England turned their attention to producing "vegetable butter." They also bought large quantities of coconut oil. France increased her imports of copra and, whereas before the war only 8 per cent went to that country, during the last two years her share has been 56 and 83 per cent and the United Kingdom's share 43 and 12 per cent respectively. During 1916-17 exports of copra improved by 61 per cent in quantity and 65 per cent in value, the average value having risen from Rs. 18-4-0 to Rs. 18-11-0 per cwt.

The following table shows the foreign export trade in the several products of the coconut palm:—

Essential oilseeds.—In 1915-16 exports of *coriander seed* to Ceylon declined, but this trade has since revived and consequently shipments under this head increased by 28 per cent.

Castor seed.—For the past two seasons the castor seed crop has been very poor and exports have now dropped far below those of any previous year and were only about half those of 1915-16, though the quantity in that year was the smallest on record. The situation, however, is not as bad as it would appear as much of the seeds which were formerly crushed in Europe are now crushed in India and the very large quantities of castor oil exported during the last two years have more than compensated for the small quantity of castor seeds shipped.

Cotton seed.—There was a decrease of 15 per cent in the quantity of *cotton seed* exported and the increase to the United Kingdom noticed last year was not maintained.

Sesamum (oil or jingili).—The cultivation of *jingili* declined by 16 per cent and was supplanted by groundnuts and indigo. The outturn was 12 per cent less than in the previous year and exports decreased 60 per cent in quantity and 58 per cent in value.

Niger seeds.—Exports in 1914-15 amounted to 1,762 tons, but declined in 1915-16 to 810 tons and in 1916-17 to 120 tons valued at Rs. 14,000.

Textile materials.—The total value under this head improved from Rs. 196.27 lakhs to Rs. 298.12 lakhs.

Exports of *raw cotton* showed a decline of 2 per cent in volume and a rise of 37 per cent in value. Shipments during the first nine months amounted to 548,080 cwt. valued at Rs. 237.04 lakhs against 504,698 cwt. valued at Rs. 158.64 lakhs, an increase of 8 per cent in quantity and 54 per cent in value. Owing to scarcity of tonnage shipments during January 1917 amounted only to 4,063 cwt. against 14,737 cwt. in January 1916, and there were no shipments during February and March. The area under cotton cultivation was estimated at 2,288,000 acres, an increase of 11 per cent. The estimated yield was 377,000 bales, an increase of 6 per cent.

The distribution and output of the different trade descriptions of *cotton* were as follows:—

There was a further rise in price. The spot price of middling American cotton at Liverpool, which was 57d. in April 1915 and 76d. in April 1916, rose to 12½d. at the close of November but declined to 10½d. at the beginning of February 1917 and again rose to 12½d. at the close of the year. The local average *f.o.b.* price per cwt. of 500 lb. of cotton Westons was Rs. 180 in April 1916 and Rs. 243 in March 1917. Shipments to Japan expanded by 61 per cent, while those to the United Kingdom and Italy declined by 80 and 19 per cent respectively. The increase in the exports to Japan was due partly to low freights and partly to the expansion in the trade in cotton textiles, yarns, hosiery and other cotton goods in that country, while the decrease in the case of the United Kingdom and Italy is attributed to high freights and scarcity of tonnage. As in the case of groundnuts, large quantities of raw cotton were sent by rail to London for shipment thence to foreign countries.

Hemp, raw.—Exports declined slightly from 2,500 tons to 2,793 tons while the value rose from Rs. 7·85 lakhs to Rs. 9·53 lakhs. Eighty-five per cent of the export went to the United Kingdom and 14 per cent to Italy.

Jute, raw.—No jute, properly so called, is exported from this Presidency but the *Hibiscus* fibre usually grown in the coast districts north of Madras is technically known as jute, e.g., Bimbatam, Gopalpore and Kottapattam jute, and is classified as such. Exports of this fibre improved from 5,867 tons to 6,090 tons in quantity and from Rs. 12·60 lakhs to Rs. 16·04 lakhs in value. Exports were almost entirely restricted to the United Kingdom.

Wood and timber. With an increase of Rs. 1·25 lakhs the total value stood at Rs. 15·44 lakhs. Exports of *teak* and other timber amounted to Rs. 1,841 decreasing to Rs. 1,192 lakhs and of *sandalwood* to Rs. 13·9 lakhs against Rs. 12·27 lakhs. The United Kingdom and the United States received sandalwood to the value of Rs. 7·66 and 5·15 lakhs respectively, against Rs. 3·52 and 8·28 lakhs in the previous year. The average value of exports to Germany before the war was Rs. 5·85 lakhs.

Exports of *raw rubber* have shown large increase every year and in 1916-17 further improved by 31 per cent in quantity and 19 per cent in value. This was brought about by larger areas of rubber trees coming into bearing. Shipments to the United Kingdom, Ceylon and the United States amounted to Rs. 77·89, 29·70 and 6·01 lakhs respectively, against Rs. 64·04, 28·99 and 3·39 lakhs in 1915-16.

Fibre for brushes and brooms, consisting chiefly of palm-leaf fibre shipped from Coimbatore, Tuticorum and Calicut amounted to Rs. 19·05 lakhs against Rs. 17·28 lakhs in 1915-16 the chief consumer being the United Kingdom.

Exports of *manures* amounted to Rs. 11·91 lakhs against Rs. 8·05 lakhs. Shipments of *bones* amounted to Rs. 3·44 lakhs, *fish manures and guano* to Rs. 8·82 lakhs and *other manures* to Rs. 2·65 lakhs against Rs. 3·08, 2·16 and 1·26 lakhs respectively, in 1915-16. The increase under fish manures was due to larger catches of sardines for manure.

The quantity of *meat* exported improved from 27 to 279 tons, or by 9 per cent, and the value from Rs. 3·75 lakhs to Rs. 6·05 lakhs, or by 61 per cent. Shipments were confined to the United Kingdom.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value under this head increased from Rs. 862·03 lakhs to Rs. 963 lakhs.

Chemicals, drugs and medicines.—Exports of *cinchona bark* amounted to 688,143 lbs. valued at Rs. 1·78 lakhs against 607,807 lb. valued at Rs. 1·60 lakhs in 1915-16. Shipments were confined to the United Kingdom. Consignments of *ura tozica* declined from 2,225 tons valued at Rs. 3·28 lakhs to 2,172 tons valued at Rs. 3·53 lakhs and were consigned to the United Kingdom and the United States. Shipments of *seena* have again shown a considerable increase, and rose from 1,539 tons to 4,751 tons and from Rs. 7·49 lakhs to Rs. 29·03 lakhs. Rupees 20·11 lakhs' worth was sent to the United Kingdom compared with Rs. 5·83 lakhs' worth in 1915-16 and the United States and France increased their supplies from Rs. 0·91 and 0·35 lakhs to Rs. 4·41 and 3·03 lakhs respectively. Large crops of *seena* are grown in the Tanjore and Ramanad districts, and early in the year high prices were offered in England even for the lower grades of leaves and pods. The market at home however became heavily overstocked with *seena* of poor quality and this will probably affect the exports for the year 1917-18.

Dyes and colourants.—The remarkable expansion referred to in last year's report under the head of *dyeing and tanning substances* was not maintained and exports declined from Rs. 116·69 lakhs to Rs. 73·84 lakhs.

Exports of indigo receded from 1,308 tons to 614 tons, or by 53 per cent, and from Rs. 108.77 lakhs to Rs. 67.55 lakhs, or by 38 per cent. The average value from Rs. 116 to Rs. 550 per cwt. Shipments to the United Kingdom, representing 60 per cent of the total exports, declined from Rs. 89.98 lakhs to Rs. 41.86 lakhs, while those to Egypt, the United States and Italy improved from Rs. 9.53, 3.95 and 1.87 lakhs to Rs. 15.26, 6.02 and 2.62 lakhs respectively. The market opened with brisk demands from Egypt and with enquiries from the United States, and competitors were forced to pay higher prices every day. Owing to large stocks in London, offers from that centre were not encouraging and the high price of indigo, coupled with high freight rates, restricted trading. Speculative shipments to Egypt however continued. The area under indigo in 1916-17 is reported to have been 449,900 acres, or double the actual area sown in 1915-16. The yield was estimated at 2,951 tons, or about 2½ times last year's estimate. Heavy rains in the Ganjam district and the Deccan caused serious damage to the crops so that the yield per acre has been poor and the quality is reported to be indifferent. In the North Arcot, Salem and Chittoor districts, however, the harvest has been favourable. Exports coastwise declined from 1.6 tons to .68 tons.

Exports of *mupablass*, the major portion of which went to the United Kingdom, declined from Rs. 2.52 lakhs to Rs. 0.48 lakh. Exports of *turner* rose from Rs. 3.83 lakhs to Rs. 4.65 lakhs. This was due to the United States taking fifty times as much as in the previous year. Shipments to Ceylon increased whilst those to the Straits Settlements decreased.

Hides and skin, tanned or dressed, and leather. The total exports of *tanned hides and skins* on private account decreased by 16 per cent in quantity but increased by 30 per cent in value. Exports on private and Government account combined showed an increase of 24 per cent in weight and 70 per cent in value.

The above table includes 131,746 cwt. of tanned cow hides valued at Rs. 178.63 lakhs purchased on Government account since September 1916 and shipped by private exporters. In the general returns these amounts have been classified under Government stores; for purposes of comparison however, they are taken into consideration here. The total shipments of *tanned hides* showed an expansion of 28 per cent in quantity and 54 per cent in value. If we exclude the cow hides referred to above then exports of tanned hides declined by 26 per cent in weight and 21 per cent in value.

The increased demand for war materials improved the trade under *cow hides* by 21 per cent in quantity and 53 per cent in value. High prices at home induced larger shipments of tanned *buffalo hides* and these "buffs" rose by 29 per cent in quantity and 61 per cent in value.

Exports of all tanned hides were almost entirely confined to the United Kingdom.

Exports of *tanned skins* improved by 27 per cent in weight and 88 per cent in value. There was an extraordinary demand from Europe and America during the year under review and prices rose steadily until December 1916. At the end of the year the export of tanned skins was prohibited to the United States of America, and from January 1917 a fall has taken place. The high prices obtainable for goat and sheep skins however, prompted tanners to tan skins on a far larger scale, and new tanneries were opened. Under *goat skins* the United Kingdom increased her imports by 25 per cent and the United States by 18 per cent.

Under *sheep skins* the United Kingdom received skins valued at Rs. 108.81 lakhs, the United States Rs. 38.81 lakhs, Japan Rs. 15.03 lakhs, and the Straits Settlements Rs. 4.36 lakhs against Rs. 48.78, 19.66, 8.83 and 3.69 lakhs respectively, in the previous year.

Calf skins and other skins improved from 7,189 cwt. to 12,470 cwt. owing to increased demand and these were, as usual, almost entirely confined to the United Kingdom.

The following table shows in detail the quantity and average price of the different kinds of hides and skins exported:—

The trade with Shanghai, which was considerable in 1915-16, was not maintained. Exports of *cotton piece-goods* slightly declined and amounted to 28.36 million yards valued at Rs. 117.36 lakhs, a fall of 1 per cent. in quantity and a rise of 6 per cent. in value. *Grey goods*, chiefly to Ceylon, the Straits Settlements and the Federated Malay States declined from Rs. 2.67 lakhs to Rs. 1.73 lakhs. The export trade in Madras *handkerchiefs* made by handlooms, declined from Rs. 18.73 lakhs to Rs. 4.19 lakhs, partly owing to the restriction placed on the import of these goods into the United Kingdom. Shipments to other countries were unimportant.

Exports of *woollen goods* amounted to the same value as in the previous year, viz., Rs. 8.59 lakhs. Carpets and rugs amounted to Rs. 2.02 lakhs and other sorts to Rs. 1.57 lakhs against Rs. 2.03 and 1.46 lakhs respectively, in the previous year.

Miscellaneous.—Exports of *coir manufactures*, consisting chiefly of coir yarn and matting, amounted to Rs. 63.54 lakhs against Rs. 63.19 lakhs in 1915-16. Exports to the United Kingdom, France and Ceylon increased considerably, while those to the United States, Portugal and Italy declined.

Oil-cakes to the value of Rs. 48.92 lakhs were exported against Rs. 51.51 lakhs in 1915-16. Sesamum cake amounted to Rs. 26.19 lakhs, groundnut cake to Rs. 17.20 lakhs and castor cake to Rs. 5.48 lakhs. The exports of cocoanut cake practically ceased.

The increase of Rs. 33.98 lakhs under imports was brought about by larger receipts of apparel (+ Rs. 17.77 lakhs), cotton goods (+ Rs. 16.98 lakhs), hardware (+ Rs. 3.04 lakhs), and drugs and medicines (+ Rs. 2.15 lakhs), but imports of chemicals declined by Rs. 4.58 lakhs. Imports were mostly from the United Kingdom. The increase under exports was due to the shipment of Rs. 178.68 lakhs' worth of tanned cow hides to the United Kingdom on Government account.

The particulars given in the above table are for the whole Presidency and relate to *shipping* entering from, and clearing to, foreign ports. Vessels calling at Madras *en route* to Calcutta are treated as foreign entries and clearing clearances and *vice versa*.

Previous to the war the total tonnage averaged 396 million tons per annum. In 1914-15 there was a decrease of a million tons and during the past two years a further drop to 228 million tons. On the other hand the actual number of vessels has steadily increased and amounted to 4,161 against a pre-war average of 3,741. The average tonnage per vessel consequently declined and was 549 tons against 677 in the previous year and less than half the average for the five years ending 1913-14. This result was due to the larger number of Native craft now employed. Excluding the ferry steamers plying daily between Phannshkodi and Talumman, the average tonnage of British vessels entering and clearing was 185 and that of foreign vessels 2,311 tons. Of the 26 vessels which entered under foreign colours five were Norwegian, five Dutch, four Russian, four Swedish, two French, two Greek, two Italian, one American and one Arabian. The tonnage of British vessels amounted to 87 per cent of the whole against 86 per cent in 1914-15. British Indian vessels and native craft claimed 7 per cent against 5 per cent in the previous year. The number of Native craft engaged in foreign trade rose from 1,020 to 1,289 and their tonnage from 63,980 to 88,431.

Imports and exports of treasure and Government stores are excluded from the above table.

Of the aggregate trade in the Madras Presidency the *British Empire's* share, which before the war amounted to 63 per cent, improved to 75 per cent both in 1915-16 and 1916-17. The value of imports advanced by Rs. 98.85 lakhs, or by 10 per cent, and that of exports by Rs. 68.2 lakhs, or by 4 per cent, giving a total increase of trade of Rs. 161.55 lakhs, or 6 per cent. The trade with other countries also improved by Rs. 108.84 lakhs, or by 12 per cent, made up of Rs. 39.04 lakhs under imports and Rs. 64.8 lakhs under exports.

BRITISH EMPIRE.

United Kingdom.—The trade with the United Kingdom represented 48 per cent. of the total trade compared with 47.53 per cent. in 1914-16 and expanded by Rs. 152.54 lakhs or 4 per cent. If we include the tanned cow hides shipped under Government control the total trade would show an expansion of Rs. 31.17 lakhs, or 19 per cent. Under foreign imports 57 per cent came from the United Kingdom against 66 per cent in 1915-16 and the value increased by Rs. 94.19 lakhs, or 12 per cent. The *Federated Malay States* share improved by Rs. 5.23 lakhs as a result of larger shipments of living animals, rice and silk goods. *Canada* received more tea and *Egypt* more indigo and for these reasons our trade with these countries improved by Rs. 26.46 lakhs and Rs. 5.64 lakhs respectively. Larger shipments of raw goat skins increased the trade with *New South Wales*. The decline in trade with *Victoria* was due to smaller imports of horses from, and smaller shipments of coffee to, that colony.

THE CONTINENT OF EUROPE.

Prior to the outbreak of the war the trade of the Madras Presidency with the *Continent* amounted to 28 per cent of the total foreign trade; in 1914-15 it dropped to 20 per cent, in 1915-16 to about 12 per cent and in 1916-17 to 10 per cent. Smaller arrivals of matches and iron and steel reduced the trade with *Sweden* by Rs. 6.29 lakhs. There have been no exports to that country during the past two years. The expansion of Rs. 2.03 lakhs in the trade with *Norway* was due to larger shipments of copra to that country. *Holland* received less cow manufactures and *Spain* less raw cotton and groundnuts than in the previous year, and the trade with these two countries was reduced by Rs. 7.89 lakhs and Rs. 5.93 lakhs respectively. There was very little variation in the trade with

Switzerland which amounted to Rs. 5.38 lakhs; larger imports of watches having been counterbalanced by smaller shipments of raw cotton. There were no imports from *Russia* and exports to that country declined from Rs. 1.52 lakhs to Rs. 0.15 lakh.

The small quantity of imports from enemy countries represents goods landed from prize vessels.

ASIA.

The trade with Asiatic ports, other than British ports, improved by Rs. 92.41 lakhs, or 43 per cent., and represented 8 per cent. of the aggregate trade. The trade with *Japan* expanded by Rs. 107.68 lakhs, or 101 per cent. Exports were larger by Rs. 104.49 lakhs, raw cotton (+ Rs. 97.12 lakhs), tanned sheep skins (+ Rs. 6.17 lakhs) and articles by post (+ Rs. 1.87 lakhs) contributing to the increase. By sending two large consignments of sugar the *Philippine Islands* increased their trade with *Madras* at the expense of *Java*. The increase in the number of cases under class D from 53 to 103 was due to the inclusion in the revised list of piece goods (published under section 19 of the Merchandise Marks Act) of a number of new items which formerly did not require to be stamped with yardage, and to the importers not having taken proper steps to advise the suppliers of the additions to the list.

THE ARTIFICIAL HARBOUR AT MADRAS.

1. Nature having done absolutely nothing for the provision at Madras of any kind of shelter for shipping, it has been necessary artificially to provide such shelter as the trade could afford, and that at an expense of about two millions sterling. The following is a sketch of the provision so made. Needless to say, in view of the flatness of the ground on the land side as far as the visible horizon, no shelter at all from winds is practicable. But very little of this is needed for modern vessels, and the engineer's task has been to keep out the waves, which interfered with the working of cargoes in and out of lighters and were liable to break ships' own mooring lines, though not the Trust's moorings. following is a description of how this task has been accomplished.—

2. The construction of an artificial harbour for Madras was sanctioned by the Secretary of State for India in March 1875, chiefly through the warm support accorded by Lord Hobart, then Governor of Madras. The works, as originally constructed, were designed by Mr. William Parkes, M.I.C.E., a well-known harbour engineer, who had designed the Munora breakwater at Karachi which was completed in 1874.

3. The harbour was commenced in June 1875, under the superintendence of the late Mr. James May, M.I.C.E., who, like Mr. Parkes, had been an assistant and colleague of the late Mr. James Walker, M.I.C.E., an eminent harbour engineer much employed by Government in the design and construction of harbours on the British coasts. On the 15th December 1875, a memorial stone of the commencement of the works was laid on the east side of the beach road, opposite the old High Court, now the Madras Collectorate, by H. R. II. the Prince of Wales (the late King, Edward VII), on the occasion of his visit to this Presidency. This stone was removed from its original site on the 15th December 1913 and, with another stone of like size commemorating the landing at Madras of King George V when Prince of Wales, on the 21st January 1906, nowadays flanks the main entrance beneath the signal tower of the new harbour offices. In January 1876 the root of the north breakwater was commenced, and in December of the same year the first concrete block was laid. At the end of the fair season of 1881, the two breakwaters were nearly finished, forming an artificial enclosed harbour with a 500-feet opening at the entrance in the centre of the eastern side. From the beach road each arm extends nearly a mile into the sea.

4. On 12th November 1881, a cyclone wrecked both the eastern breakwaters, from the elbows to the entrance, but did not affect seriously the rest of the work. Mr. Parkes, the Engineer-in-Chief, visited Madras shortly afterwards, and, after a careful examination, submitted his report to Government on the state of the works, with his recommendations for the reconstruction of the damaged portions. The Secretary of State for India referred the question to a committee, formed of the two well-known harbour engineers, Sir John Hawkshaw and Sir John Cooke, with whom was associated Professor Stokes. The work of reconstruction on the amended design was commenced in July 1884, and on the 9th May 1896 the Board's engineer reported that the artificial harbour had been completed according to the sanctioned design, at a total cost of about Rs. 1,27,00,000.

5. The harbour had been vested in Trustees by Act II of 1886; but, later, a new Act, II of 1905, was passed, altering the status of the Harbour Trust, and making it the Madras Port Trust. This Act was amended in 1915.

6. The artificial harbour so constructed being only a bare enclosure, mitigating the strength of the waves but little and providing no traffic or landing facilities at all, various projects for developing and improving it have been under consideration since 1896; and in 1908 the Secretary of State for India approved of estimates, amounting to about Rs. 46,00,000, for constructing a new entrance to the harbour at its north-east corner, to be protected by a massive breakwater about 1,600 ft. long, and for closing the then existing eastern entrance. The actual work of building the new protecting arm was commenced in February 1906: the new entrance was opened for the use of ships on 3rd January 1910;

and the old entrance was completely closed on 9th September 1910. The estimates for these important developments—chiefly because of the addition of new works—were, later, brought up to Rs. 60,00,000. of which Rs. 20,00,000 were supplied by a free grant from Government, and the balance by a loan repayable by the Trust by equated payments of principal and 4 per cent. interest to cease in 1952. The whole of the work covered by these estimates was completed by July 1912.

7. In connection with the harbour alteration work just referred to, a 9-acre boat basin was excavated in the south accretion for the protection of the floating craft employed on the works, but it now serves for the safe harbourage of all the small craft, from 1,000 tons downwards, working in the harbour. It is equipped with 1,600 feet of shallow quay walling, alongside of which barges and cargo boats can lie, and is now extensively used for the landing and shipping of iron and stone as well as for non-draftable coasting cargo, for the handling of which 18 hydraulic cranes have been provided.

8. A canal from the boat basin leads into a 2-acre timber pond, equipped with small jetties and cranes and with all facilities for handling the timber trade, for which a large storage area is reserved around the pond. The boat basin shelters the Trust's own fleet of some 17 vessels of 1,000 tons and downwards, and, in addition, accommodates as many 40 to 100-ton lighters as private enterprise sees fit to supply for the needs of the landing and shipping business.

9. There has also been constructed in the boat basin a slipway capable of taking vessels up to 500 tons deadweight, and an area has been reserved with a ramp leading to it on which the smaller barges and boats may be built and repaired. Close alongside the boat basin and its slipway the Trust has built its new and convenient permanent workshops, which are able to undertake all reasonable repairs to its own extensive plant and occasionally to render assistance to shipping. During the war, very valuable services were rendered to a large number of small river crafts intended for Mesopotamia, by the slipway and the waterboys.

10. At two places, at which vessels can lie alongside the breakwaters cranes are available for picking weights up to 38 tons direct from steamers' holds. There is also a 15-ton crane for use with barges. The port also has a piece of floating plant capable of picking up a 30-ton load from the bottom of the harbour in case of accident.

11. The port does a large trade in bulk oils, and is adequately provided with piping, through which the oil may be pumped into the merchants' installations from vessels lying at their moorings.

12. Horses and cattle can walk straight ashore into, or can embark from, paddocks, without the intervention of railway wagons.

13. Until quite recently the only conveniences available for the landing as well as for the shipment of cargo at the port—besides the primitive one-ton surt or masulah boats—was a screw pile pier, built before the days of the artificial harbour, and therefore much too high for present conditions. For those interested in archaeology, the history of this structure, now half a century old, will be found in previous numbers of this Almanac, for 1907 and earlier. This old pier now no longer exists, having been dismantled in 1913. A second, a third and a fourth pier have since been finished and equipped with a number of hydraulic cranes; there was also provided a length of 700 feet of a ferro-concrete quay for lighters, similarly equipped. However, all these very useful, but temporary, pieces of equipment have now disappeared, by dismantlement, in favour of the West Quay.

14. This last work, the West Quay, the Port Trust's most important scheme, now completed, consists of the quaying of the whole of the western face of the harbour by sinking wells to a depth of 50 to 60 feet below low water and dredging in front of them from 26 to 30 feet below low water, so that ships may lie alongside and work their cargo direct with the shore. The whole length of this work is now ready and sufficient length of quay to accommodate four vessels has been completed and is in use. The West Quay provides berthing for four, or in an emergency, e.g. during mobilization, for six, vessels of 24 to 26 feet draft. Back of the four berths are four transit sheds of an area of about 7 acres. Between the ship berths, spaces, equipped with 30 one-ton hydraulic cranes, have been reserved for working cargo in and out of lighters. Large portal cranes are under supply for working cargo direct in and out of the holds of ships lying at the quay; these, however, like many other things, are delayed because of the war. Before the construction of this West Quay the 200-acre harbour enclosure afforded about half its area, with a depth of 26 to 35 feet, as a mooring space for shipping, while the other half shallowed off to the western shore in the form of a shelving strand. Now the whole of the area is available for steamers of Suez Canal drafts.

15. Besides the four berths available for ships to lie at the West Quay, there have, for the last few years, been available three other ship-quays, namely, the Outer Quay, used chiefly for the discharge of case oil and petrol on the north-eastern sheltering breakwater; the East Quay, used for coal, at the old, now closed, harbour entrance; and the South Quay, used chiefly by Rangoon and Singapore passenger vessels, as well as by horse and cattle boats. All these three quays, as well as the West Quay berths, are connected up by rail, on both the metre and the standard gauge, with all parts of the harbour. Everywhere troops and passengers can pass from rail to ship's side in half a dozen paces.

Until two or three years ago the whole of the coal trade of Madras used to be done on the north beach, chiefly by masulah boats, and the coal dust caused much annoyance to the offices situated at that front of the City. But now the whole of this coal business, except a little bunkering coal which has not yet been specially dealt with, has been removed to a new yard on the south of the south breakwater, and coal vessels lying at the East Quay are able to work their cargoes at the rate of 1,000 to 1,400 tons per day into the new yard without their trains of wagons interfering with, or being interfered with, by the other traffic of the port.

16. When vessels carrying Burma, Singapore and other such passenger traffic are unable for the moment to find accommodation at the South Quay, their passengers are conveyed, for a fixed charge collected at their port of origin, to what are called the "Springhaven Steps" in the boat basin, where convenient waiting accommodation and disinfecting arrangements have been provided. When, on the other hand, such vessels come up to the South Quay, trains convey passengers to and from ship's side, and medical and disinfecting arrangements are to be found conveniently near.

17. The Port of Madras has always been very defective in accommodation for cargo awaiting the arrival of vessels for export. For this purpose many old and inconvenient godowns in the town have long been in use, as well as certain sheds made available for the purpose by the Railways. But now the Port Trust has entered on a policy of spending Rs. 12 lakhs on the provision of warehouses for lease to merchants wherein produce intended for export and, to some extent also, if desired, the same merchants' imports, may be stored at a fixed rate per unit of area. Two out of three such warehouses has already been completed and the whole of it is leased. Part of the steel work for the third has arrived, but the balance is held up owing to war conditions. It is believed that the provision of this class of accommodation will have a very beneficial effect on the development of the export trade of Madras, and particularly on that of the groundnut trade. Already they are largely used by Government for munition supplies. The warehouses when complete will have a total floor area of about 5½ acres in which exports can be graded, bagged and marked in preparation for shipment. Moreover the flat roofs are available for drying and graving purposes.

18. On the night of November 22-23, 1916, Madras port was attacked by a violent cyclone. The centre of the wind storm passed inland, perhaps 100 miles south of the port; but the heavy seas resulting from the cyclonic winds—winds which though violent in the path of the storm were of comparatively low magnitude at Madras—underrated and overturned the 5,000-ton monolithic bastion block, forming the end of the outer sheltering breakwater and supporting a small lighthouse. Thereupon, deprived of its head, the structure of the breakwater was unable to stand up against the violence of the waves though composed of 20 to 33-ton concrete blocks with a 5-foot capping of solid concrete, and about 180 feet of it was destroyed and lies under water while another 100 feet of it—out of the whole length of 1,600 feet—is badly shaken. The restoration of the damage and the formation of a new and impregnable bastion will probably cost not less than Rs. 15 lakhs, and the work will probably occupy fully three years. During the year which has elapsed since the cyclone, good progress has been made with the repairs of the damage. But the most important adjunct to the completion of the restoration, a 330-ton steel caisson is hung up in England because of war conditions

RULES TO REGULATE THE LANDING AND EMBARKING OF ALL CLASSES OF PERSONS PASSING BETWEEN THE SHORE AND STEAMERS LYING AT MOORINGS IN MADRAS HARBOUR.

[NOTE.—These Rules do not apply to Steamers at the Quays.]

1. (a) All third class passengers from and to Rangoon and the Straits Settlements, and all emigrants, must use the Springhaven steps for embarking and disembarking. The steps in question are reached from Springhaven Road which leaves the "South Beach Road" opposite the "Fraser Bridge Road," or else by the "Harbour Station Road" which leaves the "North Beach Road" opposite the Collectorate and the Indian Bank.

(b) First and second class passengers may disembark at, and embark from, either the Anchor steps or the Springhaven steps.

(c) Hackney carriages are allowed to ply for hire within the harbour premises, at the Springhaven steps and at the Anchor steps only.

2. (a) All bum-boat men, hawkers and petty traders dealing with vessels in the harbour must embark and disembark at the Springhaven steps and there only. Should such a person be found using any other place for landing or embarking he will be liable to have his license cancelled.

(b) Ships' stores and provisions must be shipped either from No. 1 berth of the West Quay or from the Springhaven steps. The Anchor steps are not to be used for this purpose, being intended only for passenger traffic.

3. Captains and officers of vessels in the harbour and shipping agents and their clerical staff may use either the Anchor steps or the Springhaven steps for embarking and disembarking.

4. Coolies employed on board ships in the harbour will be mustered and discharged as follows:—

(a) Messrs. Binny & Co.'s labour; at that firm's boat repair yard at the south-west corner of Springhaven basin.

(b) Labour employed by all other firms or by consignees handling their own cargo; at the stone steps at the north end of the West Quay, close by the boat repair yard ordinarily used by Messrs. Gordon, Woodroffe & Co.

5. Port Trust bye-laws Nos. 13, 14, 15 and 16, prohibiting the obstruction of quays, wharves and landing places by jolly boats or other craft, will be strictly enforced.

6. The police must be careful to see that the landing places, and especially the Anchor steps, are at all times kept clear of jolly boats, etc., and to prevent loafers from loitering about such landing places or under the archway of the Harbour Offices. At the Anchor steps a clear semi-circle of a radius of not less than 100 yards must be kept free of jolly boats, whether plying for hire or not, except at such times as a boat is in the act of taking in or setting down a passenger.

IDENTIFICATION TICKETS FOR THE ADMISSION INTO THE HARBOUR OF PERSONS WHO HAVE BUSINESS TO TRANSACT.

To be brought into force from 15th November 1914 in supersession of the temporary system previously in use.

During working hours, no one will be allowed into the Madras Harbour premises who is not in possession of either an identification ticket, or a metal token, or a license issued either by the Customs Department or by the Port Trust. During non-working hours, no one may enter the harbour except on personal passes issued by the Chairman, the Deputy Port Conservator or the Traffic Manager. Persons found in the harbour during either working or non-working hours, without either the identification tickets, the metal tokens the licenses or the passes above specified, will be liable to prosecution as trespassers under the Port Trust bye-laws.

2. Identification tickets will be issued, free of cost, in two forms—A, for the permanent staff of the various firms and bodies, as well as for Government officials, who have business in the harbour but are not licensed by the Collector of Customs; and B, for cartmen and dealers who visit the harbour to clear goods sold and delivered to them by importers.

3. The following are the two kinds of identification tickets which will be used in future:—

(a) FORM A will be issued to:—

- (i) *The permanent staff of firms* who are not licensed by the Collector of Customs to transact business in the harbour but need to come into the harbour occasionally.
- (ii) *Shippers and their clerks* who transact business on their own account and do not employ agents licensed by the Collector of Customs.
- (iii) *Owners of goods* who are also importers and do not possess licenses but wish to supervise the delivery of their goods.
- (iv) *Dubashes, labour contractors and cart maintainers.*
- (v) *Motor lorry drivers* in permanent employment.
- (vi) *Government officials* having business in the harbour.

(b) FORM B will be issued to:—

- (i) *Cartmen* not in permanent employment.
- (ii) *Dealers* who come into the harbour occasionally to take delivery of goods purchased by them from importers.

4. The following system will be followed in issuing identification tickets:—

- (i) Application for identification tickets should be made in the official form.
- (ii) Tickets in form A will be issued over the signature of the Traffic Manager, Madras Port Trust.
- (iii) Tickets in form B will bear the name of the person to whom they have been issued, the name of the firm or person who issued them and the date of issue, a fresh entry being made for each day of issue. These tickets will be in books of a dozen ruled pages so that they can be issued over and over again, one line only being necessary for each day of a ticket's issue.

5. The following procedure will be adopted in the case of daily-paid labour:—

- (i) *Aluminium tokens*, bearing serial numbers and the words "Madras Port Trust," will be issued, free of cost, to all employers of labourers, temporary or otherwise, such as shore coolies, stevedores' coolies, lightermen, etc. These tokens will be issued in separate series according to the requirements of each employer.
- (ii) Employers of labour will be held responsible for seeing that a record is kept, as a means of identification, of the name of each person to whom a token has been issued each day. This record should take the form of a register which

- can be inspected, at any time, by the harbour police. Should tokens be lost, a fee of Rs. 2 will be charged for each token replaced by the Port Trust.
- (iii) *Brass tokens* as used at present will continue to be recognized as the means of identifying labour employed by the Trust's traffic department, and *sinc tokens* for workmen employed by the engineering department. In both cases daily entries will be made in a register of the names of the persons to whom the tokens have been issued.
- (iv) Tokens will only be recognized by the police as an authority to enter the harbour during working hours. Persons found loitering in the harbour during non-working hours, even though in possession of tokens, are liable to be treated as trespassers.

6. All persons in possession either of *tokens* or of *identification tickets* in Form A or B must enter and leave the harbour by gates Nos. 4 and 8. The police have received orders not to allow such persons to enter or leave the harbour by any other gate.

7. These rules do not apply to licensed hackney carriage drivers, or to persons licensed by the Chairman to angle in the harbour or to jolly-boat men in possession of metal badges issued by the Deputy Conservator, or to members of the Madras Sailing Club and friends accompanying them, to whom special tickets have been issued. The admittance of such persons into the harbour will be governed by the rules issued from time to time by the licensing authorities.

8. Customs officials are excluded from the operation of these rules. The Customs appraisers are well known to the police and to the Port Trust staff, the preventive officers, tide-waiters and beach-peons all wear uniform and the Customs peons have badges.

9. *Passengers embarking*.—A steamer-passenger's ticket will be accepted as a pass, if presented to the police at the gate. Friends and relations of third class deck passengers will be allowed on quay tickets sold at annas four per ticket by the Trust near the passenger enclosure on the day of the arrival and departure of passenger vessels.

10. Officers and crews of vessels cannot, for obvious reasons, be brought within the scope of these rules, and the police must therefore use their discrimination in passing them in and out of the gates at all hours.

5. *Receipt and delivery of cargo.*—When the Port Trust undertakes the reception, removal, portage or storage of cargo under section 39 of the Port Trust Act, it shall deal with such cargo promptly and in an orderly manner and shall deliver it or permit its shipment after all dues shall have been paid. In the case of cargo of which the Port Trust does not elect to undertake the reception, removal, portage or storage, no steamer agent, shipper or consignee may remove any part of such cargo from the Port Trust's premises until authorized by the Port Trust so to do, after dues shall have been paid.

Such dues, whether on exports or on imports, shall be paid previous to the removal of goods from the harbour premises to such person as the Port Trust may depute to receive and grant receipts for them.

7. *Documents to be produced by shippers and consignees.*—All applications for permission to export or to import goods shall be on forms approved by the Port Trust, and such forms shall in all cases be correctly filled in and signed by the shipper or consignee of the goods or by his agent. Whenever required by the person authorised by the Port Trust to call for and inspect them, all necessary documents shall be produced by shippers or consignees or their agents at the time of the shipping or landing of goods. Whenever cargo is shipped by a vessel other than that entered on the application for permission to ship it, a fresh application must be submitted to the Port Trust for the cargo in question and any person failing to submit such fresh application shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 10 for each default.

8. *Opening of packages—(i) Restrictions.*—No package shall be opened upon the harbour premises by the importer or owner, for appraisement, examination, or survey, without the permission of the Port Trust. (iii) *Removal of opened packages.*—Goods opened for appraisement, examination or survey, which the owner does not intend to return to the Port Trust as laid down in clause (ii) above, must be removed from the Trust's premises immediately after the appraisement, examination or survey shall have been completed.

9. *Port Trust not responsible when notice of loss has not been given within one month.*—The Port Trust will not be in any way responsible for loss of or damage to goods handed into its custody on the harbour premises, unless notice of such loss shall have been given within one month of the date of the receipt granted for them by the Trust under section 40 (1) of its Act.

10. *Floating timber.*—All floating timber discharged from vessels inside the harbour must be properly rafted and towed or floated into the timber pond. Any floating timber which the importer or his landing agent is unable to transport to the timber pond on the day of discharge must be properly rafted and secured in the south-westernmost corner of the harbour or as may be directed by the Port Trust. Any person contravening this bye-law shall, on conviction before a magistrate, be liable to a fine not exceeding Rs. 50 for each offence.

10 (a). The master of any vessel discharging timber into the sea at the port of Madras shall cause such timber to be actually lowered into the water and shall not allow it to be thrown overboard. Any person contravening this bye-law shall, on conviction before a magistrate, be liable to a fine not exceeding Rs. 100 for each offence.

11. *Works of art, bullion, etc.*—The Port Trust will not accept responsibility in respect of any package containing a work of art or an article of vertu of which the value including

that of the package exceeds Rs. 500, or containing specie, bullion, gold or silver articles, jewellery, precious stones or coral, unless six hours at least before the package is landed or shipped, written notice is given to the Port Trust by the owner or consignee, and the package is specially delivered to the Port Trust and a receipt therefor obtained. Should any package containing any of the articles above referred to be brought to any wharf or pier in the possession or occupation of the Port Trust without written notice thereof as hereinbefore provided being given to the Port Trust, the package, if for export, shall be shipped or, if imported, shall be removed to the Custom House or to the Port Trust's sheds at the sole risk of the owner and shall remain at his risk until cleared.

12. *Unrestricted working permitted only during certain hours.*—In the absence of a duly-signed permit from the Port Trust, no work may be carried on, within the harbour premises, outside the regular working hours prescribed for the particular section from time to time by the Port Trust. Any person found at work and refusing to close work or to leave the premises, when called on to do so either by the Port Trust's servants or by the police on duty in the yard, shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20 for each offence.

13. *Boats and other craft to keep clear of pier ladders.*—Any person being a tindal or a member of the crew of any boat or other craft who fails to keep such boat or other craft clear of the pier ladders shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20 for each offence.

14. *Boats and other craft not to make fast to piers, wharves or jetties.*—No boats, lighters or rafts shall be permitted to lie alongside of, or make fast to, the piers, wharves or jetties, except when loading or unloading, or for the purpose of taking off or landing passengers or baggage. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20 for each offence.

15. *Tindals and crews to remain in boats.*—Tindals and the men composing the crews shall remain in their respective boats and lighters when alongside the piers, wharves or jetties, and shall obey the orders and directions of the Traffic Manager or his assistants. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine of Rs. 20 for each offence.

16. *Mooring of craft when not working.*—When afloat and unemployed, lighters, boats and rafts shall be securely moored at a distance of not less than one hundred yards from the piers. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20 for each offence.

17. *Lighters, boats and other craft to be beached only at places assigned.*—No lighters, boats or other craft shall be brought ashore or beached for the purpose of repair, except at such places as may be assigned by the Port Trust for that purpose. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20 for each offence.

18. *Admission of catamarans inside the harbour.*—No catamaran shall enter the harbour without a license from the Deputy Conservator of the Port. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 20.

19. *The sinking of any boat in the harbour to be reported by the Master of the boat.*—The Master of any cargo, masulah or other boat which shall from any cause be sunk in the harbour shall forthwith report the fact of such sinking and the place where it occurred, to the Deputy Conservator of the Port, if between the hours of 10 A.M. and 4 P.M., and to the Senior Harbour Master, if between the hours of 4 P.M. and 10 A.M. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence.

20. *The sinking of a boat to be reported by the Master of a vessel in certain circumstances.*—The Master of any vessel in the harbour, alongside of which any cargo, masulah or other boat shall from any cause be sunk whilst taking in cargo or passengers from or discharging cargo or passengers into such vessel, shall forthwith report the fact of such sinking and the place where it occurred to the Deputy Conservator of the Port, if between the hours of 10 A.M. and 4 P.M., and to the Senior Harbour Master if between the hours of 4 P.M. and 10 A.M. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence.

21. *Loss of cargo overside.*—Should any article likely to be dangerous to shipping, or exceeding 10 cubic feet in measurement or 4 cwt. in weight, be dropped overboard alongside a vessel in the harbour, the Master of the vessel shall at once buoy the place and shall report having done so by letter or signal to the Deputy Conservator of the Port. The Master of every vessel in the harbour, on leaving port, shall furnish to the Deputy Conservator, either direct or through the vessel's agents, a list of all cargo dropped overside, whatever their measurement or weight. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence. But this bye-law shall not apply to coal cargo in bulk.

22. *Public excluded from harbour premises, except on business.*—The general public cannot claim to be admitted to the harbour premises when traffic or work is going on. At such times those persons only who have business to transact can claim to be admitted.

23. *Sites set apart for coolies and boatmen to obtain food.*—Certain sites shall, from time to time, be set apart as occasion may require, by order of the Chairman of the Port Trust at his discretion, to enable boatmen or coolies to obtain their food, and all persons bringing such food shall be restricted to these sites and the pathways leading thereto and therefrom, which shall be indicated by notice-boards.

24. *Use of fires or naked lights prohibited.*—(i) *On shore.*—Any person, without permission previously obtained from the Traffic Manager, kindling or making use of fire or a naked light on the piers or jetties, or in any godown or enclosure or open space used for the time being for the storage of goods within the harbour premises, shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence. Any employee of the Port Trust is empowered to put out such fire or naked light. Any person smoking in or near any godown or enclosure or open space used for the storage of cargo shall be deemed to have infringed this bye-law.

(ii) *Afloat.*—If any person kindles or makes use of a fire or a light on board a barge, or lighter, carrying cargo, the registered tindal of such craft will be held responsible that such fire or light is kindled only in a safe fire-place, stove or lantern. Any such tindal or any member of his crew contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine of Rs. 50 for each offence.

25. *Masters of vessels to report immediately outbreak of fire, explosion, collision or leak.*—Should any vessel lying in the harbour spring a leak, suffer collision or catch fire, or should an explosion occur on board of her, the Master of such vessel shall immediately report the occurrence to the Deputy Conservator of the port by the quickest available means. If this report is made by signal, a written or verbal report shall follow as soon as possible. In the case of fire or leak, the Master shall make the International code urgent signal by day, and by night the port signal, signifying his condition, and shall keep the same hoisted until the fire is extinguished, or the leak stopped. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence.

26. *Landing of explosives.*—No package containing gunpowder or other explosive shall be landed within the limits of the port without permission first obtained from the Collector of Sea Customs and from the Chairman of the Port Trust, or, in his absence, from the Traffic Manager, and in the landing or shipping thereof, all rules or directions from time to time made or given by the Port Trust or by the Chairman, to ensure safety, shall be rigidly adhered to and observed. Any person contravening this bye-law shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 100 for each offence.

27. *Prosecutions require sanction of the Chairman.*—All prosecutions, under the provisions of these bye-laws, shall be instituted by, or by order of, the Chairman of the Port Trust.

THE MADRAS PORT TRUST'S SCALE OF RATES.

In force from 20th July, 1917.

PART I (A).—STATEMENT OF THE CHARGES FOR CERTAIN SERVICES WHICH THE TRUST IS PREPARED TO RENDER TO THE PUBLIC, AND OF THE CONDITIONS ATTACHING TO SUCH SERVICES.

1. *THE TRUST'S RESPONSIBILITY FOR GOODS PASSING THROUGH ITS PREMISES.*—(a) *Accommodation and watching.*—For the convenience of its clients, whether importers, exporters or steamer agents, the Port Trust provides and polices accommodation, covered, uncovered, locked or unlocked, as required, for imports in process of transit between ship or lighter and cart or wagon, and for exports in the reverse direction.

(b) *Trust not responsible unless goods be definitely tendered to it for custody.*—But the passage of goods into or through the Trust's premises, or its handling of them or its storing of them for the convenience of its clients, whether under roof or not, or locked or not, does not bring such goods under the bailiership of the Trust, as contemplated in section 41 (1) of the Madras Port Trust Act, unless and until, in compliance with a request by the tenderers, a receipt relating thereto, as specified in section 40 (1) of that Act, shall have passed from the Trust to those tendering the goods to it for custody. In the case of export cargo, the prescribed receipt will not be granted until the tenderer shall have complied with the conditions noted on the reverse of the Port Trust form called the "Export Application".

(c) *Additional dues on exports taken into the Trust's custody.*—On all goods intended for export which, at the owner's request, the Trust takes definitely into its custody under sections 40 and 41 of its Act, and gives a receipt for, an extra charge will be levied of 2½ annas per ton over and above the charges shown in Part II, Schedule of Rates.

(d) *Owner responsible for packages under appraisement.*—Goods opened by order of the Customs Department or removed by the Trust, under the instructions of the Customs Department, for examination or appraisement, will remain at the risk of the owner until, with the permission of the Customs Department, they shall have been returned definitely by the owner to the Trust for custody and a receipt for them shall have been granted.

(e) *Conditions of Trust's acceptance of bailiership.*—Goods tendered for custody to the Trust as bailees, by importers, exporters or steamer agents, must be tendered at such places and be stacked in such manner as the Trust may appoint for the purpose, from time

to time, or may direct to the tenderer; and until so placed, and the prescribed receipt shall have passed from the Trust to the owner, such goods shall continue to be at the owner's sole risk.

(f) *Conditions on which exports in Trust's custody may pass out.*—Exports which have passed into the Trust's custody, as per clause 1 (b) and (e), may not be moved for shipment, or from the harbour premises, until the receipt given for them by the Trust to the exporter, or an acquittance of equivalent validity, shall have passed to the Trust from the exporter. But from the moment of the surrender of such receipt or of such acquittance by the owner to the Trust, such goods shall be at the owner's sole risk notwithstanding their being in the Trust's premises and enjoying such conveniences as those referred to above in clause 1 (a).

2. *THE TRUST'S OPTION TO PERFORM SERVICES.*—(a) *To carry goods by water.*—Under section 39 of its Act, the Trust has the option to land, ship or tranship goods between vessels in the port and its wharves, piers or docks. But it does not at present perform any such services.

(b) *To take charge of goods for delivery or shipment.*—Under section 39 of its Act, the Trust has the option to undertake, or to refuse to undertake, the reception, removal, portage or storage of goods brought within its premises. For goods of which it consents to take charge, the Trust is bound, under section 40 (1) of its Act, to give a receipt if thereunto required.

(c) *Goods of which the Trust does not take charge.*—But at present the Trust does not take charge of the following classes of goods, whether in the open or under such shelter looked or unlocked, as it may have placed at owners' or steamer agents' disposal, viz.:—(i) exports not specifically tendered for custody under clause 1 (b) and for which a receipt has, therefore, not been granted; (ii) iron and steel, etc., the handling of which has been relinquished by the Trust to steamer agents, (iii) non-dutiable coasting cargo of which the handling has been relinquished by the Trust to steamer agents—other than the combustibles that must be landed under the Trust's combustibles permit, (iv) Government stores; (v), free goods, (vi) goods enumerated in Part II (B) of the Scale of Rates; and (vii) all goods landed outside the harbour.

3. *PORTAGE OF IMPORTS.*—(a) *Rates and charges.*—The rates given in Part II (A) of the Scale of Rates cover portage of imports by the Trust. The rates quoted in that part of the Scale do not cover the handling of goods landed outside the harbour. Part II (B) of the Scale enumerates certain goods, the portage of which by the Trust is not covered by the rates quoted. Whenever, at the request of importers, the Trust handles any goods not ordinarily so handled, it will levy an additional charge equal to the actual cost incurred in such handling, with 4 annas per ton as a minimum, and also craning charges if incurred, but will accept no responsibility in respect of cargo so handled.

(b) *Relinquishment of portage by Trust to steamer agents.*—Whenever the Trust agrees with steamer agents to relinquish to the latter, the portage of non-dutiable coasting cargo, the rates of harbour dues payable by owners of such cargo will be 4 annas less per ton than those quoted in the Schedule of Rates; this reduction will not, however, apply to the exceptions given above, viz., to items in Part II (B) of the Scale, to goods landed outside the harbour, and to goods of which the rate is per "coach." Whenever the Trust agrees with steamer agents to relinquish to the latter the portage of iron or steel, etc., whether coasting or foreign, consigned to others than to Government, and landed at the boat basin iron yard, the rate of harbour dues thereon will be 8 annas per ton less than that quoted in the Schedule of Rates.

(c) *Trust may collect steamer agent's portage charges.*—Should an agreement be come to between the Trust and a steamer agent that the latter shall handle cargo ordinarily handled by the former, at an agreed rate, both parties to the agreement will be at liberty to arrange, mutually, for the Trust to collect from owners, and to pay to the steamer agent, the agreed rate for portage, without the steamer agent being thereby constituted the Trust's contractor or agent.

4. *PORTAGE OF EXPORTS.*—(a) *Trust passes out exports at exporter's risk.*—The portage of exports by the Trust is not covered by the rates given in the scale. But in order to avoid the confusion that must occur if the carrying and craning of exports passing out for shipment through its sheds and over its piers or wharves, are left to exporters themselves, the Trust ordinarily supplies the labour and machinery for handling and craning cargo so passing out, under a general charge of 4 annas per ton, per passage, whether its cranes are used or not. Exports so handled for shipment do not, however, pass thereby into the Trust's custody, but are at the risk of the owner. Should any part of them have been in the Trust's bailment under clause 1 (c), prior to their passing out for shipment, they will already have left such custody under clause 1 (f) before being handled.

(b) *Services covered by the 4-anna per ton charge.*—With the exception of goods intended for export that require the use of cranes for their unloading from wagons or carts and for which the rate of craning will be that laid down in clause 11 (a), the 4-anna charge specified in clause 4 (a) is intended to cover the use not only of labour but also of such shedding, wharves, cranes, trollies, etc., as has been provided by the Trust for the general convenience of its clients, whether their goods may have come into its custody or not. But the 4-anna per ton charge will not be levied on goods removed from a ware house leased to a shipper and shipped by him on board a vessel lying at a quay.

(c) *Rebate if owners handle exports.*—Should owners of exports desire to do so, they may, with the Trust's permission endorsed on the "application," handle their goods themselves, and in that case they will be granted a rebate of 2 annas off the above 4-anna charge. But such permission will be given for the handling of the whole, not a part, of the exports covered by one "application."

(d) *Unloading exports.*—Exports arriving by road must be unloaded and stacked by owners. Exports arriving by rail, other than ores, coal, kerosine-oil, rough stone, ballast, timber and such like, will be dealt with as per clause 2 of Part I (B).

(e) *Conditions.*—For the purpose of assessing dues, all exports must be suitably stacked for count, weight or measurement at places pointed out by the Trust. No exports may be moved forward for shipment until all dues thereon shall have been paid.

5. **SPECIAL PORTERAGE.**—For portorage, other than that for exports as per clause 4 (a), done by the Trust and not covered by harbour dues, the charge will be the actual cost to the Trust of such portorage, with 4 annas per ton as a minimum.

6. **TRANSIT DUES ON IMPORTS LEFT LYING IN THE TRUST'S PREMISES.**—(a) The Trust's intention, in imposing transit dues on imports is not to act as warehousemen for profit, but to prevent the congestion of its sheds which experience shows to take place if its charges for shelter are too low. Such congestion is found seriously to interfere with the speedy transit through the harbour premises of goods of which owners desire to take early delivery. In order to prevent congestion the following transit dues are imposed:—

On goods not cleared within six working days following the date on which the vessel concerned shall have completed discharge of her cargo, and excluding Sundays and Chamber of Commerce holidays, transit dues will be charged at the following rates:—

For the first week, or portion thereof—

- | | |
|---|----------------------------|
| (i) On consignments, actually landed, whose actual invoiced weight or measurement covers 50 tons and over | } 2 annas per ton per day. |
| (ii) On consignments, actually landed, whose actual invoiced weight or measurement covers 10 tons and over, but less than 50 tons | |
| (iii) On consignments, actually landed, whose actual invoiced weight or measurement covers less than 10 tons | } 8 annas " " |

For the second week or portion thereof—twice the above rates.

For the third and succeeding weeks or portions thereof—thrice the rate for the first week.

(b) *Salvaged goods.*—In the case of salvaged goods, the six free days mentioned in clause 6 (a) will be calculated from the day following the notification of salvage by the Receiver of Wrecks in the *Port St. George Gazette*.

(c) *Dangerous goods.*—On the undernoted dangerous goods, if landed at a quay and not cleared from the Trust's premises by consignees within (excluding Sundays and holidays) 24 hours after the day of landing, transit dues will be levied at double the full rates quoted in clause 6 (a).—Matches; sulphur; glycerine; pitch; tar; creosote; acids other than sulphuric, nitric, carbolic, muriatic and hydrochloric acid; nitrate of potash and similar alkalis.

(d) *Goods on which dues are quoted "per each."*—On goods for which a special rate of harbour dues "per each" is quoted, the rate of transit dues, after the free days mentioned in clause 6 (a), will be calculated as a percentage of the harbour dues, thus:—For the first week or part thereof 25 per cent, for the second week or part thereof 50 per cent, and for the third and succeeding weeks or parts thereof 100 per cent.

(e) *Other Conditions.*—(i) With the exception of dangerous goods, half the above rates will be charged if goods lie in the open without covering of tarpaulin or roof. (ii) Goods remaining uncleared at the expiry of the free days will be liable to the "special portorage" fee specified in clause 5, if shipped by the Trust in the interests of cargo generally. (iii) After transit charges begin to accrue, no allowance will be made for Sundays or holidays.

(f) *Goods from unknown vessels.*—On goods from vessels whose names are unknown, transit dues will be charged up to a maximum of two months only.

7. **STORAGE OF EXPORTS.**—(a) *Convenience for exporters.*—In return for its ordinary harbour dues, as per the schedule, the Trust provides accommodation, as per clause 1 (a) for the use of exporters for a period long enough, ordinarily—vide (b) below—to enable them to effect the shipment of their goods. Also, see clause 9, it places certain spaces, at a rental, at exporters' disposal. But in order to prevent, in the interest of all exporters equally, the abuse of the privilege of free accommodation and the congestion resulting therefrom, the Trust is obliged to impose penalty charges as per clause (c). But in imposing these penalty charges the Trust does not thereby offer to act as warehousemen for gain; for by allowing the very liberal free days noted in the clause it hopes to minimise its penalty collections.

(b) *Free accommodation for exports.*—Exports may stand within the Trust's premises, free of storage charges, for a period of six working days, excluding Sundays and Chamber of Commerce holidays, before that of the arrival in port of the vessel in which shipment is effected, with, in addition, the days the vessel remains in port.

(c) *Penalty charges.*—But for periods longer than the aforesaid free days, penalty charges will be levied at the following rates in order to prevent congestion :—

For the first week or portion thereof—1 anna per ton per day.

For the second week or portion thereof—2 annas per ton per day.

For each of the third and following weeks, or part thereof—4 annas per ton per day.

Half the above storage rates will be charged if the goods lie in the open, without covering of tarpaulin or roof.

(d) *Exports that have to be shifted.*—Goods remaining on hand at the expiry of the free days will be liable for the "special portorage" fee specified in clause 5, if shifted by the Trust in the interest of cargo generally.

(e) *Goods shut out from shipment.*—No free days will be allowed on goods brought into the Trust's premises and removed therefrom without being shipped or without being waterborne for shipment. But intended shipments which have been waterborne for shipment and have been shut out, if removed from the premises, will receive the benefit of the free days as if they had been shipped. If removed from the premises after the departure of the vessel by which they were shut out, the total number of free days allowed will be the six days before the arrival in port of the vessel by which the goods were shut out, in addition to the stay of the vessel in port and 24 hours, excluding Sundays and holidays, after her departure. But for goods waterborne for shipment by one vessel and subsequently shipped to another vessel, after having been shut out by the first vessel and left in the Trust's premises, the free period as laid down in clause 7 (b) will count only from the date of the arrival of the vessel by which the goods were actually shipped.

5. *STORAGE OF EXPLOSIVES.*—For such explosives as the Trust is licensed to store and does store in its magazine, the following scale of storage will be charged after the expiry of the same number of free days as are allowed to other imports :—

Two pice per pound per month or part of a month for the first year.

For the second year—twice the above rates.

For the third and subsequent years—three times the above rates.

Storage will be charged on the gross tonnage of consignments and must be paid monthly. The first year will be considered as commencing from the date of the reception of the explosives in the magazine.

9. *RENTED SPACE.*—(a) *Allotment of space.*—Persons requiring to rent space for the storage of their goods on the Trust's premises may obtain it, if available, by making application in writing for a permit in the form prescribed by the Trust from time to time. But it will be in the Trust's discretion to consent or to refuse to allot such space, and an allotment will, ordinarily, be refused unless the application has been made before the deposit of the goods. Rented space may not be sub-let.

(b) *Owners' risk.*—In applying to be let to store goods on space available for rent, owners must state that they understand that they accept all risks and responsibility for goods so stored.

(c) *Open space.*—For rough goods stored in the open, such as ashes, coal, coke, minerals, timber, scrap iron, firewood, redwood, stone, etc., rent will be charged for at the rate of 2 annas per day per 1,000 square feet allotted, or part thereof, from the date of allotment.

(d) *Covered space.*—For cargo stored in certain of the transit sheds allotted by the Trust for such purpose from time to time, the rent will be at the rate of Rs. 3-12-0 per calendar month, or *pro rata* for part thereof, per 100 square feet allotted or part thereof, whether the sheds are locked by the Trust or by the owners of the cargo. For space allotted in Port Trust shed No. 5 for the storage of country-pressed vegetable oils, intended for export, which cannot be stacked more than one cask high, the rent leviable on the whole area of the compartment allowed for such storage shall be Rs. 2 instead of the above Rs. 3-12-0 per 100 square feet per mensem or part thereof. But before he can be allotted space on these terms the lessee must put it in writing that he understands clearly that the locking by the Trust of sheds thus partly or wholly rented to him does not avail to make it bailee of the goods so stored unless the receipt specified in clause 1 (b) shall have passed from the Trust to him.

(e) *Merchants' warehouses.*—The Trust has provided certain covered sheds for lease to merchants for the storage by them, at their own entire risk, primarily of goods intended for export. The rent to be charged for these warehouses will be at the rate of Rs. 3-12-0 per calendar month or *pro rata* for part thereof per 100 square feet allotted or part thereof.

(f) *Timber.*—For timber allowed to lie in the sorting enclosures of the timber yard beyond the free time allowed by the Trust's timber-yard rules from time to time, rent, payable by the landers of such timber, will be charged at 4 annas per day or part thereof per 1,000 square feet or part thereof on the whole area of the enclosures allotted to them. But for such timber the permit referred to in clause 9 (a) is not necessary. The transit dues leviable under clause 6 will be recovered, from landers, on timber left afloat in the timber pond beyond the expiry of such free days as the Trust may see fit to grant. A consignee of timber landed in the floating or non-floating timber yard failing

to pay his dues within seven days (Sundays and holidays not to count), including the date of the departure of vessel from which his timber has been landed, will be liable for transit dues under clause 6 up to the date of payment of dues.

(g) *Conditions.*—The occupation of space under rental terms will be subject to the conditions set forth in the permit. In the absence of the permit, double the above rents will be charged from the date of allotment.

10. **ADDITIONAL CHARGES ON IRON AND STEEL.**—(a) After allowing for such free days, exclusive of Sundays and Chamber of Commerce holidays, as the Trust may see fit to grant, the following transit charges per ton per day will be made on undelivered balances of consignees' iron, or steel, handled by steamer agents at the boat basin iron yard, as worked out from day to day. The first month will be considered as commencing from the date of the sailing of the vessel concerned:—

First month	...	1 pie.	Third month	...	2 annas.
Second "		1 anna.	Later months	...	4 "

(b) On goods stored under cover in the shed allotted for sheltering certain kinds of iron and steel, transit charges will be recovered at four times the above rates.

(c) If, in the interests of the Trust's business, it is found necessary to shift any of such iron or steel, the charge to the consignee for its removal will be 8 annas per ton for each shift. Iron or steel remaining unmoved beyond the end of the day following delivery, will have to pay 8 annas per day or part of a day for each 100 square feet or part thereof occupied.

11. **CRANAGE.**—(a) *Rates per ton.*—For the cramage of goods at any wharf, pier, dock, land or building in the possession or occupation of the Board, or into or from any truck or railway vehicle, the charge for each package, by measurement at 50 cubic feet to the ton, or by weight at the Trust's option per ton per hoist, will be as follows:—

	RS. A. P.		RS. A. P.
Up to 1 ton	0 4 0	Over 5 tons and up to 10 tons	4 0 0
Over 1 ton and up to 2 tons	1 8 0	Over 10 tons and up to 15 tons	5 0 0
Over 2 tons and up to 5 tons	2 8 0	Over 15 tons	6 0 0

(b) *Exception.*—But when, in the scale, a rate is quoted per package or per animal, such rate shall cover only one cramage when the goods are landed or shipped. All other cramage, if incurred, must be paid for at the rate of Rs. 1 8 0 per hoist, per package or per animal.

(c) *Iron and timber.*—All goods passed in at the boat-basin iron-yard, and all timber handled at the floating or non-floating boat basin timber-yard measuring 5 cubic feet and over for each piece, will pay 1 anna per ton cramage, whether the cranes that have been provided are used or not. When timber measuring less than 5 cubic feet per piece is cramed, cramage at 4 annas per ton will be charged. Iron, steel and timber landed elsewhere than at the boat-basin iron or timber yards must pay cramage charges, as per clause 11 (a).

(d) *Use of cranes.*—Cranes, if available, of 5 tons capacity or under, hired to merchants for a special purpose, outside the ordinary routine of landing and delivery, will be charged for at the rate of one rupee per crane per hour or part thereof for hand cranes and at double this rate for steam cranes. The use of the wagon-loading cranes in the timber yards is free.

(e) *Cramage on liquids.*—For the calculation of cramage on liquids, whose rates of harbour dues are fixed in the scale per 54 gallons, one ton will be considered as equivalent to 216 gallons, or to 50 cubic feet, at the Trust's discretion.

12. **LOCAL ENGINE HAULAGE AND HANDLING DONE IN THE HARBOUR.**—(a) *Haulage and handling charges.*—For export produce railed from sheds rented by exporters in Trust's premises, for direct shipment from wagon to steamer or from wagon to boat, the Trust will charge Rs. 6 8 0 per loaded trip for each 23-ton broad gauge wagon and Rs. 3-8-0 per loaded trip for each 12-ton broad gauge wagon, and proportionately to carrying capacity for smaller wagons if employed. The loading of such wagons must be done at their own expense by the exporters concerned. But when, with the Trust's permission, the unloading of wagons at the ship's side and the shipment into the steamer or into lighters is done by exporters, they will be given a rebate of Rs. 4-4-0 per 23-ton broad gauge wagon and Rs. 3 per 12-ton broad gauge wagon for goods shipped direct from wagons into a steamer and Rs. 3 per 23-ton broad gauge wagon and Rs. 1-8-0 per 12-ton broad gauge wagon for goods unloaded from wagons into boats. If smaller wagons are employed the rates of rebate per wagon will be in proportion to the carrying capacities of such wagons. For handling of cargo by the Port Trust, at the request of owners, in connection with the shipment of export produce from warehouses, the rates will be Rs. 6 for each 23-ton broad gauge wagon and Rs. 3 for each 12-ton broad gauge wagon and proportionately for wagons of smaller carrying capacity. In the case of goods, other than export produce from a warehouse, loaded and unloaded by the Trust, at the request of owners, into and out of Port Trust wagons, the rates for handling will be Rs. 6 for each 23-ton broad gauge wagon and Rs. 3 per each 12-ton broad gauge wagon and proportionately for smaller wagons, for each operation, and the haulage charge on such wagons, for each loaded trip, will be Rs. 3 for each 23-ton broad gauge wagon and Rs. 1-8-0 for each 12-ton broad gauge wagon and proportionately for smaller wagons.

(b) *Hire of Port Trust wagons.*—Port Trust wagons, if available, will be hired to the public at the rate of Rs. 10 for each 23-ton broad gauge wagon and Rs. 5 for each 12-ton broad gauge wagon, per midnight-to-midnight, day or part of such day. Vehicles hired from the Port Trust will be hauled, on behalf of the hirers, at the rate of Rs. 3 per 23-ton broad gauge wagon and Re. 1-8-0 per 12-ton broad gauge wagon for each loaded trip.

13. **TRANSHIPMENT.**—Goods manifested for transhipment, and transhipped, from ship to ship, whether directly or via the shore, will pay only quarter harbour dues. But if handled by the Trust, such goods will pay a further sum of 4 annas per ton for each operation, whether in or out. The rates quoted in clause 7 (c) will apply to all goods, other than iron and steel and timber stored in the iron and timber yards respectively, awaiting transhipment in the Trust's premises, except that for such goods the penalty charges, there quoted, will be halved. In the case of iron and steel and timber awaiting transhipment in the iron yard and timber yards respectively, the rates of transit dues will be the full rates ordinarily charged in these two yards on the above-mentioned goods. Cranage will not be charged on such goods. Coal or petroleum fuel, for bunkers, which has paid harbour dues, may be re-shipped free of further harbour dues. If the tonnage of transhipped goods cannot otherwise be readily ascertained, dues will be levied on the tonnage of the lighters or other craft conveying them from the vessel by which they were manifested for transhipment. In the case of import goods on which the Trust relinquishes a portion of the harbour dues for handling, the harbour dues for transhipment will be calculated on the balance left after the amount to be relinquished has been deducted.

14. **WORKING HOURS.**—The Trust's "ordinary working hours" are the hours fixed for Customs working from time to time by the Collector of Customs, Madras.

15. **OVERTIME WORKING.**—Steamer agents or others who require business to be done outside the Trust's ordinary working hours, shall put in a regular application for such overtime working, not later than 2 p.m. on the same day, or in the case of Sundays and holidays on the previous working day, and shall pay to the Trust overtime fees on the following scale, whether subsequently they offer cargo during such outside hours or not. But no charge will be made for overtime fees if applications for night work are cancelled in writing before 5 p.m. on the same day, or before 4 p.m. on the day previous, in the case of applications for overtime working on Sundays and holidays.

Services to be paid for by each applicant for overtime work.	Each hour after 6 P.M. and before 6 A.M. per section.	Sundays and Gasetted Holidays

Keeping a section of the yard open for the Trust's labour.	10	20	30

Exception (a).—The above-noted fees will not apply to a tanker pumping oil through a pipe line to an installation.

Exception (b).—The charge of Rs. 15 levied for keeping open a section of the yard between 6 a.m. and 6 p.m. on Sundays and holidays, for the landing of oil other than in bulk or of coal, has nothing to do with the charge for the use of a locomotive included in the rate referred to in clauses 12 (a) and 12 (b) of the scale. The working hours for the landing of oil other than in bulk and of coal are from 6 a.m. to 9 p.m. and all haulage done within these hours is covered by the rate laid down in clause 12 (b). For the use of a locomotive from 9 p.m. to midnight the charge will be Rs. 15 and from 9 p.m. to 6 a.m. the charge will be Rs. 22.

Exception (c).—No charge will be made for keeping a gate open for the passage of export goods to spaces or sheds leased to merchants under clause 9.

16. **REFUNDS OF OVERCHARGES.**—(a) Applications for refunds of overcharges of dues, paid on imports or on exports, will not be considered unless submitted to the Trust, in writing, by the importer or shipper or on his behalf, within three calendar months from the date of the filing of the relative harbour application in the case of imports and within one month from the date of the departure of the vessel concerned in the case of exports. No refund will be made unless the amount refundable is one rupee or more. In the case of goods which have not been shipped refunds will only be made on proof of short shipment.

(b) *Refund of dues on kerosine oil in bulk.*—Refunds of dues on account of shortage of kerosine oil in bulk will be based on the amended manifest in the case of oil from coast ports or according to the dip, as advised by the Collector of Customs, in the case of kerosine oil on which customs duty is leviable. For the purposes of the scale of rates, one hundred and seventy-five gallons of kerosine in bulk will be considered as equivalent one ton.

(c) *Refunds on goods of which the rate is "per each."*—When goods have paid dues at a rate quoted *per each* in the scale, and have then failed to be shipped, one-fourth of the dues so paid shall be retained by the Trust when making a refund, if the goods have been craned by the Trust.

17. **DUES, HOW LEVIALE.**—(a) Harbour dues, crannage, removal fees and portorage special, as well as transit dues and storage if incurred, will be levied on the gross tonnage of each package. Dues on coal, coke and kerosine oil in bulk will be levied on the manifested tonnage of the vessel's cargo.

(b) In calculating the charges leviable under the schedule of rates on any one item, all half annas or fractions of less than half an anna will be waived while all fractions exceeding half an anna will be treated as one anna. Similarly, in calculating the tonnage of any one item, a load of less than or up to 5 cwt. will be treated as 5 cwt.; a load exceeding 5 cwt. and up to half a ton will be treated as half a ton; a load exceeding half a ton and up to 15 cwt. will be reckoned as 15 cwt.; while a load exceeding 15 cwt. and up to 1 ton will be calculated as 1 ton. Fractions of measurement-tonnage will be similarly treated.

18. **SHIPS' REQUIREMENTS.**—*Bona fide* ships' fittings, ships' stores, dunnage, and provisions for the use of ships using or frequenting the port need not pay harbour dues, but will have to pay for special services, in the shape of crannage, storage, removal fees, portorage, haulage, etc., if rendered.

19. **MINIMUM CHARGE.**—If the aggregate of all charges payable to the Trust in respect of any one consignment shall amount to less than 4 annas, a charge of 4 annas will be levied for that consignment. "Consignment" means the goods covered by one import or export "application." If transit or storage dues are incurred and amount to less than 2 annas, a charge of 2 annas will be levied on the consignment concerned.

20. **HARBOUR DUES ON GOVERNMENT STORES.**—For all Government stores, excluding articles enumerated in Part II (B) of the scale, a uniform rate will be charged of Rs. 2 per ton of 20 cwt. or per ton of 40 cubic feet, inclusive of all crannage. The schedule rates will apply to articles enumerated in Part II (B) of the scale. The all-round rate does not include transit dues or storage, haulage of wagons, hire and demurrage on wagons, harbour terminal charges, removal fees or overtime fees, which, if incurred, will be levied at the usual rates. Whenever the Port Trust relinquishes the portorage of Government stores other than the exceptions above referred to, the rate of harbour dues for such stores will be Rs. 1-12-0 per ton instead of Rs. 2. When the articles enumerated in Part II (B) of the scale are portoraged by the Trust, the charge will be the actual cost to the Trust of such portorage with 4 annas per ton as a minimum. The baggage of troops embarking and disembarking will be covered by a charge of 4 annas per head on soldiers and followers. All regimental and mess stores and officers' chargers will be charged at schedule rates.

21. **PASSENGER LANDING TOLL.**—All steamers landing or embarking deck passengers or emigrants at Madras shall pay to the Port Trust a toll of 4 annas per head of this class of passengers. In return the Port Trust will either bring such steamers alongside a quay or arrange for the landing of their passengers in boats free of charge. The Master or Agent of every such vessel must submit to the Trust a copy of his passenger-list in support of the amount so paid.

22. **VESSELS IN DISTRESS.**—The following are the rules for collecting dues on cargo landed at the Port of Madras from vessels in distress:—

(a) All cargo to pay import harbour dues on landing, except such cargo as may already have paid export harbour dues at Madras and may not have been carried to its destination.

(b) All cargo to pay crannage both in and out and transit dues or storage while on the Trust's premises, at the usual rates.

(c) Cargo found sound, and re-shipped without having left the Trust's premises, to be exempt from further export harbour dues.

(d) Where marks are indistinguishable and the cargo is landed in bulk, or under such conditions that the tonnage is not readily ascertainable, the licensed carrying capacity of the barge that brings the cargo to shore shall be taken as the tonnage, a proportionate reduction being made for half loads. Where marks are indistinguishable and the cargo is landed direct on to a quay, in bulk or under such conditions that the tonnage is not readily ascertainable, the measurement shall be made by actual cubical contents at 50 cubic feet to the ton.

23. **PAYMENT OF CLAIMS.**—The following are the rules regulating the basis on which the Trust will pay claims for the loss or destruction of goods for which it has become liable under the Madras Port Trust Act:—

(a) Claims for the shortage of or damage to goods will be settled on the prime cost of the article less trade discount. The exchange value of the rupee will be considered to be one shilling and four pence.

(b) An allowance of 15 per cent of the actual value, in the case of ordinary cargo, will be granted by the Trust to cover all incidental and out-of-pocket expenses, such as freight, insurance, customs duty, landing charges, etc.

(c) In the case of wines and spirits the Trust will pay the actual customs duty recoverable and will grant, in addition, an allowance of 10 per cent to cover incidental expenses.

(d) Every claim bill should be accompanied by the relative invoice in original.

(c) In the case of exports the calculation will be based on the market value of the goods on the date of settlement.

21. **WEIGHMENT OF COAL.**—Coal passing out of the harbour by rail may be weighed, free of charge, on the Trust's automatic wagon weighbridge. Coal removed by cart for local use, may, if desired, be weighed on the Trust's cart weighbridge at a charge of 6 pies per ton.

25. **QUAY TICKETS.**—Non-passengers accompanying *bona fide* third class passengers embarking from, or wishing to meet and land—landing at, the Port of Madras, will be charged a fee of four annas per head for access to quays or landing steps. Quay tickets issued by the Trust at the passenger enclosure will entitle the holder to accompany, or meet, *bona fide* passengers to, or from, the quays, or landing steps. Quay tickets are not transferable and are only available for the day of issue.

PART I (B).—STATEMENT OF SERVICES WHICH THE TRUST MAY RENDER TO THE PUBLIC IN THE CASE OF GOODS RECEIVED AND DESPATCHED BY RAIL AND OF THE CONDITIONS AND CHARGES ATTACHING THERETO.

1. **THE TRUST'S RESPONSIBILITY FOR GOODS RECEIVED AND DESPATCHED BY RAILWAY WAGONS.**—(a) *Responsibility for inwards goods.*—The responsibility of the carrying Railway and of the Trust for the safe custody and delivery of goods arriving in the harbour premises by railway wagons will cease (i) when the railway receipt has been surrendered and railway freight has been paid in the case of goods unloaded in the general sheds, (ii) when wharfage, as laid down in clause 13 below, begins to accrue, or (iii) when the goods have been unloaded on to a rented plot or into a shed leased to a merchant, subject in the last case to such damages, shortages and deficiencies as may be noticed at the time of unloading the wagons. If the owners of inwards rail-borne goods wish to tender their goods to the Trust for custody under the Madras Port Trust Act II of 1905, as amended by Act II of 1915, after the surrender of the carrying Railway's receipt, they must comply with the conditions laid down in clause 1 (b), Part I (A) of this scale.

(b) *Responsibility for outwards goods.*—No responsibility will be accepted by the Trust for goods intended for despatch by rail out of the harbour unless and until (i) such goods have been stacked in a manner and in a position pointed out by an officer not lower in rank than a section master and (ii) a consignment note shall have been accepted for them by the Trust. Printed forms of consignment notes, which alone may be used, must be signed by the sender or senders or in his or their behalf, and must contain a declaration of the weight, description and destination of the goods. The Trust's goods clerks have instructions to demand from consignors or consignees a written description of their goods as required by the neighbouring Railways under section 58 of the Railway Act X of 1890.

(c) *Trust not responsible for goods under certain conditions.*—The Trust, acting as carriers, will not be responsible for the loss of or damage to goods, if they

- (i) are insufficiently, incorrectly, or improperly packed, marked, directed or described;
- (ii) contain articles liable to break or damage each other;
- (iii) are liable to fermentation, or to leakage arising from bad casks, bad cooperage, bad soldering or defective joints in tins or drums;
- (iv) suffer accidental or unavoidable delays in transit or otherwise;
- (v) are damaged by the act of God, fire, the King's enemies or civil commotion.

2. **RAIL-BORNE GOODS WHICH MUST BE UNLOADED AND LOADED INTO WAGONS BY OWNERS.**—The following classes of goods must be unloaded from and loaded into wagons by owners even if not quoted in the neighbouring railway tariffs as having to be unloaded or loaded by owners. But the Trust reserves to itself the right to unload or load goods which the owner has to, but fails to, unload or load within nine working hours of the wagons having been placed in position. In all cases in which the obligation of loading or unloading falls on owners of goods, the risks attending these operations must be borne by the owners whether such loading or unloading is done by them or by the Trust:—

- (i) goods consigned from and to the oil installations;
- (ii) goods unloaded into or loaded from a warehouse or on to or from a plot of land leased to a merchant;
- (iii) the excepted articles noted in Part II (B) of the scale which the Trust does not handle.

3. **OFFENSIVE GOODS.**—Offensive goods are not permitted to be consigned to Madras harbour. The following are declared to be offensive goods: (i) dried blood or blood manure; (ii) bones, horns or sinews; (iii) carcases of dead animals; (iv) corpses; (v) rags and (vi) any decayed animal or vegetable matter.

4. **NOTICE OF ARRIVAL OF GOODS.**—The Trust does not undertake to serve a notice of arrival of goods on a consignee, and the non-receipt of such notice does not entitle the consignee to exemption from wharfage or demurrage charges.

5. **RAILWAY RECEIPT TO BE GIVEN UP.**—The railway receipt must be duly endorsed by the consignee and surrendered to the Trust before goods can be delivered. When a railway receipt is lost or for some other reason is not forthcoming, the Trust reserves to itself the right to demand an indemnity bond before giving delivery of the goods concerned. The Trust will not accept railway receipts mutilated or disfigured in any way.

6. **PORT TRUST STAFF AUTHORIZED TO DEMAND PAYMENT OF FREIGHT.**—The chief goods clerk is authorised to demand and receive payment of freight for the conveyance of any article by rail and also the charges incidental thereto. The public are cautioned against paying any charges to any persons other than the clerk appointed to receive money in the goods offices.

7. **PARTIAL DELIVERY OF A CONSIGNMENT.**—A consignee cannot legally refuse to take delivery of part of a consignment because the remainder is not available for delivery or is damaged. If he does not take delivery of that part of a consignment which is available for delivery, the goods will remain in the harbour premises solely at his risk and subject to the usual wharfage or demurrage rules.

8. **TIME-LIMIT TO REFUND OF OVERCHARGES.**—No person shall be entitled to a refund of an overcharge in respect of railway freight or other charges in connection with the conveyance of goods by rail unless his claim shall have been made, in writing, to the Traffic Manager within six months from the date of the delivery of the goods for carriage by the railways.

9. **HARBOUR CHARGES ON RAILWAY TRAFFIC.**—For all goods entering or leaving the harbour in railway vehicles, with the exception of the articles noted in part II (B) of this scale, the Railways, when collecting their freight from owners, will also on behalf of the Trust collect the sum of 3 pies per maund as "harbour terminal charges." In the case of the exceptions, just referred to, as well as all military traffic booked as goods, two pies per maund will be recovered. On export produce railed in from a Railway's local godowns for direct shipment from wagons to steamer or from wagon to boat the railway will collect 2½ pies per maund for the Port Trust and half a pie per maund for their own shunting charge.

10. **HARBOUR CHARGES ON TROOP AND PASSENGER TRAINS.**—To cover the cost of haulage within the Trust's premises the Railways, when collecting their freight charges on vehicles containing passengers, troops or animals entering or leaving the harbour, will, on behalf of the Trust, collect harbour terminal charges at the rate of one pie per maund calculated on the tare of the vehicles. But the Railways and the Trust may agree to convert this into a rate per vehicle according to gauge or class.

11. **EXTRA SHUNTING.**—The harbour charges cover only the shunting of vehicles between the time they are taken over from the Railways and the time they are placed in position for loading or unloading. For all extra shunting outside these operations a charge of Rs 2-8-0 per vehicle per shunt will be made irrespective of whether the wagons are loaded or empty.

12. **DEMURRAGE ON WAGONS.**—(a) The demurrage rates are one anna per ton or part of a ton of carrying capacity per hour or part of an hour for broad gauge wagons and four pies per ton or part of a ton of carrying capacity per hour or part of an hour for metre gauge wagons.

(b) The Trust's working hours for railway traffic are from 7 hours to 17 hours (7 a.m. to 5 p.m.) except on Sundays, Christmas day and Good Friday which are "dies non," when no railway business is transacted.

(c) Demurrage is chargeable on a loaded wagon after the expiry of nine working hours from the time the wagon is placed in position for unloading, or in the event of the siding being full of wagons, from the time the wagon is placed on an adjoining siding.

(d) Demurrage is chargeable on an empty wagon, which a consignor has indentured for, after the expiry of nine working hours from the time the wagon is placed in position for loading, or in the event of the siding being full of wagons, from the time it is placed on an adjoining siding.

(e) In the case of an empty wagon, which has been ordered by a consignor, but which he does not load, demurrage is chargeable from the time the wagon is received from the railway till the time it is returned to its parent line.

(f) On all wagons, whether empty or loaded, which cannot be loaded or unloaded owing to the owner of the goods to be loaded or unloaded not being present, or to the railway freight not having been paid, or owing to any other delay on the part of the owners of the goods, demurrage is recoverable after the expiry of two working hours from the time wagons are received from the railways in case of wagons to be unloaded, or from the time the wagons are placed in position in the case of wagons to be loaded, until the owner of the goods has rectified matters. This demurrage charge is independent of any charge which may be made under clauses 12 (c), 12 (d) and 12 (e), Part I-B.

13. **WHARFAGE ON GOODS.**—Wharfage at the rate of one anna per maund or part of a maund per day or part of a day is recoverable on goods consigned to Madras harbour but not taken delivery of by the owner after the expiry of ten working hours [see clause 12 (b), Part I-B, for working hours] from the time the goods are unloaded. Wharfage is also chargeable on goods for outward despatch which are not consigned on the same date as they are tendered for despatch to the Trust.

14. **GOODS LOADED OR UNLOADED BY THE TRUST.**—With the exception of the articles noted in clauses 2 (i) and 2 (ii), Part I-B, all goods received from and despatched by wagons belonging to outside Railways will be loaded and unloaded by the Trust in return for the terminal charges laid down in clause 9, Part I-B. But when, with the Trust's permission, such loading or unloading is done by owners, they will be given a rebate of two

THE MADRAS PORT TRUST.

annas per ton on the goods so handled. The goods referred to in clause 2 (ii), Part I-B, must be handled by the owners themselves, who, however, will get the rebate mentioned above.

15. **CRANAGE CHARGES.**—If cranes are required to load or unload goods into and out of railway wagons, the charges will be those laid down in clause 11 (a), Part I-A of this Scale of Rates, in addition to such harbour and other charges as may be recoverable. The cranes provided in the timber yard for loading timber into wagons are free,

16. **GOODS SPECIFIED TO BE LOADED AND UNLOADED BY OWNERS BUT ACTUALLY LOADED OR UNLOADED BY THE TRUST.**—When any goods specified in these rules as having to be loaded or unloaded by owners (see clause 2, Part I-B, of this scale) are actually loaded or unloaded by the Trust, a charge will be made of four annas per ton for each operation subject to a minimum of 1½ p. per consignment.

17. **GOODS LOADED BY THE TRUST AND THEN STOPPED BY THE OWNER.**—When goods, after having been consigned by the owner and loaded into wagons by the Trust, are stopped by the owner and unloaded by the Trust, a charge of four annas per ton will be made for unloading the goods and for each subsequent operation.

18. **HIRE OF RAILWAY VEHICLES.**—Hire charges on vehicles, which have been hired to the public by permission of the Railways concerned, will be collected by the Trust and remitted to the owning Railways. Vehicles hired from a Railway will be hauled by the Trust, on behalf of the hirers, at the rate of Rs. 2-8-0 per vehicle for each loaded trip; but the Trust will accept no responsibility for the loss of or damage to the contents of such hired vehicles.

19. **RAILED GOODS NOT SHIPPED**—Excepting goods consigned to the Trust, all goods entering the harbour premises by rail, whether shipped or not, are liable for harbour dues. Goods railed to a warehouse in the harbour, and afterwards taken out of the harbour premises for re-conditioning, will have to pay harbour dues before they are removed; but when such goods are again brought back for shipment after having been re-conditioned no further harbour dues will be recovered, provided the owner gives a written declaration to the Trust about the identity of goods with those previously removed. Goods transhipped between wagons in the harbour premises will be treated as export cargo and will be liable for harbour dues and terminal charges.

20. **OTHER CONDITIONS**—All other conditions governing the conveyance of goods by rail will be found in the goods tariffs of the neighbouring Railway.

21. **ONLY SEA-BORNE GOODS DEALT WITH.**—The Port Trust is not prepared to, and ordinarily will not, receive, book or deliver goods tendered to it other than those entering or leaving its premises by sea.

COMMISSION FOR GOVERNMENT EXAMINATIONS.

The system of Public Service Examinations in this Presidency owes its origin to the famous despatch of the Court of Directors dated 19th July, 1854, authorizing the Government of India to establish a liberal system of education and to institute public examinations for testing the fitness of candidates for offices under Government. The scheme in question, after occupying a detailed and careful discussion, was brought into operation on the 22nd May 1857 by the introduction of the first code of rules for the Public Service Examination. This scheme having failed in its object, Mr. A. J. Arbuthnot, the then Director of Public Instruction, brought in his second scheme on 4th March 1858, cancelling the first scheme. The scheme of 1858 remained in force till 26th April 1861 when it was superseded by a third scheme drawn up by the same officer. The General Test Examination portion of Mr. Arbuthnot's scheme of 1861 was amended by Colonel Macdonald's scheme of 1860, which replaced the old General Test Examination by the Middle School Examination which continued to be in force till 1890, when, in accordance with Mr. Grigg's proposal of 4th July 1887, Government in their order No. 351, of 20th June 1889, instituted the Lower and Upper Secondary Examinations in place of the said Middle School Examination. The Upper Secondary Examination of Mr. Grigg's scheme was in force till December 1910, when it was replaced by the School Final Scheme of Dr. Sir A. G. Bourne, sanctioned by Government in their order No. 427 Educational, dated 21st July 1909. As for the Government Technical Examinations, they were first instituted in 1886, known as the Government Examinations in Science, Art, Industries and Commerce. The same owes its origin to recommendations of the Royal Commission on technical instruction, and the first examination was held in August 1886 during the Directorship of Mr. Grigg. In 1891 Dr. Duncan had the title of the examination changed into Government Technical Examinations and the three grades of the Examination were designated as Elementary, Intermediate and Advanced.

Under G. O. No. 57, Educational, of 2nd February 1894, the examinations which for several years included under the general name of the Unconvenanted Civil Service Examinations are now known as Government examinations under the control of the Commissioner for Government Examinations.

The Hon'ble Mr. J. H. Stone, M.A., F.R.S., C.I.E., Director of Public Instruction and Commissioner for Government Examinations.

COLLEGES AND SCHOOLS.

THE PRESIDENCY COLLEGE, CHEPAUK, MADRAS.

(AFFILIATED NOVEMBER 1877.)

This Institution was first established in 1841 under the name of "The High School of the Madras University." "The Madras University" was intended to consist of two Departments, a College and a High School, and was at first under the control of a governing body, designated the President and Governors of the Madras University. The first President was Mr. George Norton, then Advocate-General of Madras, and the Governors, fourteen in number, consisted of European and Indian gentlemen in equal proportions. The High School progressed rapidly, and in 1858 collegiate classes were opened. In 1855, when the control of the Institution was transferred to the newly-appointed Director of Public Instruction, the College was duly constituted under a Principal and Professors and received its present name. From 1841 to 1870, the work of the College was carried on in a rented building in Egmore, but in March of the latter year, the new buildings at Chepauk were formally opened by H. B. H. the Duke of Edinburgh and the students were transferred to it in the month of July following. This College is affiliated in all the groups of the Intermediate course and in branches I, II-A, II-B, III-A, III-B, III-C, III-P, IV and V of the B. A. Pass course; and also in branches I, II-A, II-B, III-A, III-C, III-B, IV, V, VII and VIII of the Honours course.

MADRAS CHRISTIAN COLLEGE

(*Affiliated, November 1877*)

This Institution was founded in 1837 by the Rev. John Anderson, the first Missionary of the Church of Scotland in Madras, and it was for a number of years the only one in Southern India where natives of the country could obtain a liberal education. It was originally styled the "General Assembly's Institution," but as it remained in dependence on that section of the Church of Scotland, which in 1843 dissolved its connection with the State, it was from that time known as the "Free Church of Scotland Mission Institution." The College department was opened in 1865; in 1876, its basis was widened; other Christian bodies combined with the Free Church of Scotland in contributing to its support, and are represented on its Council, so that it has become the centre of Christian liberal education in Southern India.

UNITED FREE CHURCH OF SCOTLAND MISSION.

This Mission is united with other Missionary bodies in carrying on the Christian College, Madras. In addition to the interest it has in the College, it conducts an extensive work in Madras City, and in the Ponneri, Conjeevaram, Saidapet, Trivallore and Chingleput Taluks of the Chingleput District. In these taluks there are four Mission Districts, viz., Madras and Ponneri, Conjeevaram, Sriperumbudur and Chingleput.

In the Madras and Ponneri District there are 15 Schools for boys and girls with about 2,260 pupils, including the large Royapuram Girls' Boarding School with its Training Classes.

Medical Mission work has been carried on in the City since 1857 when Dr. Paterson opened a dispensary in Georgetown, and afterwards one in Royapuram. The medical work is now maintained by the U. F. C. Women's Foreign Mission in the Christina Bains Hospital for Women and Children in Tondiarpet. This new building was opened by Their Excellencies, Lord and Lady Pentland, in January 1914. It has 50 beds for medical, surgical and midwifery cases. It is staffed by women, three doctors and a Nursing Superintendent, with 19 Indian Nurses. The Hospital provides a Training School for young Christian women who wish to be trained as nurses. In connection with the Hospital there are three dispensaries in different parts of the city, each of which is open two days a week. There is also an extensive private practice, the fees from which provide for a great part of the upkeep of the Hospital. A dispensary for men is carried on in Georgetown under a qualified Indian medical man.

In the Conjeevaram District there are 18 Schools for boys and girls, including a High School, and two incomplete Secondary Schools, with about 1,700 pupils. There has also been considerable medical work carried on in the City for twelve years. In January 1907 the Hospital was completed and opened by Sir Alexander Simpson, M.D., of Edinburgh. Since then several additions have been made to it, the cost of the whole being about Rs. 45,000. Provision has been made for 30 beds. In 1914-15 458 patients were treated in Hospital, and 585 in their homes, while about 9,000 out-patients were also treated. Midwifery, Gynaecology and diseases of the eye receive special attention.

In the Sriperumbudur District there are 17 Schools for boys and girls with about 570 pupils, while in the Chingleput District there are 24 Schools for boys and girls with nearly 1,400 pupils. These include a Boarding School for boys and another for girls, and also a High School. In connection with the Girls' Boarding School, a lace-making school was started by Mrs. Andrew in 1902 to teach the village girls an industrial pursuit, and has proved a marked success. There are also three farm settlements founded about twenty years ago for the benefit of the poor Christians by the Rev. A. Andrew. One of them is called Melrosapuram, where an agricultural Boarding School has been established. Here an interesting experiment was begun several years ago, on behalf of Government, to ascertain if an oil engine would be of use in the irrigation of crops from wells. It proved to be very successful, and now many hundreds of oil engines have been installed for well-irrigation throughout the Presidency as the result of the experiment. Lately the Government presented the oil engine to the Mission as a token of its appreciation of the effort thus put forth.

There are thus in connection with the U. F. C. Mission 79 Schools, with over nearly 7,000 boys and girls under instruction, with a fee income of over Rs. 42,000.

Zenana and Bible-women's work, Evangelistic and Congregational work are also carried on. The Christian community numbers about 4,500 in the whole field.

No. 5, Armenian Street.

ESTABLISHED 1839.

This Institution was founded in the year 1839 by the Right Rev. Joseph Carew, D.D., for the purpose of affording to the Catholic youth of Madras the facilities of a liberal education. For nearly 41 years it was known as St. Mary's Seminary and had the Very Rev. Dr. William Kelly (of Mlynouth) for its first Principal. In 1862 the school began to prepare candidates for the Matriculation Examination of the University of Madras, and in February 1883 was affiliated to the University as a Second Grade College. In April 1909, the Government of Madras issued a Code of Regulations for European Schools. This necessitated the separation of the European from the Indian students of the Institution. The F. A. classes were closed on the 1st April 1917, and it was decided that the Secondary School for Indian pupils should thenceforth be called *St. Gabriel's High School*.

The course of secular studies is adapted to the requirements of the scheme for the award of Secondary School-Leaving Certificates approved by the Government of Madras in G. O. No. 427, dated 21st July 1909. A Library is maintained for the benefit of the pupils, while a well-equipped Gymnasium affords healthy exercise to the boys. To facilitate the teaching of Geography and Science in accordance with modern methods, a set of up-to-date School-Room Maps has been supplied, and the necessary Physical and Chemical Apparatus has been furnished. Provision has moreover been made for the Practical work of pupils in the Laboratory. The Reference Library for Teachers has also been considerably enlarged and improved. A Provident Fund was started three years ago for the benefit of the teachers.

The Institution is supported by the Madras Catholic Mission, by fees collected, and by a Grant-in-aid from Government, and is under the management of Fathers belonging to the Society of St. Joseph, Mill Hill, London. GOVERNMENT HOBART TRAINING SCHOOL.

(For Muhammadan School Mistresses.)

No. 3, WHITE'S ROAD, ROYAPETTAH, MADRAS.

This Institution has been in existence for upwards of 30 years. Its income was originally derived from the following sources:—(1) An endowment of Rs. 10,000 bestowed by Lady Mary Hobart; (2) profits from the sale of work. These being found inadequate to defray the increasing expenditure, the Government in 1889 took over the entire responsibility of its maintenance. In 1890 it was placed under the supervision of the Superintendent of the Presidency Training School for Mistresses, which fact affords sufficient proof of the utility of the School. It provides education up to the VIIth Standard, in their own vernacular, for all classes of Muhammadan female children. It has several classes, including a normal class, which yearly sends out duly qualified teachers. The teaching of English was begun in 1902 to the pupils of the 3rd class and upwards. A large and commodious building has been purchased by Government for the accommodation of the School. Prizes and Scholarships are awarded by the Madras Government. There are 15 Teachers on the Staff. *Superintendent*—Miss G. I. Peters, B.A., I.T. *Head Mistress*—Model School Mrs. Muzahidin. *Drawing Mistress*—Miss Gladys Mitchell. The school may be inspected by ladies during the school hours, 10–4, Fridays and Sundays excepted. The school has been under the direct control of the Inspectress of Girls' Schools, Central Circle, since May 1905.

(1) English was abolished in January 1908, as it did not serve the purpose for which it was intended, *viz.*, of attracting the better class of Muhammadans, but it has been re-introduced from July 1911.

(2) New subjects have been introduced into the school according to the revised English curriculum, (1) Nature study, *i.e.*, Elementary Science, Botany and Zoology; (2) Gardening. A course of 2 years' training was recently sanctioned for all Elementary grade students, according to which students now receive a training of 2 years, during which time they are taught as well as trained.

Industrial subjects—White embroidery, silk and gold thread embroidery and braid work were again started in June 1909, and two additional teachers for this work were appointed from the same date for two years, as a temporary measure. These Industrial classes have now been made a permanent section of the School from 1st January 1913, and the classes advanced sufficiently to take in orders for any kind of work. The Model School has been raised to the status of a Secondary one since August 1917.

Statement of the Objects and an Appeal on behalf of the Civil Orphan Asylums.

The MADRAS CIVIL ORPHAN ASYLUMS were founded one hundred and eight years ago for the gratuitous education, board and lodging of the orphans of Europeans and their descendants, who are not eligible for admission into the Military Asylums in the Presidency. They have thus stood the test of time, and continue to retain public confidence.

The necessity, character and scope of the work done in these Institutions are well known to the general public in Madras, and the help received is practically confined to the residents in this city. But all orphans throughout the Presidency are eligible for admission. This fact, it may be assumed, is generally known throughout the Mofussil, from the applications which are made from various stations for the admission of orphans; but the Directors regret that the claim resulting from this fact, upon persons residing in the Mofussil, for some contribution towards the support of these Institutions, does not appear to be so generally recognized.

These Institutions are managed by a Directorate, who are elected by the subscribers.

The Bishop of the Diocese is the President, the Archdeacon and Garrison Chaplain are the Vice-Presidents, the Principal and Secretary is a Clergyman of the Church of England and the rest of the Clergy of the Church of England are *ex-officio* Patrons of these institutions. Though the religious instruction imparted here is in accordance with the teaching of the Church of England, destitute orphans of all denominations are admitted.

Contributions may be remitted to the Principal and Secretary, Civil Orphan Asylums, Poonamallee Road, Kilpauk, Madras.

GORDON ORPHAN REFUGE.

SAN THOME, MADRAS.

President—H. E. Lady Pentland, *Honorary Secretary*.—Mrs. Firth. *Treasurers*.—Bank of Madras. The design of this Institution is to afford a Refuge for such destitute orphan girls of European descent, as are not eligible for either the Military or the Civil Female Orphan Asylums. As such, it is one, the Committee plead, well deserving of public support. For the information of new subscribers, it may be mentioned that "The Refuge" was commenced in 1860, by Mrs. W. A. Morehead, by whose exertions sufficient money was raised to purchase the premises at St. Thomé, where "The Refuge" is now located. Subsequently, the Trustees of the property of the late Mrs. Gordon of the Mount endowed it to the amount of about Rupees 479-8-0 per annum, on condition that it assumed its present title. From April 1st, 1873, the Institution has received a Grant-in-aid from Government of Rupees 100 per mensem, provided the subscriptions reach that amount. As many old subscribers have left Madras, and as it is most desirable to secure the Government Grant, and, if possible, to enlarge the operations of this Institution, the Committee think it right to put forth this statement, in the hope that new subscribers will kindly come forward. The Committee invite those who may be disposed to aid this Institution to visit it between the hours of 5 and 7 p.m., and to judge by personal inspection whether it be worthy of support. *Hon. Secy*.—Mrs. A. Firth.

"INDUSTRIAL HOME" FOR GIRLS.

SAN THOME, MADRAS.

The girls in the "Industrial School" receive an elementary education in reading, writing, and arithmetic, are taught domestic duties, and all kinds of useful needlework, so that after leaving it they may be able, as neat good workers, to maintain themselves in comparative comfort. It is trusted that this project may meet with the approbation of the public, and that they will kindly give the Institution that practical and pecuniary support of which it stands so much in need. All subscribers are invited to visit it between the hours of 5 and 7 p.m., and to judge its usefulness by personal inspection whether it be worthy of support. *Hon. Secy*.—Mrs. A. Firth.

"HOME" FOR DESTITUTE INFANT CHILDREN.

SAN THOME, MADRAS.

The following brief account of the Infants' Home will show its present position and requirements:—The Home was started in January 1882, under the auspices of the late Lord Bishop of Madras, in the old premises of the Girls' Industrial School. All interested in this charity are invited to visit it between the hours of 5 and 7 p.m. and to judge for themselves if it is worthy of their support; it is hoped that this statement will be sufficient to ensure the enlarged and liberal support needed to carry it on. *Hony. Secy.*—Mrs. A. Firth.

ST. MARK'S SCHOOL.

NORTH GEORGETOWN, MADRAS.

Educational work was commenced in this district in September 5th, 1860, by the late Archdeacon C. R. Drury, M.A., and was carried on for forty-nine years in a building known as The Drury Poor School. In 1910 this school building was in such a bad state of repair and altogether the school in such a bad way financially, that it was decided to amalgamate it with the day school section of St. Mark's Orphanage, both institutions being connected with St. Mark's Church, and buildings quite close together. In 1915, owing to financial difficulties, St. Mark's Orphanage had to be closed. From 1874, when the Orphanage was opened as an Orphanage and Industrial School, to the year 1915 when it was closed, a most useful work was accomplished in maintaining and educating a large number of destitute European and Eurasian Orphan boys sent from the diocese of Madras. The present school, St. Mark's, is the successor to the Drury Poor School and St. Mark's Orphanage and is held in the Orphanage building. The school provides such an education for the poor European and Eurasian children of this poverty stricken district as will enable them to earn their livelihood. From the beginning of this year a small scale of fees is charged according to the income of parents. A free mid-day meal of curry and rice is given to the poorest of the children as these poor boys and girls would otherwise have to go unfed for the day. Clothing is also given as far as funds permit. Religious instruction is given daily. Donations and subscriptions gratefully received by the Chaplain. *Head Mistress.*—Miss Henegan.

RAJAGOPAL CASTE GIRLS' SCHOOLS.

The following schools of the United Free Church Mission—Chetty Girls' School, established 1870; Rayapuram Hindu Girls' School, 1877; and Mint Girls' School, 1880—were founded by the late Rev. P. Rajagopal for the purpose of giving an elementary education on Christian principles to Hindu girls. About 740 children are on the rolls and the staff consists of 30 female teachers. The annual cost of the schools exceeds Rs. 8,900 which is met from the proceeds of the founder's endowment, Government grant, fees, and subscriptions from friends in Scotland. The Chetty School is conducted in its own building in Thumbu Chetty Street, the Mint Girls' School in its own premises in Kondalier Street, and the Rayapuram School in a rented building in Maunarswamy Covel Street, Rayapuram. These schools are under the management of the United Free Church Mission, Madras. These are included in the General State ment of the United Free Church of Scotland Mission.

MUTHIALPET HINDU GIRLS' SCHOOL.

130, THUMBU CHETTY STREET, MADRAS, E.

This institution was originally founded by H. H. the late Maharaja of Vijianagaram. After the demise of His Highness in 1896, the management of the School changed hands. This is a purely Hindu institution and a recognised one. Girls are taught up to 5th Standard. The staff is qualified departmentally. The Committee invite those who may be disposed to aid the institution to visit the same and judge by personal inspection whether it be worthy of support.

PACHAIYAPPA'S COLLEGE, MADRAS.

(AFFILIATED JANUARY 1889.)

This College and High School is a purely native Institution maintained out of the fruits of native benevolence, managed by a body of Hindu Trustees, and dedicated solely to the education of the Hindu community, particularly of Madras. Pachaiyappa Mudaliyar, in whose name the Institution was founded, was a wealthy, benevolent, Hindu gentleman, who, dying a hundred years ago, when education was almost unknown in Madras, endowed various religious institutions and private charities with no less than a lakh of Pagodas. The provisions of the will, however, were in great part neglected by the Executors, so that the Supreme Court at Madras intervened and assumed control of the Estate. In course of time, these funds amounted to nearly 7½ lakhs of rupees, and after assigning the original lakh of pagodas to the specific religious Charities mentioned in the will, the surplus funds were ordered, under a decree of the Supreme Court, to be devoted to educational establishments in various parts of the Presidency and particularly in Madras itself.

A school was therefore established in Georgetown in January 1842 under the name of Pachaiyappa's Central Institution, controlled by a governing body of Hindu gentlemen, being householders in Madras, called the President and Trustees of Pachaiyappa's Charities. On the 20th March 1850, the school was removed to the present building specially erected for the purpose, the ceremony of the opening of Pachaiyappa's Hall taking place the same day amidst a crowded meeting of European and Native gentry with a former Governor, the Right Hon'ble Sir Henry Pottinger, in the Chair.

Origin and Object.—It is hardly necessary to say that the School is serving a very useful purpose. It was started in 1908 and has till now been giving free education to girls with the help of local subscriptions, but the management is very much handicapped by want of funds. This school is the only school of an indigenous character in this part of the city and its maintenance is felt to be a real necessity. The Committee fully trust that the enlightened citizens of the locality and near about will come forward to assist the school by payment of monthly subscriptions so as to enable the Executive Committee of the Patasala to work the School on a satisfactory basis.

STUDENTS' HOSTELS, MADRAS CITY. THE PACHAIYAPPA'S COLLEGE HOSTEL.

DARE'S GARDENS, CHETPUT.

Early in August last year, the College Hostel was transferred from Doveton House to Dare's Gardens and with the change of place there has also been a change of management. The Hostel is now under the direct management of the Trustees, who have appointed a Special Committee for its administration, consisting of four of the Trustees, the Principal and the Warden. Mrs. Besant has presented nearly all the furniture that there is in the Hostel (shelves, cots, and chairs). Mr. C. P. Ramasamy Iyer still continues his aid to it and particularly to the Reading Room. About 80 students live in the Hostel, 40 in a bungalow, Dare's Gardens, the kind gift of Government, and 40 in the neat and beautifully designed outhouses completed through the energetic labour of Mr. Maslamoni Pillai, the Hostel Engineer and the contractors. Beautiful avenues and roads are being laid out. The Students have, through the special grace of the Traffic Manager and the District Traffic Superintendent, a special station within a few yards of the Hostel, where two trains in the morning and two in the evening stop to pick up and set down students of the Hostel. The Hostel is excellently equipped for Athletics, situated as it is in close proximity to the magnificent playground provided for the College by Government. There will be provision for football, cricket, tennis, badminton and hockey and a swimming-bath in the new grounds. There is at present provision for practice football, tennis and badminton. The Athletic Department is managed by a General Secretary elected from among the students. The immediate supervision of the Hostel is entrusted to an Assistant Professor of the College, P. Subramania Aiyah, B.A., L.R. He is assisted in the administration of it by the representative committee of students. The main Hostel building is rapidly progressing and will be available for use in about a year or thereabouts.

CIRCULAR MEMORANDUM.

Certain cases of failure to deliver regularly for registration, books, periodicals, Magazines and other serial publications *within a month* from the date of their issue from the press, as required by Section 9 of Act X of 1890, having been recently noticed, the Registrar of Books finds it necessary once more to call the attention of all Proprietors of Printing-presses to the provisions of the law relating to the neglect to deliver for registration, within the prescribed time, every book, pamphlet or periodical printed by them, and also relating to any evasion of the law to supply such books, periodicals, &c., as are claimed by the Librarian of the British Museum or of the India Office Library, London, or by both, *within a month* from the date of requisition from this office. Through such neglect or evasion, a printer renders himself *liable to prosecution before a Magistrate* under Section 16 of the Act noted above.

2. The absence of the publisher or the author, &c., and the consequent difficulty in getting copies to be delivered for registration, or for supplying the books claimed on behalf of the public Libraries named above, are often urged as an excuse for delays, but they cannot and will not be accepted as a sufficient excuse either at this Office or in a Court of Law.

3. It is the duty of every printer before delivering an edition of any work to the publisher or author to secure as many copies as are necessary to meet the requirements of the Registration Act, XXV of 1867, and Act X of 1890, and thereby be in a position to remove all cause of complaint from this Office or from higher authorities.

WILLS: TESTATORS AND EXECUTORS.

REASONS FOR MAKING A WILL.—Every man having a wife and family should make his will. However small his estate, however remote may seem the probability of death, however confident that his property will pass to those he most wishes to benefit, it is an imperative duty in most cases, and is safer in every case, to protect the interest of the survivors by means of a will, and by the appointment of one or more trustworthy persons to carry his wishes into effect. When persons die intestate, having foolishly put off making a will until it is too late, their negligence may deprive those for whom they were most anxious of the very benefits which had demanded a life-long struggle to provide. Thus a widow may find, to her grievous disappointment that the estate, a life policy perhaps, or a few hundreds in shares, is not all hers, but has to be shared with a distant cousin of her husband's, whose name perhaps she had never before heard. Or it may be the eldest son of an intestate ousting all his brothers and sisters from possession of the real estate, or an improvident or unbusiness like nearest relative may claim to administer the estate. Instances might be multiplied in which negligence, or unreasoning dislike to making a will, becomes an irreparable crime against those who have the first claim to protection. The help of a lawyer in making a will is not in every case essential, but it is always advisable, particularly where there is a desire on a testator's part to provide for his property being "settled" as it is called—*e.g.*, the income being paid to his widow for her life, or until re-marriage, and on her death or re-marriage, the capital being divided among his children equally. The tying-up or postponing the enjoyment of income or capital requires the skill of a practised lawyer. Assuming that a lawyer is not employed, a person having resolved to make a will must not regard it as a light matter, to be got rid of in a few minutes, like writing a letter, but one demanding the most serious attention. It is only after a person is dead, and cannot explain his meaning, that his will can be open to dispute. It is the more necessary, therefore, to express what is meant in language of the utmost clearness, avoiding the use of any word or expression that seems to admit of another meaning than the one intended. The lawyers have a maxim that the unforeseen (*i.e.*, the event not provided for) always happens. It is better to be prolix than to leave the smallest room for doubt or uncertainty, although the same name or word be repeated over and over again. Sounding phrases are entirely out of place. Avoid the use of "legal terms," such as "heirs" and "issue" when the same thing may be expressed in plain language. If in writing the will, a mistake be made, it is better to re-write the whole. Before a will is executed, that is, *signed by the testator in presence of two witnesses*, an alteration may be made by striking through the words with a pen, but opposite to such alteration the testator and witnesses should write their names or place their initials. Never scratch out a word with a knife or other instrument, and no alteration of any kind whatever must be made after the will is executed. If the testator afterwards wishes to change the disposition of his estate, it is better to make a new will revoking the old one, or to add a codicil to the first, which must be duly executed and attested in the same manner as the original will. *A will should be written in ink and very legibly on a single sheet of paper.* Although, of course, forms of wills must vary to suit different cases, the following directions may be found useful to those who, in cases of emergency, are called upon to draw up wills, either for themselves or others:—

TESTATOR OR TESTATRIX.—The person who makes the will is the testator, or if the will-maker be a woman, the testatrix.

ESTATE.—By this word is to be understood property of all kinds, both real and personal. Real property includes tithes and advowsons, as well as freehold lands and houses; while personal property includes debts due, arrears of rents, money, leasehold property, house furniture, goods, assurance policies, stock in public companies and the like.

RESIDUARY LEGATEES.—It is well in all cases to leave to some person or persons "the residue of my estate and effects," although it may be thought that the whole of the property has been disposed of in legacies already mentioned in the will. It should be remembered that a will operates on property acquired after it has been made.

TO BEGIN A WILL.—A form in which a will may be commenced is:—"This is the last will of me, Thomas Smith, of Vine Cottage, Murray's Road, Vepery, Madras."

TO END A WILL.—After disposing of the property, the will may be ended as follows:—"And I revoke all former wills and codicils. Dated this tenth day of December 1903."

EXECUTION OF A WILL.—The testator should sign his name at the foot or end of the will, in presence of two witnesses, who will immediately sign their names in his and in each other's presence. A person who has been left a legacy or share of residue in the will, or whose wife or husband has been left a legacy, should not be an attesting witness. Their attestation would be good, but they would forfeit the legacy. It is better that a person named as executor should not be a witness. Husband and wife may both be witnesses, provided neither is a legatee. If a solicitor be appointed executor, it is lawful to direct that his ordinary fees and charges shall be paid; but in this case he (as an interested party) must not be a witness to the will.

ATTESTING EXECUTION.—Opposite to or beneath the testator's signature should be written the attestation clause. The following form of attestation will be found sufficient:—

THOMAS SMITH
[Signature of Testator.]

Signed by the testator [or testatrix, as the case may be], in the presence of us, both present at the same time who in his [or her] presence and in the presence of each other have hereto set our names as witnesses.

William Jones, Clerk, of Palm Cottage, Egmore, Madras.
Henry Morgan, Accountant, of Parklands, Nungumbaukam High Road, Madras.

It is desirable that the witnesses should be fully described, as they may possibly be wanted at some future time. If the testator should be too ill to sign, even by a mark, another person may sign the testator's name to the will for him, in his presence and by his direction, and in this case it should be shown that the testator knew the contents of the document. The attestation clause should therefore be worded: "Signed by Thomas Brown, by the direction and in the presence of the testator, Thomas Smith, in the joint presence of us, who thereupon signed our names in his presence and in the presence of each other, the will having been first read over to the testator, who appeared fully to understand the same." If the testator be blind, the will should be read aloud to him in the presence of the witnesses, and the fact mentioned in the attestation clause. If by inadvertence, the testator should have signed his will without the witnesses being present, then the attestation should be:—"The testator acknowledged his signature already made as his signature to his last will and testament, in the joint presence," &c. Any omission in the observance of these details causes delay and expense, and sometimes great difficulty is experienced in procuring an affidavit by one of the attesting witnesses before the will can be admitted to Probate.

CODICIL.—When any change is required to be made in the disposition of property as stated in the will, the change should be embodied in a codicil. A codicil should begin:—"This is a codicil to the will of me, Thomas Smith, of Murray's Road, Vepery, Madras, he said will bearing date," &c. A codicil must be dated at the end and signed, and witnessed with exactly the same formalities as the will.

EXECUTORS.—It is usual to appoint two executors, although one is sufficient. The name and address of each executor should be given in full, as follows:—"I appoint John Jones, Bookseller, of 499, Mount Road, Madras, and Edward Matthews, Engineer, of Arundale House, St. Thome, Madras, executors of this my will." An executor may be a legatee under the will. Thus a child or wife to whom the whole or a portion of the estate is left may be appointed sole executor, or one of two executors. The addresses of the executors are not necessary, if it is well known, who are the persons intended; but it is desirable, then as elsewhere, to avoid ambiguity or vagueness.

APPOINTMENT OF TRUSTEES.—The form of appointment of executors will also serve when the estate is left in care of trustees, except that the persons should be designated "executors and trustees."

TRUSTS OF THE WILL.—When the estate is wholly for the children, the will may read after the appointment of the executors and trustees:—"I give and devise all my estate and effects, real and personal, of which I may die possessed or entitled to, unto the said John Jones and Edward Matthews, upon trust in equal shares for all or any of my children or child living at my death who being sons or a son attain the age of 21 years or being daughters or a daughter attain that age or marry. And for all or any of the children or child living at my death, who being male, attain the age of 21 years, or being female, attain that age, or marry, of any child of mine who dies in my lifetime leaving children or a child living at my death, such last mentioned children or child to take the share or shares which their parent would have taken if living at my death, and so that no grand-child of mine shall take whose parent is living and capable of taking." Where the widow is to have a life-interest; use the following words: "upon trust for my wife during her life [or during her widowhood] and after her death [or second marriage, which first happens] upon trust in equal shares for all, or any of my children or child," &c., as before. The words in square brackets will only be used where the widow loses her interest if she marries again.

WHO CANNOT MAKE A WILL.—A minor cannot make a will. A woman married before the 1st of January, 1883, can make a will with her husband's consent, but without such consent she can only (under the Married Women's Property Act) bequeath property accruing to her after that date except in certain circumstances, respecting which it is advisable to consult a solicitor. But a woman married after that date, can dispose by will of all property belonging to her at the time of her marriage, and of all property acquired thereafter, in all respects, as if she were an unmarried woman.

REVOCATION.—A will is revoked by a subsequent will (but only so far as such subsequent will operates as a virtual revocation, as by making other provisions inconsistent with the previous will; for this reason a will should always have a clause revoking previous testa-

mentary disposition), or by burning, tearing, or otherwise destroying the same. It is not sufficient to obliterate the will with a pen. Marriage in every case, acts as the revocation of a will: so that after marriage, the old will should be re-acknowledged, or a new one made.

LAPSED LEGACIES.—If a legatee die in the lifetime of the testator, the legacy or share of residue lapses and falls into the residue, excepting only in cases where the legatee is a child or "other issue" of the testator and leaves issue living at the testator's death, and the will does not provide for the class of children or issue being ascertained at some period other than the death of the testator. For instance, if a share of residue is left to "all my children living at my wife's death," the share of a child who died in the wife's lifetime would lapse, even though the child should leave issue.

TO ONE PERSON ABSOLUTELY.—When it is the intention to leave all the property to one person, as for instance, a wife or child, the will may read:—"I devise and bequeath all my estate and effects, real and personal, which I may die possessed of, or entitled to, unto my wife Mary Smith, absolutely."

TO CHILDREN UNDER AGE.—When estates are left wholly or in part to children under the age of 21 years, trustees should be appointed to hold the property in trust for those to whom it will ultimately belong. The trustees will have power to apply the annual income for their maintenance. A wife may be appointed a trustee, or may be sole trustee. It is also usual to appoint the executors, or some near relative, guardians of children under age. By the Guardianship of Infants Act, 1896, the mother of a child, if she survives, the father becomes the guardian of such child, either alone, if no guardian is appointed, or jointly with any guardian appointed by the father.

ALL PROPERTY TO BE INVESTED.—Executors and trustees may be empowered to sell and dispose of an estate, and after the payment of all just debts and expenses to invest the remainder. For this purpose, the section headed "Trust Investments" should be consulted.

The stringency of the law as to the due execution of wills is only relaxed in favour of sailors and soldiers while on service. The law of wills is mostly contained in the Wills Act, 1 Vict. c. 27.

ADMINISTRATORS.—If an executor has not been appointed in the will, or if the executor be dead, or does not wish to act, the residuary legatee nearest of kin to the deceased, or a legatee under the will, is entitled to act and administer the will, and is called administrator.

CHURCHES AND CHAPELS IN MADRAS.

With their respective Office-Bearers and Times of Service.

CHURCH OF ENGLAND.

THE CATHEDRAL CHURCH OF ST. GEORGE.

TEYNAMPET (1816).

The Church is situated on the Mount Road about three miles from Fort St. George; the locality was called "Choultry Plain" in former years. It was in course of construction in 1814-15 and was opened and consecrated by Bishop Middleton on the 8th January 1816: it is built in the classic style, deHavilland, of the Corps of Engineers, built the edifice on the plans of Col. Caldwell, R. E. The Nave is entered from the West, North and South through lofty porches supported on massive Ionic pillars, carrying entablature and pediment common to Roman architecture. The Western or main entrance contains an ample carriage porch from which the Church is entered through a vestibule with a vaulted roof, the upper portion of which is the tower containing a clock and peal of bells and terminating in a spire 139 feet above ground. On either side of the vestibule are the vestries for the Lord Bishop, Clergy and Choristers.

The Nave is 100 feet long and 27 feet 3 inches wide (centre to centre of columns), flanked by Ionic columns 30 inches in diameter, and 25 feet 6 inches high from floor to top of capitals. The Aisles are 100 feet long and 13 feet 4 inches wide (from side walls to centre of columns). The Chancel is 22 feet 6 inches long and 20 feet wide. The Chancel was extended in 1857, and finished with a semi-circular apse with windows fitted with stained glass; subsequently the heads of doors and ventilators, which had ordinary glass, were replaced with stained glass, and the Organ Gallery at the West end of the Nave removed. At a later period, with the renewal of the sittings, the Chancel was painted and decorated and paved with encaustic tiles. In 1891 the Chancel was further embellished with a handsome dado of glazed encaustic tiles, and the ventilation was improved. Height of roof of Chancel—32 feet.

The Nave is covered with a tiled roof and the Aisles with flat terraced roofing on teak-wood supports. The Nave is ceiled in a segmental form with teak planking, painted white, with papier-mâché enrichments. The Aisles are also ceiled with teak planking. Height of ceiling above floor in the Nave is 33 feet and 2 inches, and height of ceiling above floor in the Aisles 30 feet and 1 inch. The interior walls and columns are plastered and finely polished with shell-lime, a work for which Madras is noted. The exterior is also plastered with shell-lime. The details of corner moulding, &c., are those usually seen in Roman architecture.

The Edifice as originally erected by Lieutenant-Colonel Caldwell cost Rs. 2,06,842.

The Organ is a fine instrument of three manuals by Hill & Sons of London, which has recently (November 1905) been considerably enlarged and improved. The musical Services are generally recognised as of a high order.

The Tower contains a fine peal of eight bells, which are rung by one man by means of a chiming machine.

Bishop Middleton writes in his diary with reference to the opening services:—"Yesterday (8th January 1816) I consecrated a handsomer Church than any which I can recollect in London, supported on 18 Ionic columns, which no English eye could distinguish from marble, with a lofty and elegant spire, and standing in a field also to be consecrated of 5 or 6 acres surrounded with rows of palm trees—the whole conveys a magnificent idea of Christianity in the East. I was assisted on this occasion by seven of my clergy, a great number to bring together in this country." We should hardly nowadays endorse Bishop Middleton's Eulogy of the Cathedral fabric; but without doubt the building is a fine one and full of dignity.

The 'field' to which the Bishop refers was only consecrated in part, namely, that part which is now known as St. George's Cathedral Cemetery.

The Church contains some fine monuments, amongst which should be especially noticed that to *Dr. James Anderson* (died August 6th, 1809)—a wonderfully lifelike and natural seated figure of the physician-general; and that to *Bishop Heber* (drowned at Trichinopoly, April 8th, 1826), which represents his Lordship in the act of confirmation. These two sculptures are by Chantry. There is also a fine marble statue by Flaxman to *James Stephen Lushington*, B.C.S. (died 12th September 1882, aged 25) and a figure of *John*

holding a cross in memory of the Venerable *John Mousley, D.D.*, first Archdeacon of Madras (died 31st August 1819), also by Flaxman. To the memory of *Dr. Daniel Corrie*, the first Bishop of Madras (died 5th February 1887) is a remarkably fine statue of heroic size, by Weekes. He is represented imparting religious instruction to a Brahmin boy. *Bishop Dealtry* (died 5th March 1861) is commemorated by a piece of wall sculpture, administering Holy Orders. A curious and finely erected monument is in memory of *John Mack*, Assistant Surgeon (died 20th May 1832). It exhibits a figure of Hygieia, goddess of health, offering milk to a serpent, which drinks from the cup she holds. Among other remarkable monuments should be noticed those to *John Dent, M.C.S.* (died 17th January 1845) by Weekes; to *William Parry* (died 14th August 1824), by W. Baily, R.A.; to *Captain Andrew French* and others (1824-5), a bas-relief of a battlefield by Sievier; to *Neville Somerville Cameron, M.C.S.* (died 12th December 1833); to *Major George Broadfoot* (died 21st December 1845), a fine sculpture by Richardson, and to *Sir Robert Henry Dick, K.C.B., K.C.H.* (died 10th February 1846). A short account of the more important memoirs and monuments in the Cathedral and adjoining Cemetery has recently been published by the Rev. B. M. Morton and may be obtained from the Cathedral Clerk.

Electric lights and fans were installed in 1911.

ST. MARY'S CHURCH.

FORT ST. GEORGE.

OPENED 28TH OCTOBER 1680.

The ancient Church of St. Mary's, situated within the ramparts of Fort St. George, is not only a conspicuous landmark to all who approach the Presidency town by sea, but is also a witness to the piety and devotion of the early settlers on the Coromandel coast in the seventeenth century. Madras itself dates from the 1st March 1639-40.

A small fort was erected on the site of the present Secretariat Offices, and a town gradually sprung up around it. For about 40 years Divine Service was regularly held in one of the rooms of this inner Fort, but in 1677 Mr Streynsham Master, on his arrival as Agent and Governor, set about collecting funds for the erection of a more suitable place of worship. Subscriptions were raised from all the English inhabitants, and it does not appear that any assistance was asked for or given by the Directors of the English Company. St. Mary's was the result of local effort entirely. The first sod was turned on Lady Day, March 25th, 1678, and the Church was completed and was dedicated to the Blessed Virgin Mary and opened for worship on the 28th October 1680. It was consecrated by the Chaplain, Richard Portman, acting under a Commission from the Bishop of London.

The church stands to-day exactly as it was erected, with the exception of the vestry, organ chamber, and sanctuary, which were added in the nineteenth century, and the spire, which was rebuilt at the end of the eighteenth century. The chief objects of interest in this old church are as follow:—

The old Tombstones. These are situated round the north side of the church, and form a kind of pavement. These stones were taken in 1760 from the old graveyard, which

was on the site now occupied by the Law College. During the second siege of Madras by the French in 1758-9, the large monuments of the old graveyard afforded shelter to the French sharpshooters. When the siege was raised, the old burial ground was dismantled, and the gravestones brought to St. Mary's and placed round the church. There are among them also some which were taken from the old Capuchin Church of St. Andrew, which was destroyed in 1749 when Madras was handed back by the French after the Peace of Aix-la-Chapelle. These old stones are of great interest. The most ancient of them is that of *Elizabeth Baker*, the wife of *Aaron Baker*, the first Governor of Madras, and is dated August 5th, 1652. Most of the stones are in an extremely good state of preservation, in spite of their exposed situation.

Inside the church are to be seen many interesting objects. Below the Chancel steps are the graves of the Governors. The tomb marked simply with a cross and the words "In Memoriam" marks the last resting place of the ill-fated *Lord Pigot*. After having risen from the lowest to the highest station in Madras, this unfortunate nobleman was sent out again to stem the tide of corruption among the higher civilians. He was worsted in the encounter, and after having been arrested by the members of his Council, was kept as a prisoner at the Mount until he died on the 11th May 1777. The other Governors who lie buried here are *Lord Hobart*, April 1875, *Sir Henry George Ward*, August 1760, and *Sir Thomas Munro*, July 1827.

The monuments on the walls are worth noticing, especially those to *Sir Barry Close*, *Joseph Monhouse*, *George Gilbert Keble*, *Josiah Webb*, and the famous missionary *Frederick Christian Swartz*. There are two fine statues. One near the organ is that of *Thomas H. S. Conway*, "the soldiers' friend"; the other, near the Font, of *Hercules Henry Pepper*—both of them distinguished soldiers.

Of the old regimental colours which adorn the walls and pillars, the pair behind the pulpit are of the greatest interest. They belonged to the old 102nd Madras Fusiliers (now the Dublin Fusiliers), and were carried by that famous regiment through the second Burmese War in 1852-3, and the Indian Mutiny, 1857-8.

Over the altar is a large painting of the Last Supper. This picture is supposed to have been taken from a church in Pondicherry when it was captured by the British in 1761. The painting is by an unknown artist, but expert opinion dates it as of the sixteenth century, and possibly by a pupil of Raphael. At any rate, it is a valuable historic work. In September 1910 the picture was restored by H. B. Millar. The carved teakwood railing of the west gallery was noticed by Lockyer in 1701. It is of oriental design and beautiful workmanship. The organ is by Hill of London, and was erected by the Rev. C. H. Malden in 1894.

The church possesses some very fine old silver plate and ancient records and registers. These are not kept at the church, but can be seen by appointment with the Garrison Chaplain. For a detailed account of the church and its history to the end of the eighteenth century, the reader is referred to the Rev. F. Penny's book "The Church in Madras."

CHURCH OF SCOTLAND.

ST. ANDREW'S CHURCH

POONAMALLEE ROAD (1821).

On 1st September 1815 a public notification was widely circulated in Madras, which supplied the Scotsmen of this historic city with a fertile and novel topic of discussion. It told how the East India Company had resolved to build a Scots Church in the Presidency town, for the benefit of its Scottish employees, and to establish there a Chaplaincy of the Church of Scotland; how the General Assembly of the Church of Scotland of the previous year had gratefully welcomed this resolution; how the Rev. Dr. Allan, the first Chaplain of the Church, had now arrived in Madras, armed with authority from the Assembly to proceed with the formation of the first Scots congregation in South India; and, finally, it called upon all who intended to attach themselves to the Scots Church to send in their names to Dr. Allan and four co-signatories, in order that definite information might be furnished to the Government as to the accommodation required for the new congregation.

The names and employments of these four devoted Churchmen—the earliest members of the Kirk Session—are interesting as showing the part which influential Scots in those days took in the advancement of their Church, as also as partly accounting for the generous treatment meted out to the Scots congregation by the Madras Government when the Church came to be built. With two Members of Council as builders, and, as it happened, a Scotman, the Right Hon'ble Hugh Elliot, as Governor of the Presidency, advocacy of the Scottish claims would not be wanting. In the Church records the names are as follow:—Robert Fullerton, C.S., Member of Council; David Hill, C.S., Secretary to Government; Kerby Dalrymple, Merchant; William M'Taggart, Merchant.

To the notice thus issued a cordial response was made. Scotsmen rallied to their Church, and without further delay Divine Service, according to the rites of the Church of Scotland, began to be held. At first, in the absence of a Church, the congregation met in the College Hall, which was temporarily fitted up by Government to suit the emergency, but the question of building a Scots Church was diligently pushed forward. The size and influential nature of the congregation, which rapidly formed under Dr. Allan's ministry, gave weight to the petition which it soon sent up to Government, that the Scots community might be furnished with a church of its own. To the petition Government gave a ready assent, and requested the Kirk Session to select a suitable site and prepare plans of a suitable building for the further consideration of the Government.

The present site—the most central spot in all Madras—was secured and the work of building began. Fortunately there was then in the service of the Government one of the ablest architects India has seen—Major Thomas Flett de Havilland of the Engineers—and to him the work was entrusted. How well he did his work may be judged by the unstinted admiration which St. Andrew's Church evokes from all who see it. "Perhaps the noblest Christian edifice in Hindustan" is what Bishop Middleton's biographer said of it,—himself no lover of the Scottish Church—and the praise is not undeserved. The foundation stone was laid by the Rev. Dr. Allan on the 16th April 1818, and it was his privilege to solemnly dedicate the Church to the service of ALMIGHTY GOD on the 20th February 1821.

The cost of this splendid edifice was about £20,000, which must be deemed exceedingly moderate for a building of this description.

The edifice may be thus described. The body of the Church is a circle 81 feet and 6 inches in diameter in the clear, with a rectangular compartment east and west of it, and a portico extending beyond the latter to westward. Over the circular part is a dome, covering as it were the nave of the Church, with an annular arch round it, over what may be termed the aisles. The architrave and frieze which stand on 16 columns are of stone, but the cornice above is of brick, and on it rests the dome; of these columns four are of granite, the remainder are of what is termed in Madras "iron stone."

The dome is constructed with but a framework of brick, running upwards from the columns towards the crown, where these ribs are terminated and united together by a circular arch of the same description. This framework is then filled in with masonry formed of cones of pottery such as are used in Syrian roofs. The thickness of the dome at the crown is only nine inches, whence it is gradually increased to nearly twice that dimension at the cornice. Over the Syrian cones before mentioned, three courses of flat tiles are carefully laid and on them the stucco is applied. The dome of the Kirk is believed to be "unique," in that a dome of masonry fifty-one and a-half feet in diameter is supported on a colonnade thirty-five feet high, without beam or lintel, its height at highest point of dome being 54 feet above the pavement of the Church.

To the westward of the compartment containing the steeple stands the portico of the modern "Ionic" order upon a colonnade double its depth, surmounted by a pediment along the whole front in the tympanum, on which the sacred name *ΙΗΣΟΥΑΝ* appears in Hebrew characters of gold on a triangle emanating rays of glory, while in the frieze below stands the name of the edifice and the date of its erection. Corresponding at the back of the building is also a triangle with two lions guarding a shield under which is inscribed.—"Auspicio Regis et Senatus Anglie," the arms and motto of the H. E. I. Co.

The steeple stands on the tower, which is raised over the vestibule to a level with the crown of the dome, rises 111½ feet above it, and is divided into three storeys giving the whole an elevation of 131½ feet above the entablatures, and 166½ feet above the pavement of the Kirk. The steeple was completed on 8th May 1820.

The site on which the church stands was purchased for 4,000 pagodas and covers nearly 7 acres. The soil was most unfavourable, as it is throughout the vicinity of Madras. The practice which has obtained from time immemorial in this part of India to secure edifices in such cases is that of substituting wells for the pile work used in Europe. The whole of the foundation of St. Andrew's Church is erected over numerous wells from 10 to 14 feet deep. In 1885 the Church was beautified by the addition of rich stained glass windows and a marble font. The Church possesses a splendid grand organ by Conacher of Huddersfield, England. Some of the best views of Madras may be obtained from the Clock Tower, sanction to ascend which is readily granted by the Senior Chaplain.

For stateliness and general lightness of effect St. Andrew's is probably unsurpassed by any building of the same size, while the marble pavement of the aisles and the highly polished Madras chunam pillars give to the Church an air of purity and grateful coolness that is much appreciated by the worshippers. It is a church to be proud of and thankful for.

This undenominational Christian Church of India was founded in Madras by the late Dr. S. Puhneyandy, M.P., F.R.S., and a few Indian Christian leaders. Branches were subsequently formed at Nagercoil, Tuticorin, Ramapalem, Kolar Gold Fields. At the last place the church has grown vigorously; it numbers over 700 souls. The Rev. Dr. J. Lazarus, a retired Missionary, has been elected President. He has a Council of eight members. Other office-bearers are Rev. Job Paul, Secretary, Rev. J. I. Kanniah, Superintending Pastor, and Rev. D. David (Assistant Pastor) at Marikuppam. Efforts are being made to organise similar churches in Madras, Bangalore and elsewhere. No aid of any kind is received from Foreign Missions. The members have built their own Church and school. CATHOLIC CHURCHES.

THE CHURCH OF ST. MARY OF ANGELS.

Commonly called the Catholic Cathedral, No 2, Armenian Street, Madras.

THE Capuchin Mission of Madras was founded in 1642, under the sanction of Pope Urban VIII., by the well-known Father Ephraim, the pioneer of the Madras Mission, of whom Tavernier gives an interesting account. He was a native of Auxerre, and brother of Monsieur de Chateau des Bois, Councillor of Paris. He was destined for the Mission of Pegu, and in order to reach his destination he made a journey by land across the peninsula from Surat to Masulipatam. Before the English settlement at Masulipatam was broken up, he might have got a ship here to take him across the Bay of Bengal; but then there was none, and he was recommended to go 200 miles further south to the British settlement lately established at Madras. Pope Urban VIII. erected the Capuchin Mission into a Prefecture Apostolic. When the Friars built their Armenian Street Church in 1775, they inscribed the date 1642 over the gates as a public record of their first establishment in Madras, and, on a later occasion, when the Church was repaired and the gates widened, the number was preserved at the particular request of the oldest inhabitants. The earliest Capuchins, the founders of the Madras Mission, were Ephraim de Nevers, Zenon de Bange, Cosme de Giers, Jacques de Bourges, Esprit de Tours, Laurent d'Angoulême, Michael Ange de Bourges, René d'Angoulême and Thomas de Poitiers. The last named built in 1675, the Church of St. Andrew within the Fort, which was confiscated and destroyed after Lally's siege. The Capuchin Fathers were permitted to minister to the spiritual wants of the Catholic employees of the Honourable the East India Company, and had free access to the Factory. Albeit, they were burdened with many conditions and forbidden to hold intercourse with their religious confrères in the neighbouring settlement. It is interesting to read the current of events in those far-off times. Though the English residing at Fort St. George and the Portuguese at St.

Thomé seem to have lived in those days on rather friendly terms, there was an undercurrent of discontent on both sides, and the Portuguese could not relish the establishment of a Prefecture Apostolic at Madras. Father Ephraim, however, contrived to maintain a friendly intercourse with the Portuguese Priests. In the year 1649, he had occasion to visit the Portuguese Factory; but he no sooner entered the place than he was seized by some Officers of the Goa Inquisition, and carried off to Goa in a small frigate which was then ready to sail. Father Ephraim was indebted to Coota Khan, the King of Golconda, for his release. Through many vicissitudes the Capuchin Fathers persevered in the work begun by them, and handed it down faithfully to their successors, till Father John Bede Polding, a Benedictine, was nominated the first Vicar Apostolic of Madras on the 3rd of July 1832, but he declined the appointment, and eventually became Archbishop of Sydney. The Mission was then taken charge of by the Vicar Apostolic of Bombay, Fré Pedro D'Alcantara, Bishop of Antiphellus, till 1835, when in August of that year the Rt. Rev. Dr. Daniel O'Connor assumed the government of the Mission. Succeeding Vicars Apostolic were Doctor Patrick Carew, 1838-1842 (when he was transferred to Calcutta); Doctor John Fennelly, 1842-1868; Doctor Stephen Fennelly, 1868-1890; The Most Rev. Doctor Joseph Colgan 1890-1911, in whose time the Vicariate Apostolic was raised to an Archdiocese on the establishment of the Indian Hierarchy in 1886. It was during the administration of John Fennelly that the status of the Catholic community was raised, and the claims of both military and civil Catholic British subjects were adequately recognised by Government. The influence exerted by Dr. Fennelly and by his Clergy upon the European residents, and especially upon the Irish Catholic soldiers, at Madras and other military stations, may be regarded as the most important fruit of his Episcopate.

John Fennelly was brave and outspoken, and of the Daniel O'Connor type. His intrepid advocacy of the cause of his flock obtained for the Catholic community of Madras the recognition of Government. Promotion from the ranks of Catholics in the Indian Army may well be said to have been inaugurated by the strenuous exertions of this good Bishop. He was prominent in the meeting of sympathy with Sir Chas. Trevelyan, the Governor on his recall. In fact, John Fennelly was the founder of the then Madras Mission, which has now risen to be an Archdiocese. He was indefatigable in building the foundations, and spared himself in nothing. He was thoroughly unselfish, broadly tolerant of the religion of others, and ever ready to take up the cause of the poor at whatever cost. Despite all the work that fell to his share in those days of pioneer trouble and anxiety, he daily devoted two hours to teaching in the schools. He was a great and prolific writer and an unsparing controversialist. His memory is enshrined in the hearts of the generation of Madras Catholics who are rapidly passing away, while his bones lie interred in the precincts of the Sanctuary of that Cathedral Church which was the arena of his life's labours. John Fennelly was succeeded by Stephen Fennelly, his brother, under whose régime the finances of the Mission were greatly improved by his tact and business habits. Doctor Joseph Colgan was nominated in private consistory, May 1892, Bishop of Aureliopolis and Vicar Apostolic of Madras, and consecrated on the 24th August of the same year in the Catholic Cathedral. Promoted to the Archiepiscopal dignity by the Decree of 25th November 1896, he was proclaimed at Bangalore on the 25th January 1897, and nominated by Pope Leo XIII. Assistant at the Pontifical Throne, on the occasion of His Grace's Golden Jubilee, 4th February 1894. His Grace Dr. J. Colgan was called to his reward 11th February 1911, and was succeeded by the Most Rev. John Aalen, D.D., Co-adjutor Bishop and a Member of St. Joseph's Society, Mill-Hill (London). Doctor Aalen was nominated Bishop of Termisonia and Co-adjutor to His Grace the Archbishop of Madras on 2nd December 1901, consecrated at Rosendaal (Holland), 2nd February 1902. Appointed Co-adjutor *cum jure successionis* to His Grace the Archbishop, 31st July 1902.

The Cathedral Church has two transepts, with a sanctuary, sacristy, nave and side aisles, built by the Italian Capuchins in 1775, and then consisted of a nave with two side aisles, and a sanctuary under a pent roof. The pent roof was removed by Dr. O'Connor in 1837, and a flat roof put on, the walls of the nave having been raised ten feet. The sanctuary was at the same time thrown down and enlarged, and two transepts added. His Grace Archbishop Colgan raised the roof of the side Altars to the height of the roof of the Chancel, which is now fitted up with stained glass windows. The picture of the Crucifixion and Mary Magdalene, more than life size, is said to be one of the finest oil paintings in India.

In the Moorat Chapel, attached to the Cathedral, there is an artistic monument of Italian marble. Mr. Moorat was the wealthiest Armenian of his day. He left charitable benefactions known as the "Moorat Fund." His monument bears the date 16th April 1816. His wife, Anna Raphael, died 28th July 1828, aged 57. The earliest gravestone is dated 11th November 1751, and records the sepulture of Muthu Nayakar, son of Babu Nayakar of the Kavarai caste. The date, 22nd February 1786, is inscribed over the resting place of "Adrian Fourbeck, a merchant of this city of Madraspatnam, aged 71 years." Adrian Fourbeck built a small bridge over the Adyar, 1763, as is recorded in English, Tamil, Persian and Latin, on a monument half way to the Mount outside the Collector of Chingleput's residence at Lushington's Garden. But this is not the Marmaloe Bridge which dates from 1725, and was erected by Petrus Uskau, another Armenian Catholic.

BISHOPRIC OF SAN THOME (MYLAPORE).

HISTORICAL NOTES.

ACCORDING to South Indian traditions, supported by the collateral testimony of the East and West (see Dr. Medleycott's *India and the Apostle St Thomas*: London, David Nutt, 1905), the Apostle St. Thomas, after preaching in various parts of India, settled down in old Mylapore (as distinguished from the Mylapore of the present day), was martyred on the hill at St. Thomas' Mount and was buried on the spot on which the San Thomé Cathedral now stands in A.D. 68. The Christian Church of India, founded by St. Thomas, continued to flourish till the persecutions that followed in the wake of the revival of Brahmanism, when the Christian Bishops and priests were put to death and the remnants of their flocks took refuge in the mountains of Malabar. Shortly after, old Mylapore was overwhelmed by the sea (which has a habit of encroaching and receding at this point annually), and the Mylapore of the present time came into being. The fugitive Christians however kept their faith alive by furtive visits to the Grave of the Apostle in the now deserted old Mylapore, till Nestorian Missionaries and Bishops from Persia, gathered them once again into communities, and built a church and monastery at old Mylapore, and another church and chapel at St. Thomas' Mount, which were visited by Marco Polo and other early travellers. But by the beginning of the XVIIth century, these buildings had fallen into ruin, till scarcely a trace of them was left when a Portuguese Royal Commission came in quest of the Grave of St. Thomas, which it discovered and identified in 1523, and built a chapel over it to mark the spot.

Presently the Portuguese town of San Thomé sprang up on the site of old Mylapore and was subsequently fortified and made a Bishopric in 1606, by Pope Paul V., at the request of Philip II., King of Portugal, when, later on, the Dutch took San Thomé and handed it over to the Muhammadans, the Muhammadan Governors and their followers settled in the place that separated the European town of San Thomé from the Brahmin town of (new) Mylapore.

When the Bishopric of San Thomé was created, the King of Portugal undertook to support it for all time: a promise which his successors have kept, notwithstanding all the vicissitudes, through which their fortunes have passed, up to the present, enjoying in return the privilege of presenting to the Pope their nominees for the Bishopric. The Bishops of San Thomé originally exercised jurisdiction over all the countries bordering the Bay of Bengal, including Burma. But this jurisdiction was delimited by the *Concordat* of 1886, entered into between the Holy See and the Government of Portugal.

The present Cathedral at San Thomé was built and completed in 1896 by Dr. Henry Reed DaSilva, who was the first to assume the title of "Bishop of Mylapore." for

ordinary use, in order to avoid confusing San Thomé in Madras with San Thomé a Principe (off the West Coast of Africa), an important actual possession of Portugal. But in official documents the Bishops are still described as of San Thomé de Meliapor.

On the occasion of the Tricentenary of the creation of the Bishopric (1906), Dr. Theotonius de Castro, the present Bishop, had the fane of the Grave of St. Thomas enlarged and faced with marble, to enable pilgrims to have access to the bottom of the Grave and to enable Masses to be celebrated immediately over the Grave, according to the practice of the early Christians.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian community by Government in the year 1862.

Previous to the erection of the Church, the Armenian community performed Divine Service in a temporary place built of timber (on the north of Monument Esplanade, opposite Fort St. George), in the year 1712, the Priests being paid by the Funds of the Church. The present Church was built by the Armenian community at their own expense in the year 1772, and alterations and additions made to it by them from time to time. In the year 1888, the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repairs of the Church, out of which funds, the community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of the Church. Government was further pleased to grant a donation of Rupees two thousand (2,000), from Dr. Woolley's Estate to the Church in the year 1889.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extracts from H. E. I. Co. Court's Despatch, 12th April 1842.

In Section 27 of the regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others visits twice, three or four times a year might be expedient, and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to stations in which they do not reside.

Parties desirous of being married by License should apply direct to the nearest Surrogate; but from places where there is no Surrogate, application should be made to the Registrar, who will obtain the Bishop's directions according to the special circumstances of each case as it may arise. None but a Clergyman of the Church of England can marry by virtue of Episcopal license.

Further information respecting marriages by license can be obtained on application to the Registrar of the Diocese, F. Rowlandson, B.A., LL.B., Ootacamund.

Rules for the guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

I. Every application for the Bishop's license to be married without the publication of banns must be made in writing and the names of both the applicants be given in full with the age, race, condition (i.e., bachelor, spinster, widower, or widow, and occupation, if any), of each, and the place or places in which each has resided for the six months prior to the application.

II. No license can be claimed by any person as a matter of right or of course, and no license is to be issued by any Surrogate until four days after the receipt of such application. And in no case, and under no circumstances, is any license to be issued for the marriage of any divorced person, and that notwithstanding that such person may have been divorced without any fault on his or her part; or, in other words, whether his or her former marriage has been dissolved by the civil law on the ground of his or her adultery or otherwise. Moreover, no license is to be issued in order to make marriage less public to persons who have been living in sin.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the Surrogate, he may decline to grant the license, until he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons to whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointed by the Surrogate, and shall be not earlier than the 5th day (that is, the ninety-seventh hour), after such receipt, the parties, or one of them, shall in every case appear before the Surrogate, and either one or both swear to the "Affidavit of Residence," to which the written application for the license shall be annexed by way of an exhibit, being marked as such and endorsed as follows by the Surrogate:—

In the matter of the marriage of A. B. and C. D.

This is the exhibit referred

A

to in the affidavit of A. B. sworn
to herein on the day of before me,
E. F.,
Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank and places of residence, and dates at full length.

VI. In no case is a license to issue unless the parties are sworn before the Surrogates and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the party to be married is a minor, consent of the father, if living, must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorised to give such consent be resident in India.

VIII. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case, the consent of the Governor of Madras need not be obtained.

IX. If the parties to be married are both of full age (twenty one years) and both of them are to be sworn, the Surrogate will use No. 1 form : but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

X. If one of the parties only is of full age (namely, twenty-one years) and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 form.

XI. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends or guardians swear on their behalf, No. 4 is to be used.

XII. In case the lady to be married is a widow and under the age of twenty-one years, oath No. 1 is to be used, the Surrogate first running his pen through the words "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIII. The Surrogate having filled up, and the party having read and signed the affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "you (A. B.) do swear that the contents of this your affidavit are true. So help you God."

XIV. The party answers "I do," and kisses the book, repeating, "So help me God."

XV. The same form is to be observed to each person sworn.

XVI. The Surrogate will then fill up the license, date and sign it, adding his title as Surrogate, and hand the license to the parties.

XVII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license until the result of that reference is known and forwarding any affidavit sworn.

XVIII. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner or whenever required.

XIX. A fee of Government Rupees fifty is to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

XX. In every case in which the Surrogate does not himself perform the marriage for which he issues a license, he shall send the license direct to the Clergyman who is to perform the ceremony.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in (or, if there be none, then a Surrogate in the next District to that in) which the parties usually have resided to grant them a license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is commended to all his Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order.)

(Signed) F. ROWLANDSON, LL.B.,

Registrar of the Diocese and Archdeaconry of Madras.

MADRAS DIOCESAN ASSOCIATION, INDIAN BRANCH.

PROVISIONAL RULES.

I. The Association shall be called the Madras Diocesan Association, Indian Branch.

II. The object of the Association shall be to help and further the cause of Missionary work in any part of the Diocese whenever or wherever there is, in the opinion of the Executive Committee in Council with the President of the Association, any urgent need for such help.

III. The Association shall consist of Indian Christians of the Diocese enrolled as members on payment of an annual subscription of not less than eight annas.

IV. There shall be a General Committee consisting of—

- (1) A President who shall be the President of the Madras Diocesan Association.
- (2) A Vice-President, a Treasurer and a Secretary duly elected annually by the General Committee from amongst themselves and members consisting of the Pastor and a layman from each Pastorate in the Diocese, the laymen being also elected annually by the Pastorate Committee.

If vacancies occur among the office-bearers, members might be co-opted till the next elections take place.

V. The business of the Association shall be managed by an Executive Committee consisting of such of the members of the General Committee as are resident in Madras and of an equal number of mofussil members nominated by the President.

VI. The office-bearers of the Association shall be *ex-officio* members of the Executive Committee.

VII. The quorum for a meeting of the Executive Committee shall be six.

VIII. Subscriptions shall be remitted either direct to the Treasurer of the General Committee or paid to the Pastor of each parish.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY-TRUSTEES IN THE DIOCESE OF MADRAS.

G. O. Ecccl., Nos. 72, 3rd May 1901; 107, 20th June 1901, 100-101, 6th September 1904, and 113, 9th October 1904, and 111, 4th October 1911.

I. Two lay-trustees shall be appointed by the Governor in Council on the recommendation of the Bishop to each chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. (1) Both lay-trustees shall be communicants of the Church of England resident at the station.

(2) The senior lay-trustee shall ordinarily be in Civil or Joint Civil and Military stations, a gazetted officer of Government, and in military stations one of the officers of the garrison.

(3) The second lay-trustee may be any communicant resident at the station.

III. All lay-trustees shall vacate office on Wednesday in Easter week, but shall be eligible for reappointment.

IV. When the office of either trustee is vacant, the chaplain shall report the circumstance to the Bishop, for the information of Government, and shall, at the same time, nominate a duly qualified person to fill the vacancy.

V. The chaplain shall be in charge of the church, church yard, cemetery and church property, but the lay trustees are, jointly with him, empowered to keep, and are held responsible for keeping the church and premises in good repair, providing for the preservation and safe custody of all property belonging to the church, and disbursing the Government grants and the Church funds. The church accounts shall ordinarily be kept by the chaplain, but where there is no resident chaplain, they may be kept by one of the lay trustees if he is prepared to undertake the duty. The chaplain and the lay-trustees shall supervise and arrange the assignment of servants. In case of any serious disagreement between the chaplain and the lay-trustees on these matters, the point in dispute shall be referred to the Bishop. The chaplain and the lay-trustees shall also jointly decide questions regarding the appointment, punishment or removal of the church or cemetery servants, provided that no church or cemetery servant eligible for pension or gratuity shall be removed without the prior consent of the Archdeacon.

VI. The lay-trustees shall not interfere with the administration of divine service, or with the ritual and ornaments of the church. Their function in these matters is to report to the Bishop if they consider that anything contrary to law or order has been done, or that there has been any neglect of duty on the part of the chaplain. When there is no Government chaplain or other licensed clergyman in charge of the station, the senior lay-trustee or, in his absence, the junior lay-trustee shall take charge of the registers and other books connected with the chaplaincy. In the absence of the chaplain or other licensed clergyman duly appointed to officiate, lay-trustees are authorised by the Bishop to take such services and read sermons at such times and on such days as the chaplain may appoint and to conduct funerals.

*Explanation.**—Lay-trustees are authorized in the absence of the chaplain to prepare returns under the Indian Christian Marriage Act, 1872, and copies or extracts from baptismal, marriage, burial or other Church registers. But such returns, copies or extracts should invariably be forwarded to the chaplain for signature and transmission.

VII. The lay-trustees shall, when practicable, meet once a month, or oftener, if necessary. It shall be the duty of the chaplain, or, in his absence, of the senior lay-trustee, to call a meeting. The chaplain, or in his absence, one of the lay-trustees in order of

* Inserted in 1904 ~~legal~~ advice. (G. O., Nos. 6, Ecclesiastical, dated 15th January 1904, and 100, Ecclesiastical, dated 6th September 1904.)

seniority, shall preside. The *agenda* shall ordinarily be prepared by the President and circulated to the lay-trustees before the meeting, but it shall be competent for either of the lay-trustees to bring forward any question connected with the matters over which they have control. At such meetings, the account books shall, at least once a quarter, be presented together with the cash balances and all necessary vouchers, and shall be audited either by the chaplain and the lay-trustees at the meeting or by such other person as the meeting may appoint. A certificate of audit shall then be prepared for submission to the Archdeacon on the next quarter day. It shall be the duty of the chaplain and lay-trustees, even though the accounts be audited by another person, at every meeting at which the accounts are produced to see (1) that the Chaplaincy Funds are kept separate and distinct from private funds; (2) that the balances are in existence, and to prove this by examining the cash balance, and in the case of balances deposited with the Savings Bank, or a Bank, that the balances of the pass-books written up to date agree with those of the Church accounts; and (3) that no advances have been made except upon proper authority, and that none are allowed to remain outstanding longer than is really desirable.

VIII. All communications shall be signed by the Chaplain and countersigned by the lay-trustees, and all proceedings shall be entered in a correspondence book and produced for examination at the next meeting.

IX. On the appointment of a lay-trustee, the Archdeacon shall send him a copy of these rules.

PARENT SOCIETY FOUNDED 1693.

MADRAS DIOCESAN COMMITTEE ESTABLISHED 1815.

The Madras Diocesan Committee was formed with the following objects:—

1. To circulate, at low rates, the Bible, the Book of Common Prayer, Religious Books and Tracts, and Works of Pure Literature.
2. To supply Mission and other Charitable Schools with maps and apparatus at cost prices.
3. To publish translations of the Prayer Book and Religious and Educational Works and Tracts into the vernaculars of South India.
4. To aid in forming Libraries for Barracks, Hospitals, Schools and Missions.
5. To assist in Church Building, and generally to assist the work of the Church in India in every possible way.

In pursuit of the above objects, the Society has, during over 200 years, and in this country for ninety-five years, originated or supported a variety of agencies of the greatest importance to the progress of Christianity.

It assists largely, in addition, in the spread of religious education in the diocese.

No less than one hundred native girls are entirely maintained and educated by the Society in schools under the direct supervision of missionaries, and ten students who are being prepared to take part in mission work are maintained at Theological Colleges.

Subscriptions, Donations, Church Collections and Legacies are earnestly sought, that the Society may be able to increase its activity in proportion to the growing wants of the Church.

CHURCH OF SCOTLAND WOMEN'S ASSOCIATION FOR FOREIGN MISSIONS.

ORME'S ROAD, KILPAUK, MADRAS.

The Association supports eight schools in Madras. The schools at Triplicane, George-town, Tannah Street, Egmore, and Pusewalkum are Hindu Caste Girls' Schools. In 1910 an Elementary school was opened in Pulanthope village.

The school at Kilpauk is a Boarding and High School for Indian Christian girls; many non-Christian day scholars attend. An Industrial School for teaching lace-making and embroidery adjoins the High School.

The Association supports a staff of Zenana teachers and Bible-women, who visit the homes regularly, teaching the Bible, English, Tamil and Telugu reading and plain and fancy needlework.

One of the most interesting departments of the Association's work is the village work carried on in some of the villages near Kilpauck. Evangelists and Bible-women visit from house to house teaching the Scriptures to such people as they can gather, their work being superintended by one of the ladies in charge of Zenana work.

As the teaching of Christianity is the chief object of the Association's work, the Bible is taught in all the schools and in every Zenana visited.

CANADIAN BAPTIST TELUGU MISSION.

This Mission worked for many years under two Boards which represented the Baptists of Middle and Eastern Canada. The former was called the "Foreign Mission Board of the Baptist Convention of Ontario and Quebec, Canada," and was established in 1874 by the late Rev. John McLaurin, D.D., with the first station at Cocanada. He took over 87 converts and continued the work which had for several years been prosecuted by the Rev. Thomas Gabriel. There were then but one ordained minister, Rev. Thomas Gabriel, who died shortly afterwards, two unordained preachers, and three school teachers. The Baptists of Eastern Canada worked under the "Foreign Mission Board of the Baptist Convention of the Maritime Provinces of Canada." Work was begun under this Board in 1875, and the Rev. R. Sanford, D.D., now of Visianagram, occupied Binlipatnam as the first station. These two Boards continued to work as separate Missions throughout the years until 1912, when there was organized the Canadian Baptist Foreign Mission Board embracing the fields of operations of both the former Missions.

Throughout the 43 years of the history of the Mission 51 men with their wives and 58 single ladies have been sent out from Canada. Of these six men, eight married women, and seven single women have died, including the founder of the Mission. Others have been obliged to retire from the Mission from other causes such as ill health. The present staff includes 26 men, 25 married women, and 36 single women.

There are 103 unordained preachers and evangelists, 20 colporteurs, 94 Bible-women, 385 male and 123 female teachers, and 20 medical assistants, or a total staff of 495. Churches number 72; two English, membership 10,756; 884 baptised in 1916. Indian Christians contributed Rs. 8,704; 259 S.S. average attendance of 7,016; 280 day schools; average attendance 8,153; 10 Boarding Schools; 404 boys, 285 girls, a total of 689.

The Mission has two High Schools, one in Cocanada, and one in Vizagapatam, a Theological Seminary, and a Training School.

There are seven Medical Missionaries, two men, one married woman, and four single women. The staff also includes five trained nurses. The Mission is carrying on medical work in seven stations, the largest work being at Pithapuram. The Mission directs a Home for lepers at Ramachandrapuram which is supported by the Mission to Lepers in India and the East. 108 inmates were cared for in 1911. A Home for lepers has been opened at Vizianagaram. There are 24 inmates.

The work amongst the English and Eurasians includes a Day and Boarding School for boys and girls in Cocanada. This is known as the Timpany Memorial School. Boys up to 15 years of age are admitted as day pupils.

The "Ravi" newspaper, a Telugu weekly, is published at Cocanada and has a circulation of 1,500. There is also an Industrial School at Cocanada.

MADRAS TAMIL MISSION.

The Madras Tamil Mission is an Indian Christian effort to bring "that which is lost" to the feet of our Lord Jesus Christ. It was established in 1884, and among its friends and supporters it has many well-known Christians in India and Europe.

The Orphan Home of this Mission, which contains about 90 inmates, is now quartered in a habitation of its own (with 6½ acres of land) in Tondiarpet, 4½ miles to the north of Madras. Some of the senior orphan boys are employed in the Government Press, Madras, and some are teachers who have been trained.

The Mission has six ragged school centres in and around the city, with about 400 pupils. The Mission distributes tracts among the heathen and carries on gospel work among lepers as well as in the villages roundabout the Orphan Home.

The Mission at present employs 28 Indian Christian workers and one European Lady Missionary "Miss Bajquist" who is on furlough in her Homeland Norway.

Contributions may also be sent direct either in crossed cheques or foreign money order to Gnanamuttlu Joseph Israel, or G. Samuel Israel, The Orphan Home, New Washermenpet, Cross Road, Madras N. E., India.

ST. PATRICK'S CIVIL AND MILITARY ORPHANAGE AND BOARDING INSTITUTION.

Elphinstone Park, Adyar, Madras.

This Institution for the education of European and Eurasian boys is the oldest of its kind in Southern India. It was first established as an Orphanage in Fort St. George, early in 17th Century, when the Catholic Missionaries who came to India and stationed themselves in Madras, in conjunction with the First members of the East Indian Company took upon themselves the care and education of the children of British subjects who came to India and died in the service of the Company leaving their children to the care of these first Missionaries.

Early in the 18th Century the Institution was transferred to the Cathedral compound of the Church of St. Mary in Armenian Street, where it was enlarged and reorganized by the late Rt. Rev. Dr. Carew in the year 1840. From this time the Institution has been doing excellent work, as the history of it recently published and circulated free by the Brothers of St. Patrick, illustrates. In 1885, the Institution was removed to its present site, in Elphinstone Park owing to the crowded locality in which it was formerly located.

The Institution is under the management of the Brothers of St. Patrick, a body of Irish Monks who have had charge of this Institution since 1875.

Besides the Orphanage which is sheltering and educating a large number of destitute children and making them fit members of society, the Institution has also a boarding establishment attached to it where children are educated in accordance with the European code of Regulations. Charges for Boarding and Maintenance are as follows: 1st Class, Rs. 25; 2nd Class, Rs. 15; 3rd Class, Rs. 10; Orphan Boarders, Rs. 8; Doctor, Medicine, Dhoby and Stationery and use of class books, Rs. 2.8 per month extra. The course of studies includes all subjects embraced up to and including the European Middle School Examination, besides Typewriting, Shorthand, Book-keeping, Drawing and Hindustani.

THE SYRIANS IN MALABAR.

A SHORT SKETCH OF THEIR HISTORY.

Both history and tradition testify that St. Thomas the Apostle came to India and made a good many conversions, especially from among the Nampoothiri Brahmin families on the Malabar Coast, where he founded seven churches at Koungallur (Crauganore), Parur (Kottakav), Kokamangalam, Palur, Chayal, Neranum, and Collam (Quilon) and consecrated bishops and priests from among them. These Christians of St. Thomas increased and flourished for some time until persecution arose and almost destroyed the community, leaving it bereft of pastors. The Catholicos (Patriarch) of the East being informed of this deplorable state of things in Malabar, supplied this Church with bishops and priests from Mesopotamia and Persia.

The series of these bishops continued till about the year 1596. On the death of Mar Abraham, the last of this series, Archdeacon George, a native Syrian priest, was appointed administrator of the diocese, who made public profession of the Catholic Faith at Vaipen in the presence of the Portuguese Governor, officials, clergy and people. Basing himself chiefly on the report of some Portuguese priests against the archdeacon, Archbishop Menezes of Goa came to Malabar and convoked a synod at Diamper in 1599 to purge the Syrians of some supposed errors that had crept into their belief and liturgy. On his return to Goa, he appointed, with the sanction of the Holy See, Francis Roz, S.J., a Latin priest, as the Archbishop of the Syrians. The Syrians being always eager to get a bishop of their own and finding their efforts unsuccessful rebelled against Francis Garcia, S.J., their third Latin Archbishop in 1663, and selected Archdeacon Thomas, a native Syrian priest, for their bishop, on whom 12 priests sacrilegiously imposed hands.

The Holy See coming to know of this revolt sent to Malabar Joseph Sebastiani, a disaffected Carmelite as Commissary Apostolic, with three companions to win back these Christians to the true fold. As most of the Christians were eager to come back, the Carmelites with the valuable assistance of Alexander de Campo (*alias* Parampil Chandy), a native Syrian priest, easily reconciled 40 churches to Rome in 1667, with the condition of obtaining them a bishop other than Abp. Garcia. Forty-four other churches followed them.

The remaining 32 churches were governed by Archdeacon Thomas who was afterwards consecrated by a Jacobite bishop Gregory in 1666. The descendants of these are the present Jacobite Syrians of Malabar. They are now divided into proper Jacobite Syrians who acknowledge the Jacobite Patriarch of Antioch as their head, and Reformed Syrians, the former numbering 225,190 and the latter 75,848. With the coming to Malabar in 1909 of the Patriarch of the proper Jacobite Syrians, there has occurred a split among them, some forming Dionysius' party and the others the Patriarch's party. On the return of this Patriarch, the former got down in 1912 another Jacobite Patriarch styled "the senior Patriarch," who conferred some powers on the bishops of this party. But the confusion among them has been aggravated as this Patriarch has, on his return to Jerusalem, joined the Catholic Church.

On the Dutch taking possession of Cochin, all Europeans excepting the Dutch had to quit Malabar. The Commissary Apostolic vested with the power of consecrating one or two bishops from among the natives, chose Alexander de Campo, a native Syrian priest, and consecrated him in 1668, first Vicar Apostolic of Malabar under the S. C. of Propaganda. In his old age, Bishop Alexander de Campo requested Rome to give him a co-adjutor in the person of his nephew. But the four Carmelites passed him over and selected a Eurasian priest of the Latin rite, by name Raphael Figueredo Salgado, to be co-adjutor to the Syrian Bishop. Bishop Alexander refused to consecrate him. He was therefore taken by the Carmelites to Calicut who got him consecrated there by Bishop Thomas de Castro in 1677. This co-adjutor acted independently of Bishop Alexander and quarrelled with the Vicar-General of the latter. Whereupon he was deposed by the Pope in 1694.

After the death of Alexander de Campo, one of the Carmelites succeeded him. The Portuguese Bishops of Cranganore also were governing a part of the Syrians.

This state of things lasted till 1859 when a deputation of the Syrian Catholics was sent to Joseph Audi, the Catholic Patriarch of Bagdad to get a Syrian Bishop. Accordingly in 1861, Mar Rokos, a Syro-Chaldean Bishop was sent by the Patriarch to Malabar. After a very short stay he was recalled.

Again the Syrian Catholics sent petitions to Bagdad. In 1874, Bishop Elias Mellus was sent to Malabar and some Syrian churches joined him. Though he left Malabar after some years, the remnant of his schism is still lingering in Trichur and forms at present a community of 18,780, under the name of "Chaldean Syrians." This sect is now divided into Mar Augustine's party and Mar Aimelech's or the Nestorian party.

The Syrians eager as ever to have Syrian bishops, petitioned Rome, explaining the deplorable state of their Church. The Holy See sent Archbishop Leo Meurin, S. J., of Bombay as Visitor Apostolic to Malabar in 1876 to know and report the real condition of the Syrians. He stayed in Malabar for 16 months, convoked two meetings of all the Catholic Syrian priests, one at Mannanam and the other at Ollur, visited several churches, thoroughly investigated the cause of all their grievances and reported it to Rome. Understanding from his report, the need of giving a separate Bishop for the Syrians, the Holy See appointed in 1877, Mgr. Marcelino as co-adjutor Bishop of Verapoly to have the separate charge of the Syrian Catholics.

The Syrians not satisfied with this, repeated their petitions to Rome. On the recommendation of Mgr. Agliardi, the Delegate Apostolic, the Syrian churches were withdrawn in 1887 from the jurisdiction of Verapoly and Bishops Medleycott and Lavigne, S. J., were appointed by Pope Leo XIII to govern them as Vicars Apostolic of Trichur and Kottayam.

This arrangement lasted until 1896 when the oft-repeated request of the Syrians to have bishops of their own rite and race was at last granted by the same Pope. The two European Vicars Apostolic were withdrawn and three native Syrian priests—Fathers John Menachery Aloysius Pareparambil and Mathew Makil—were consecrated at Kandy by the Papal Delegate on October 25, 1896 as Vicars Apostolic of Trichur, Ernakulam and Changanachery respectively depending directly on the Holy See. As Bishop Makil who was appointed for the Vicariate Apostolic of Changanachery was a Buddhist while by far the greater part of Catholics under him were Nordhists, this arrangement was found unsatisfactory and even harmful. This was represented to the Holy See. And at the recommendation of the three Vicars Apostolic the Nordhists were separated from the Buddhists in 1911 by Pope Pius X, and Bishop M. Makil had been appointed to govern the latter as Vicar Apostolic of Kottayam, and the Nordhists of the Vicariate of Changanachery were given another Native Syrian Bishop in the person of Mgr. Thomas Kurialachery. Thus the Catholic Nordhists now form the Vicariates Apostolic of Trichur, Ernakulam and Changanachery, and the Buddhists the Vicariate Apostolic of Kottayam, all depending as before directly on the Holy See. Moreover at the request of the Vicar Apostolic of Ernakulam he was given in 1911 a Co-adjutor Bishop with the right of succession in the person of Mgr. Augustine Kandathil. Both Mgr. Kurialachery and Mgr. (Kandathil) were consecrated at Kandy on the 3rd of December 1911 by His Excellency Mgr. Zaleski, the Delegate apostolic of the East Indies.

The Syrian Catholics number 413,142 souls (of whom 383,612 are Nordhists and 29,530 are Buddhists), with 871 churches (excluding chapels), and 418 secular and 72 regular priests.

Special conditions to be attached to licenses granted to shoot in the North Coimbatore and Kollegal Forest divisions.

For the issue of shooting licenses the reserves in the North Coimbatore and the Kollegal divisions will be divided into six blocks as shown in the appendix.

2. (a) As a rule not more than one party will be allowed to shoot in a block in any one calendar year, but the Collector may relax this rule at his discretion.

(b) A party will be limited to two guns.

(c) Blocks will be allotted in the order of applications. If applicants do not mention in their applications in what order they prefer the blocks, the District Forest Officer will allot what he considers the best block to the first applicant and so on.

(d) A party vacating a block for ten days or more will lose their men on it.

(e) License-holders will have a lien upon the block allotted them subject to (d) above, but they will not have an exclusive right to the block as against touring officials of the district holding licenses or the permanent residents of the divisions holding licenses who may shoot in any block whether allotted or not subject to the etiquette usual among sportsmen.

8. Persons permanently resident in the Kollegal division and in that portion of the North Coimbatore division north of the Bhavani river will be considered residents for the purpose of 2 (e).

4. The expression "touring officials of the district" shall mean all officials who are required or permitted to tour in the Kollegal or North Coimbatore divisions on duty.

5. The fee for a license will be Rs. 10 for permanent residents and touring officials and Rs. 50 for visitors. Every applicant must, unless specially exempted by the Collector in addition to the license fee, deposit a sum of Rs. 50 as security for the due observance of the conditions of the license. The deposit will be returned to the license holder on his application after the expiry of the period of his license, provided he has not infringed any of the conditions of the license.

6. No one shall shoot nilgai or the females or immature males of bison, sambhur, chital, antelope, four-horned antelope, muntiac or jungle sheep.

The expression "mature males" in the case of sambhur and chital shall mean stags in hard horn measuring 25 inches in length or over.

Chital	..	...	3
Antelope	..	...	1
Four-horned antelope	..	...	2

No limit is fixed at present in the case of other species.

The limit fixed is strictly individual, and if two licensees shoot in a party, one of them cannot exceed the limit on the ground that the other licensee is short of it.

8. The Collector may at any time close any part of any forest to shooting entirely or for certain species whether such area is included in a block for which licenses have been given or not.

9. Whenever any animal is shot, the license-holder must present his license for endorsement to the nearest Forest officer not below the rank of Forest guard and at the conclusion of the year, or when the licensee finally quits the shooting block, the license must be returned to the District Forest Officer of the division in which the block is situated with a statement of what has been shot. Trophies must be produced for inspection whenever required by a Forest officer not below the rank of Forest guard.

10. License-holders will be bound to give to the nearest Forest officer, without delay information which they may possess, regarding the commission or intention to commit any forest offence or regarding the occurrence of fire (see section 28 of the Madras Forest Act).

11. Nothing in this license shall be deemed to permit the capture or removal of any living animal.

12. Infringement of any of these rules may entail the cancellation of the permit and confiscation of all trophies or the forfeiture to Government of the whole or a part of the security deposit referred to in condition 5. The Collector's order of forfeiture shall be final.

(4) If there is room in the express, that is when 32 passengers have not been booked in London, passengers can notify their intention to travel to the Purser on board the Steamer, previous to arrival at Aden, up to the limit of 32. Information on this point is obtainable from the Purser of the ship. Passengers so notifying their intention can obtain their tickets after landing, at the Ballard Pier booking office.

(5) Passengers can also book at Victoria Terminus for any available berths by this train after the booking at the Ballard Pier has ceased.

(9) Meals will be provided in the dining car attached to the train.

Add half the cost of the Return ticket to a single fare. Deduct from the amount so arrived the cost of the Return ticket. This will give the difference to be recovered on travelling by the Postal Express Train.

(13) Passengers holding Messrs. Thomas Cook & Sons' coupons will be charged the difference between the value of the coupons and the ordinary first-class single fare.

ARCOT (SOUTH).

A District in the Madras Presidency. Bounded on the North by Chingleput and North Arcot; on the South by Trichinopoly and Tanjore; on the East by the Bay of Bengal; and on the West by Salem. Area, 4,208 square miles. Population, 2,362,566. Language spoken:—Tamil.

Taluks.—See Taluk List. For Travellers' and Staging Bungalows, etc.—See Special Section.

Cuddalore.—A sea-port, and the headquarters of the district, is situated on the Pennar and Adilam rivers; vessels anchor within about 1½ miles of the shore. In 1682, the H. E. I. C. opened up negotiations with the Khan of Gingee for a factory at Cuddalore, and the first buildings were put up in 1683; a ring of palmyra trees still marks the land ceded for the settlement. Trade grew rapidly, and the Company erected Fort St. David and enlarged their warehouses. In 1702 the fortifications were rebuilt on more modern lines. On the fall of Madras in 1746, the administration was taken to Cuddalore. Fort St. David was soon after twice besieged by Duplex, but without success; in 1752, the headquarters of Government were re-established in Madras, and, six years after, the French occupied the town and stormed and destroyed the fort. It was re-taken by the British in 1760, but again fell into the hands of the French in 1772, and was unsuccessfully besieged by the British in the following year. In 1785 it was finally restored to England, under the treaty of Versailles.

A few of the ruins of the old Fort still exist, and the old garden-house (1738) of the Governors of Fort St. David is now the official residence of the Collector of the district.

There is a Station Club, and also one for Indian gentlemen. Conveyances can be hired at the Railway Station (South Indian Railway), and in the town.

BANGALORE.

Bangalore is a city situated in 12° 57' N. Lat. and 77° 35' E. Long., and is 71 miles north of Seringapatam; it is 216½ miles by rail, west of Madras. It covers an area of about 22½ square miles, and is divided into two distinct parts, viz., the City or Pettah, which is the old Native Town of Bangalore proper, and the Cantonment, or Civil and Military Station. Bangalore is the seat of Government for the Mysore State, and the Civil and Military Station is the head-quarters of the Bangalore Brigade of the IX (Secunderabad) Division of the Army. It is also the head-quarters of the Resident in Mysore and Chief Commissioner of Coorg.

The name Bangalore is a corruption of *Bengalûru*, which is probably derived from *Bengalu*, a kind of bean, (hence the proverbial "City of Beans"), and the following story has been related in connection with it. One day, when King Viru Ballala was hunting, he became separated from his attendants, and, losing his way, wandered about till nightfall. At last, faint and weary, he came upon a solitary hut, in which was an old woman, to whom he applied for something to eat. She had nothing better to offer him than some *Bengalu* (green beans boiled in a little water), which, however, he was glad to get, and sharing them with his horse, passed the night under shelter of the lowly hut. The incident speedily became known, and the village (*ûru*) which sprung up, thence took the name of *Bengalûru*. Bangalore has long enjoyed a reputation for salubrity, and a climate suitable for Europeans. Many hale, hearty people of an older generation have settled there; children thrive there. The hot season is from March to May. Courts, schools and colleges have their vacations at this time. The heat is dry, and often untempered by any breeze; the maximum heat is from 90° to 95°, occasionally 99°. The mornings, even at this time, are fairly cool; with sunset the temperature falls rapidly and the nights are quite bearable. The S.-W. monsoon breaks in June, accompanied by high winds and cloudy days; thereafter the weather is cold and bracing, and the close of the rainy season in November is marked by dense fogs which prevail all over the country in December and January, when fairly warm clothing is advisable.

The City stands in the centre of the Mysore table-land, about 3,000 feet above the sea, the general level being broken by a few slight elevations. The old Fort stands in the extreme south-west, north of which is the Pettah. The Fort is said to have been originally built of mud in 1537 by a local chieftain, the Poligar Kemp Gowda. The present fortifications of rubble stone were built in 1761 by Hyder Ali from plans by a French Engineer. The old Palace of Hyder Ali and Tipu Sultan was used for offices until 1876, when they fell into decay, but a small portion was restored in 1886. Some foul, dark, subterranean dungeons still exist, one of which was Sir David Baird's prison for three years and ten months. Beyond the Fort is the Lal Bagh, or Horticultural Gardens, one of the finest in India. The City comprises an area of 10·72 square miles, and trade is brisk in cotton and grain.

The Civil and Military Station stretches away towards the north-east, terminating in the Native quarters of the Cantonment Bazaar, beyond which are the suburbs of St. John's Hill, Benson Town and Cleveland Town, dotted with the cottages of a large number of pensioned Europeans, and Fraser Town, with Richards Town, Cox Town and Wheeler Extension recently opened up to relieve the congestion in Blackpulley. The large open space between the two Native quarters contains the Race Course, the Cubbon Park, the High Ground, and the Parade-ground. Here also are situated the chief Government offices, the houses of well-to-do European residents and the principal Hotels. The localities in the South are Richmond Town and Langford Town, Shoolay, Nilsandra and Ulzur. The Cantonment, or Civil and Military Station, covers an area of about 12½ square miles and was assigned to the British Government for purposes of political and administrative control, the Maharaja of Mysore having renounced the exercise of jurisdiction within it. It is officered by a British Resident of the first class, who is also the Chief Commissioner of the Province of Coorg. In it are situated the Barracks and Lines of the troops. Here also are the residential quarters for Europeans, Telegraph and Post Office schools, banks, shops, and places of amusement and recreation. The Central Jail

covers a large space to the west of Cubbon Park, and is built on the radiating principle, with workshops for many trades. The Central College to the south-east of the Jail contains a hall with a roof supported by light monolithic columns, 30 feet high, quarried in the neighbourhood. The Maharaja's fine Palace is on the High Ground, in the extreme north. The new buildings of the Indian Institute of Science lie in open ground to the extreme north-west of the Station. There are numerous churches of different Christian denominations and many Hindu temples and Mahomedan mosques, as well as several excellent schools for European children.

A Students' Hostel attached to the School is located on the farm where quarters for living have also been provided. Students attend the Laboratory classes in Bangalore two days in the week. An Implement Depot is attached to the Department in which machines and implements specially adapted to the agricultural requirements of the State are stocked and sold to the ryots. As far as possible, local manufacturers are encouraged to stock approved implements made by them in this Depot. When definite results in regard to experiments in the various branches of the

Another Farm at Hiriya in Chitaldrug District has been sanctioned for this department.

Cole's Park—Which is in charge of the Municipality of the Civil and Military Station is situated to the west of St. John's Hill. This is again becoming a pleasant place of resort to the residents of St. John's Hill, as the Volunteer Band now plays in it when not otherwise engaged. The Tennis Courts are used by members of the Wesley Guild.

Cubbon Park.—The Cubbon Park was originally laid out by the late Genl. Sir Stanley, B.E. It is named after Sir Mark Cubbon, a very popular Chief Commissioner of Mysore, and covers an area of more than 100 acres. It is situated east, north and south of the Public Offices, from the balcony of which a fine view is obtained, both of the Park and the surrounding country. The grounds include the Government Museum, the Sir Seshadri Iyer Memorial Hall and statue, an equestrian statue in bronze of Sir Mark Cubbon by Baron Maitchett, and a white marble statue of the late Queen Victoria by Sir Thomas Brock in Queen's Road. A statue of which the pedestal is erected to match this one, as a memorial to the late King Edward, on the North side opposite the New Telegraph Offices. Land has recently been acquired in the south-west and various improvements are being carried out, which will include the erection of a new Bandstand facing the Seshadri Hall for the Military Bands which now play here two or three times a week.

The Mysore Survey Offices near the Cenotaph Crossing is another fine block of buildings.

The Mysore Government Museum—Established in 1865, is open to the public from 7 A.M. to 5.30 P.M. daily, Sundays and a few special holidays excepted. Among other specimens on view, there is a collection of Mysore coins, a large collection of the mineral products of the Province, and Mysore ware. There is also a Library and Reading Room. The Superintendent, Mr. G. H. Krumpholtz, will be glad to receive and acknowledge contributions of any kind.

The Lal Bagh.—The Lal Bagh is the Mysore Government Botanical Gardens. It is about two miles to the south-west of the Cantonment—a very pleasant ride or drive. The beautiful pleasure was first laid out in the time of Hyder Ali and was greatly enlarged by Tipu Sultan. It now possesses a Picnic Pavilion, a much needed addition, and the spacious and lofty Glass House, in imitation of the Crystal Palace in which the Horticultural Shows are held. There is also an equestrian statue in bronze of H. H. the late Maharaja Krishnaraja Wodeyar Bahadur, G.C.S.I., erected near the Rosarium, the same having been removed from Mysore, where it was originally set up. The Gardens are over 100 acres in extent and among the finest in India, well worthy of a visit. A large Farm for experimental work and plantation for demonstrating Economic Botany is being developed close by, and a Seed Depot, Economic Bureau and Herbarium have been newly started. MAYO MEMORIAL HALL.—This imposing looking building was erected in memory of the late Lord Mayo, Governor-General of India. In 1883 it was made over by the British Resident to the C. and M. Station Municipal Commission on condition that the upper floor was available free of charge, to all Meetings of a public character. The Hall, which is now fitted with an installation of electric lights, is not rented as formerly for dances, concerts, wedding receptions etc. The Municipal offices are on the ground floor, the Hall being used for all Meetings of the Municipal Commissioners.

OSSOOR ROAD CEMETERIES.—These lie to the south of Richmond Town and the Protestant Cemetery contains some very handsome tombstones. A cenotaph is erected here to the memory of the officers and men of the 16th (Queen's) Lancers who died while serving in this country. The Roman Catholic cemetery adjoins on the west and the Protestant Indian Christian cemetery on the south. More ground for the Protestant cemetery was enclosed on the north and the Scotch portion dedicated in August 1916.

KULPULLY CEMETERIES.—These are situated to the N.-E. of St. John's Hill and some of the grave stones are of very old date, one of them going back to 1808. The late General John Wheeler Cleveland (after whom Wheeler Road and Cleveland Town are named) and his wife were buried here, the latter in 1874 and the former in 1888. A red granite monument has been erected in the Protestant cemetery to the memory of the N.-C. Officers of the 42nd Company of the Royal Engineers "who died in peace and war." The Roman Catholic Cemetery to the west contains a grotto in which there is a plaster representation of the Crucifixion, a very life-like work.

OLD PROTESTANT CEMETERY.—It is not everybody in Bangalore who knows of the existence of this now disused place of interment. It is near the Cavalry Riding School, behind the Church of England Soldiers' Institute, and well worth a visit. There are some huge grave-stones and monuments bearing quaint epitaphs; one of the oldest of these dates back to 1808. This cemetery is open to visitors on Thursdays and Saturdays.

THE RACE COURSE.—Is at the extreme west of High Ground, and is gained by the road leading past the Residency. The track, 1½ miles round, is considered one of the best in India. The big Race Meeting is held in July, with Spring, Summer, Autumn and Winter Meetings thrown in whenever practicable. The Gymkhana Club's Races are also held here. Various improvements were made to the Grand Stand and first enclosure in 1912 and the Turf track was also widened. *The Secretary is.*—Mr. H. Donnic.

THE GENERAL MARKET.—Is situated at the junction of Broadway and New Market Roads, and is enclosed by long rows of miscellaneous shops, stores, etc. A new range of buildings were completed in 1912 for the "Evening Bazaar" which adjoins the Market and which is called "Richards Square." The road known as New Market Road, was closed from the north and south sides and traffic diverted by the west of the Lady Curzon Hospital. New gates presented by Mr. Ahmed Satt, were fixed up at the south entrance to the Bowring and Curzon Hospitals. The construction of a market better suited to the present requirements of the people is in contemplation by the Municipality opposite to the present one. *J. Sausman, Market Sergeant.*

IMPERIAL SERVICE TRANSPORT LINES.—These buildings are the head-quarters of the Mysore Government Transport Service, and were completed in 1903. They are on the Tumkur Road, two miles out of Bangalore. The grounds attached to the building are well kept.

STATUE OF QUEEN VICTORIA.—This monument (by Sir Thomas Brock), was erected from contributions by H. H. the Maharaja of Mysore, his people, and the residents of the Civil and Military Station in memory of the late Queen-Empress of India. It stands at the south-east entrance of Cubbon Park, not far from St. Mark's Church, and was unveiled by H.B.H. the Prince of Wales (now King George V) in February 1906. The Statue is of white marble, while the pedestal, which is 13 feet high, is of Mysore grey granite. It is enclosed by a circle of ornamental railings and four obsolete cannons have been placed in position around it.

RICHMOND TOWN PARK.—Is a small piece of fenced ground laid out with flower beds and paths, in charge of the Station Municipality. It is provided with a Band stand, but no band plays there now and it is resorted to mostly by pensioners, ayahs and the children of Richmond Town. There is a Municipal Nursery garden established here now.

SHESHADRI MEMORIAL HALL.—Erected by public subscription aggregating over a lakh of rupees, to the memory of the late *Rajadhiranithara* Sir K. Seshadri Iyer, K.C.S.I., a former Dewan of Mysore, who ruled the destinies of the State for 18 years, from 1883 to 1901 with conspicuous success, is located at the south-west end of the Cubbon Park. The memorial includes a bronze statue of the deceased statesman, by Colton, unveiled in November 1913 by H. E. Lord Hardinge, Viceroy and Governor-General of India, and a Public Library. This large and excellently situated building has been in use for the last 3 years, the Cosmopolitan Club occupying a portion of it and the Sloyd Classes and Educational Museum, which have recently vacated in favour of the newly established Mechanical School of Engineering, the rest, without prejudice, of course, to the occasional use of the building for such other public purposes as meetings, etc.

SIR K. SHESHADRI IYER'S STATUE.—This is a bronze statue representing the late Sir K. Seshadri Iyer, K.C.S.I., in his Durbar dress. It is erected in front of the Memorial Hall which stands in a conspicuous part of the Cubbon Park amidst charming surroundings and on a lawn tastefully laid out with excellent roads and approaches all round. The unveiling ceremony was performed on the 20th November 1913, by H. E. Lord Hardinge of Penshurst, Viceroy and Governor-General of India, who admitted that the statue is a rare work of art. The statue is a faithful likeness of the great statesman whom it is intended to commemorate. It was made in England by Mr. W. B. Colton, a sculptor of acknowledged reputation, and stands on a pedestal designed by the late Mr. P. B. Raghavala Naidu of the Palace Improvement Division. It is 6 feet in height. All expenses included, the statue cost the Committee nearly Rs. 25,000.

THE STATION PUBLIC OFFICES.—Are adjacent to the Mayo Hall with entrances on the ground floor from the South Parade and Residency Roads. The building, which is a handsome structure, is in the Florentine style and is one storey high. Besides the Resident's Treasury, the offices of the Collector and District Magistrate, the Excise Superintendent, the Railway and Second Magistrate's Courts, the District Superintendent of Police, the Amildar, the Sub-Assistant Inspector of Schools, &c., are accommodated here.

TATA SILK FARM AND SCHOOL.—Will well repay a visit. It is two miles to the south-east of the Lal Bagh, on the Yeddur Road. Originally the property of the late Mr. J. N. Tata of Bombay, and subsidised by the Mysore Government for instruction in Sericulture to village School masters. The Farm was recently made over to the Salvation Army, who have introduced their Patent Automatic

rooms, so that in addition to the rearing of silkworms and reeling of silk, weaving is now done on the looms. Students attending a six or twelve months' course of study are taught the various pursuits in the mulberry, worm-rearing, reeling and weaving Departments. *Superintendent*.—E. Jackson.

FRASER TOWN AND RICHARDS TOWN—Are two suburbs to the north of the Civil and Military Station. The first was called after Mr. S. M. Fraser, I.C.S., c.s.i., c.s.i., a former Resident of Mysore, and the second after Mr. F. J. Richards, I.C.S., who was a President of the Municipal Commission and Collector of the Civil and Military Station. In Richards Town there are some very fine houses and a Park, which, though small, is one of the best in the Station.

PUBLIC, CHARITABLE AND OTHER INSTITUTIONS.

THE ANJUMAN-E-ISLAMIA.—The Anjuman-e-Islamia is the representative Association of the Mahomedans residing at the Civil and Military Station, Bangalore. The following gentlemen are its Office-Bearers:—*President*.—T. Abdul Karim Sahib, Retired Dy. Conservator of Forests. *General Secretary*.—Ghulam Ahmed Nawab Sahib. *Treasurer*.—Hajee Osman Saib Sahib. *Financial Secy.*—Hajee Abdul Karim Saib.

The Anjuman consists of about 150 members including about 25 Hindu gentlemen who pay monthly from Rs. 5 down to 4 annas. The monthly income of the Anjuman through individual subscriptions and donations has averaged about Rs. 150 per mensem, which is spent in maintaining a library and reading room on Dickinson Road and a day school and two night schools, which impart free education to about 200 Muslim boys. The Imperial Government gives a grant of Rs. 50 per mensem to the day school and the local Municipality gives Rs. 20 per mensem to the night school. The premises of the Association is also open to all castes and creeds as a place of social gathering where a good number of members collect daily and exchange their views on topics of the day, the main object of the Anjuman being to accelerate the education of Musalmans and to improve them socially, their watchword being true loyalty to the British rule.

THE E. B. A. N. M.'s UNION—Is under the management of a Committee selected from among the members, of which Mr. A. R. Kesavelu Mudaliar is the Honorary Secretary. There are two excellent Tennis Courts on the ground, in Gangadhar Chetty Road.
